This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. The Westinghouse Air Brake Co.,

PITTSBURGH, PA., U. S. A.,

MANUFACTURERS OF THE

WESTINGHOUSE AUTOMATIC BRAKE.

The WESTINGHOUSE AUTOMATIC BRAKE is now in use on 25,000 engines and 150,000 cars in all parts of the world. This includes 80,000 freight cars.

The WESTINGHOUSE AUTOMATIC BRAKE is the only continuous brake that has been successfully used on freight trains.

THE AUTOMATIC BRAKE will, in consequence of its quick application, stop a train in the least possible distance.

THE AUTOMATIC BRAKE on freight trains, as in passenger service, applies itself instantly to all parts of the train in the event of the train breaking into two or more parts, a feature of great importance in view of the statistics published in the *Railroad Gazette*, which show conclusively that a majority of the collisions are caused by the breaking in two of trains. (See *Railroad Gazette*, Feb. 12, 1886, page 113.)

THE AUTOMATIC BRAKE also applies itself to every car in the train, in the event of any accident to the brake apparatus of such a nature that it would render any non-automatic continuous brake inoperative.

THE AUTOMATIC BRAKE can be applied from the rear or from any portion of the train, if desired.

THE AUTOMATIC BRAKE will effect an increase of at least twenty-five per cent. in the efficient value of freight rolling stock, owing to the quicker time that can be made on the road, and the avoiding of delay at stations and sidings. Freight trains carrying perishable goods are being daily run on passenger schedules.

THE AUTOMATIC BRAKE, applied to freight cars, avoids the flattening of wheels and effects a yearly saving, in this item alone, nearly equal to the first cost of the apparatus.

THE AUTOMATIC BRAKE will prevent a greater part of the accidents to freight trains which form so large an item of expense in railway management.

THE AUTOMATIC BRAKE will save employés from the danger and exposure to which they are now subjected, having to ride on the tops of cars in cold and stormy weather, and often sacrificing their lives in the discharge of their duties.

THE AUTOMATIC BRAKE is simple in construction and operation, and cheaply maintained, the working parts being combined in one piece of mechanism.

THE AUTOMATIC BRAKE is not an experiment, but is the result of many years of practical experience and its capabilities are well known to all railway managers.

EAMES VACUUM BRAKE CO.,

GENERAL OFFICE: 115 Broadway, New York City.

WESTERN OFFICE: Phœnix Building, Chicago, Ill.

WORKS, WATERTOWN, N. Y.

The Driver Brakes manufactured by this Company are the best and cheapest in the market. They are equalized, strongly and thoroughly built, wholly of wrought iron (excepting only the shoes and heads) and are durable and efficient. The control of the breaking power is perfect. The pressure is applied easily and gradually without the concussion or blow inseparable from other driver brakes, and may be graduated with nicety. There are no stuffing boxes or pistons, no chance for leakage, and no trouble from condensation and freezing in the coldest weather. They require no lubrication, and cost almost nothing for maintenance. They are in use on hundreds of railroads in the United States, and have invariably given satisfaction.

The efficiency of the Eames Driver Brake, in comparison with others, is shown by the following record of stops MADE WITH DRIVER AND TENDER BRAKE ONLY, in the Freight Brake tests at Burlington, July, 1887:

SEMAPHORE SIGNALS, OPERATED ELECTRICALLY,

AT ANY REQUIRED DISTANCE, WITH PRECISION AND CERTAINTY.

Useful at all points where trains are to be signalled and controlled from a distance. Movement of signal effected by currents from magneto machines, which will operate any required number of Semaphores from the one station. The signals are full sized out-door Semaphore arms, mounted on posts about 20 ft. high, the Semaphore being locked in either position, whether "Danger" or "Safety" until properly operated. These Electric Semaphore Signals are also employed in a superior

WATER TANK and STATION AUTOMATIC SIGNALS,

For prevention of "Tail End" Collisions and Accidents from following trains.

Accidents at Highway Railroad Crossings Prevented

—— BY THE ——

MAGNETO ELECTRIC ALARM SIGNAL.

By its use railroads may greatly limit the expense of protecting their highway crossings, a matter which is daily becoming more important and likely, if neglected, to involve immense outlays of capital.

THIS SIGNAL GENERATES ITS OWN ELECTRICITY

as required, and only by passage of train or locomotive. As no cup batteries are used, there is no freezing in winter, and no materials are required to maintain the signal, except oil for lubrication.

The action of the Alarm is effected by electricity generated by very compact, strong, and substantial Electric Generator Machines of the *Magneto* type, fitted in strong iron cases which are placed alongside the tracks at required distance from the crossing.

These generators have a train of gearing, with fly-wheel, actuated, through a powerful spring mechanism, by a lever which stands slightly above the surface of the rail, so as to be depressed by every passing wheel which has a "tread" wider than the rail; producing an action which continues until train arrives at the crossing.

READ OTHER SIDE OF THIS LEAF.

The whole problem of its successful operation is *essentially mechanical*, with merely a spice of very simple electrical matters which are quite easily comprehended and acquired by any person possessing an ordinary amount of intelligence.

For Lubricating TRADE MARK **VALVOLINE** **the Valves and Cylinders of Locomotive Engines.**

If you value economy in fuel and wear to your Engine, the vital parts must be kept in order by a proper Lubricant that will stand a high temperature of heat ***without oxidizing and destroying the parts.***

VALVOLINE for this purpose is an earth oil, specially prepared under the highest steam heat, and unlike the Valve and Cylinder Oils in common use, all Volatile and Earthy matter has been expelled by a process which leaves a ***pure and heavy oil.*** It owes its superiority to the expensive process by which it is refined, and ***its equal cannot be found;*** clinging with more tenacity to the metal and resisting the heat and pressure of the steam, it remains intact on the surface, while other oils are carried off in the exhaust steam

VALVOLINE prevents the eating away of the bolts, and ***keeps the Cylinders and piston packing perfectly clean,*** thus avoiding the danger of cleaning with Kerosene Oil. This was the first Mineral Oil introduced in Steam Engine Cylinders, and has been in constant use over fifteen years. The above Oil is put up in barrels, and, on application, sample lots of from One to Ten Barrels will be sent on trial, and satisfaction guaranteed or no charge will be made for the oil used.

References and Prices furnished upon application.

IT STANDS FOUR-SQUARE TO ALL THE WINDS THAT BLOW.

YOU ARE SAFER FROM ACCIDENT

on an express train of a first-class railroad than you are when walking on Broadway, but YOU ARE NEVER SAFE FROM DISEASE, no matter where you are, nor what pre autions you take. You don't very often hear of a man dying of cancer, yet there are more deaths from cancer than from accident; heart disease takes twice as many, and Bright's disease, Pneumonia, and Apoplexy each about three times as many.

IF YOU WENT TO WAR,

say a war as desperate and bloody as the Civil war of 1861–65, what do you suppose your chance would be of coming home alive? It would be just about the same as it is of living from age 35 to 50 in time of peace! This is what statistics show, and in view of such facts, don't you think

YOU OUGHT TO BE INSURED

in a safe Company like the NEW YORK LIFE? One of its non forfeiting Free Tontine Policies would protect your family and estate for a term of years, and then if you lived, would give you a handsome return in cash. Don't say there is nothing new in Life Insurance until you have seen full particulars of these policies. What would you say to a Guaranteed Mortuary Dividend equal to one-half of

ALL PREMIUMS PAID,

in addition to the face of the Policy, in case of death during a Tontine period of fifteen or twenty years?

WHY RUN RISKS?

When the "National Safety Paper" offers **absolute protection.** Other so-called safety appliances have been tested and found wanting. The expense of printing documents on the **National Safety Paper** is but little more than on plain papers, while the **advantages secured are beyond estimate.** Why, then, run risks?

It guards fully against every alteration, either by erasure or chemicals.

It is the **only** means that prevents the **removal of one name** and the **insertion of another** in vouchers of value.

It is the **only** means applicable to all written obligations.

It involves no extra labor or care, no punching, stamping, cutting, or washing.

It is always ready for use.

It is the **best** protection ever invented for Paying and Receiving Tellers, as such is the peculiarity of the paper that any tampering with it is at once apparent.

It is endorsed by the highest banking authorities.

It has been tested in the **severest** manner, with not a single instance of **successful alteration.**

To prevent losses, have your Checks, Drafts, etc., printed on this paper.

THIS CORPORATION ISSUES POLICIES

Indemnifying Employers of Labor Against Loss

ARISING OUT OF THEIR

Legal Liability for Accidents to Workpeople.

In case of Accident, the Corporation assumes all liability, defends suits at its own cost, and pays damages awarded or cost of settlement of case without litigation.

Employers representing payrolls of over $70,000,000 already insured in U. S.

PROTECTION FROM LOSS

is afforded **PROPERTY OWNERS OR LESSEES** by the

ELEVATOR POLICY

issued by this Corporation.

This policy, at a moderate charge, protects owners or lessees of buildings against loss by reason of their liability for personal injuries caused in connection with the use of elevators.

In addition to this indemnity, **the Corporation has a thorough inspection made, every three months, by leading Elevator Manufacturers (Otis, Hale, Crane, Whittier, and others).**

THE BEST

LIFE IS TOO SHORT

To waste time in searching for reliable Journal Bearings, and too precious to be imperiled by the use of bad ones, when

"THE BEST"

Will in all cases be secured by simply ordering "Hopkins' Standard" Journal Bearings from

D. A. HOPKINS, 113 Liberty St., NEW YORK.

Hopkins still makes, and will continue to make,

THE BEST.

Hot Boxes, Ruined Journals, Delayed Trains, Collisions, and Destruction of Life and Property often result from the use of Bearings of Inferior Materials or Workmanship.

The Use of Poor Bearings is Always Costly and Dangerous.

MAGNOLIA ANTI-FRICTION METAL

The Best Anti-Friction Compound for Car, Locomotive, and all Machinery Bearings.

CLAIMS.

1. It prevents HOT BOXES.
2. It will not CUT or HEAT Journals.
3. Its lasting qualities are of the highest order.
4. It is a SELF-LUBRICATING Metal, saving large percentage of oil.
5. It increases the Motive Power.
6. It is the only metal that protects and does not wear Journals. It ENAMELS them.
7. It is adapted to HIGH and LOW speed Machinery.
8. It will stand the heavy work of SUGAR, ROLLING, SAW, and WIRE MILLS.
9. It is a success for MAIN JOURNAL and CRANK-PIN BEARINGS; also GIBS of Steamships and Steam Tugs.
10. It is the best WATER metal.

"We respectfully recommend its purchase for purposes coming under the cognizance of the Bureau of Steam Engineering." **Respectfully submitted,**
WM. A. WINDSOR, P.A. Engineer, U.S.N.
F. C. BOWERS, Asst. Engineer, U.S.N.
June 12, 1888
To the Commandant, Navy Yard, New York.

PROVED BY TESTS ON AND ENDORSED BY (See Extracts.)

EAST TENNESSEE, VIRGINIA AND GEORGIA RAILWAY.

"The road has saved at least 75 per cent. in the cost of brasses by the use of Magnolia Metal in these engines. We have also tested your Camelia Journal Bearings under our General Superintendent's car during the past seven months with perfect satisfaction. Your Magnolia Metal is the best Compound for Journal Bearings we have ever used, and we are introducing it on our road as fast as practicable." Yours very truly.
I. B. MICHAEL, Master Mechanic.

WEST CHICAGO STREET RAILROAD CO.

"We have had your Magnolia Metal in use on our road during the past six months, and find it to give better satisfaction than any Anti-Friction Metal we have ever used heretofore." Yours truly, CHAS. F. NAGL, Supt.

GERMAN GOVERNMENT RAILROAD WORK.
MAIN OFFICE OF THE BUCKAU, MAGDEBURG, R R. Co.,
Directorial District of the Royal R.R. Direction, Magdeburg.

"Replying to your esteemed letter of December 24th we are pleased to state that all experiments made up to the present time with the Magnolia Metal have given very satisfactory results. The experiments, however, being not yet entirely finished, we are not able to give final figures." [Signed] THOMAS, Director.
(About a year's test.) Buckau, Magdeburg, Jan. 6, '89.

CHESAPEAKE AND OHIO RAILROAD.

"The brasses have made within dates named 43,865 miles, and show only about 1-16 inch wear—much better record than any other brasses have ever made for us. I consider them a superior brass." [Signed]
Yours truly, J. W. LUTTRELL, Supt. Machinery.
NOTE.—We line our Camelia Brass with ⅛-inch of Magnolia Metal.

SOUTHERN PACIFIC COMPANY.

"We are using the Magnolia Metal and Camelia Brasses on our road and find them the best we have ever used. Shall adopt the Magnolia Metal also for the Morgan Line of Steamers." Resp'y, J. D. CONNELL, M.M.

C. C. C. AND I. R. R. Co.

"The two journal bearings you furnished for trial were applied Aug. 3, 1887, to tender truck of Engine 165, and were removed Feb 25, 1889, having run 71,202 miles, the amount of wear being 1-4 (¼-inch Magnolia-lined). The 27½-lb. bearings, which you furnished about the same time, were applied to one of our large passenger engines, 167, Aug. 18, 1887, and were removed July 19, 1888." Yours truly,
April 1, 1889. W. F. TUREFF, General M.M.
NOTE.—This engine was the terror of the road.

RICHMOND AND DANVILLE R.R. Co.

"I consider it the best metal we have ever used on the road." Yours truly, GEO. W. O'BRIEN,
Gen'l Foreman, Atlanta.

ALABAMA GREAT SOUTHERN RAILROAD CO.

"I find that it has done all that is claimed for it, never having shown any signs of heat, and with less use of oil than Babbitt's requires, and would say, if my opinion was consulted, I should recommend its adoption for general use, believing it would obviate the damaging results growing out of hot journals." Very resp'y,
C. E. SLADE, Master Mechanic.

THE GEORGIA PACIFIC RAILROAD CO.

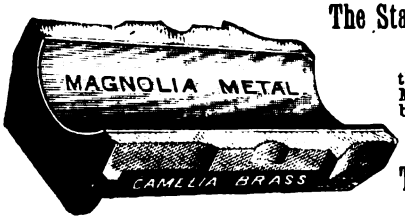
"It has given better results than any other metal we have used. Until something much better is introduced to answer the same purpose, I shall use the metal on all of our engines, both in rods, truck, and driving boxes. Trusting you may meet with the success due you, I am, yours truly."
WM. T. NEWMAN, Master of Motive Power.

AMERICAN INSTITUTE FAIR.
(57th Exhibition.) New York, Dec. 19, 1888.
MAGNOLIA ANTI-FRICTION METAL Co., City:

"The medal of Superiority, Highest Award, was awarded for Magnolia Anti-Friction Metal at the 57th Exhibition." CHARLES W. HULL, Gen'l Supt.

WESTERN AND ATLANTIC RAILROAD CO.

"It is the best remedy for "Hot Journals" that I know of. We use less oil where we have this metal."
Yours truly, M. L. COLLIER, M.M.



The Standard "Brass" for all Railroad Rolling Stock.

MAGNOLIA-LINED.

The superiority of the "Camelia Brass" lies in the fact that, instead of being Lead-lined, it is lined with "Magnolia Metal," the best bearing Metal in the world; the Brass itself being an exceptionally good alloy.

"THE BEST IS THE CHEAPEST."

The Griggs Electric Air Signal Co.

WILMINGTON, DEL.,

MANUFACTURERS OF THE

GRIGGS SYSTEM OF TRAIN SIGNALS,

FOR OPERATING BETWEEN CONDUCTOR AND ENGINEER.

AIR VALVE AND WHISTLE OPERATED BY AN ELECTRIC CURRENT,

FURNISHED BY THE

CELEBRATED GASSNER DRY BATTERY.

Not affected by heat or cold. Service quick and instantaneous. A code of telegraphic signals if need be. Apparatus the acme of durability and simplicity. Will operate through twenty coaches as promptly as through one. We are Agents for the Gassner Battery, in railroad application, for the United States.

WILMINGTON, DEL., May 31, 1889.

An inexpensive and reliable signal for train use between conductor and engineer is now offered to the Railroad public by the GRIGGS ELECTRIC AIR SIGNAL COMPANY, of Wilmington, Del. The cheapness, simplicity, durability, and certainty of action in this system commend it to the investigation and adoption of all railroads. The age of cab gong bells and continuous bell cords has past, and we offer instead the only perfect and absolutely unfailing whistle system yet devised.

The wiring between coaches or cars, which is fully protected, is connected through by plunger couplings, specially designed to meet all requirements of the source, and especially such as are due to the exposed situation.

The circuit is closed by contacts over the door, and is operated by a cord running the length of coach.

We guarantee that our whistle *will not* sound unless the conductor gives the signal, or the train parts, and that it *will* sound every time the signal cord is pulled, no matter how rapidly this is done, nor how long the train may be.

We invite attention to the subjoined letter from Supt. A. G. McCausland, of the Wilmington & Northern Railroad, on whose trains the system has had a thorough test.

We are now ready to fill all orders on such terms as cannot fail to prove satisfactory to the most economical management. Address all communications to

ALBERT C. GRIGGS, *General Manager.*

WILMINGTON & NORTHERN RAILROAD COMPANY.
OFFICE OF THE SUPERINTENDENT AND TREASURER,
100 Maryland Ave., WILMINGTON, DEL., June 5, 1889.

ALBERT C. GRIGGS, Esq., General Manager Griggs Electric Air Signal Co., Wilmington, Del.

Dear Sir:—After a thorough trial of your Signal upon our passenger trains, since January last, it affords me much pleasure to say that it has given us perfect satisfaction.

Its workings are *positive, accurate*, and rapid, and the thorough test we have given it for over five months shows it is thoroughly reliable. Very truly yours,

A. G. McCAUSLAND, *Superintendent.*

By examination of the above table it will be found that stock and bond capitalization averages largest per mile in the Middle Group and smallest in the South Atlantic Group. The average cost per mile is greatest in the Middle Group; the Pacific Group comes second and the New England Group third, the South Atlantic being lowest in this also. Gross earnings attained the largest average per mile in the Middle Group, followed by the New England, Pacific, Central Northern, Gulf, Northwestern, Southwestern and South Atlantic Groups in the order given. Net earnings were in the same general order. The percentage of expenses to earnings was lowest in the Northwest and highest in the Southwest. The highest rate received per passenger mile was in the South Atlantic Group; the lowest in New England. The highest rate per ton-mile was in the Pacific States; the lowest in the Middle Group.

NOTE.—The "annual increase in mileage" usually represents the net increase within the year named. Below will be found a detailed statement of railroad construction for the three years, 1886-88, and similar statements for preceding years will be found in past numbers of the MANUAL. The total mileage reported by the MANUAL for 1888 as completed at the end of 1887 was 149,912.70. During the past year these figures have been carefully revised, and a large extent of mileage which it was found was only temporary logging and mining track, not owned by incorporated railroad companies, has been eliminated. The total mileage of all lines in the country at the end of 1885, as shown by the revised statements presented herewith, was 128,361.28 miles; construction in the three years since then, as per construction table, 28,140.25 miles—total, 156,501.53. But during the three years roads aggregating 420.01 miles were abandoned, etc., leaving the actual mileage of the country at the end of 1888, 156,081.52 miles.

THE year 1888 is notable for the reason that it marks the beginning of the second century of our existence as a nation. When Washington was inaugurated one hundred years ago, our population was less than 4,000,000. To-day it is estimated at 65,000,000. Enormous as has been this increase in the population of the country within the short period of one hundred years, the increase in wealth and material prosperity resulting from the rapid development of the country's wonderful resources has been in even greater ratio—has, in fact, no parallel in the history of the world.

That these wonderful results are due chiefly to the rapid expansion of our railroad system none will gainsay. What our condition would be without railroads it is impossible to conceive; what it is, having them, is universally known. In point of wealth the United States, even in their present but partially developed state, lead all other countries; and each year adds more, proportionately, to the accumulated wealth of this country than to that of any other, so that we are rapidly distancing all competitors.

Of the total railroad mileage of the world the United States now possess nearly one-half. At the end of 1888 the aggregate length of all lines in the country was 156,082 miles, all built in sixty years, the average mileage constructed per year being nearly 2,600 miles. But this record of sixty years, wonderful as it is, fades into insignificance when compared with the achievements of the past twenty-three years—since the close of the Civil War.

The total mileage of our railroads at the close of 1865 was 35,085 miles. In the twenty-three years since then there have been constructed 121,000 miles of

new road, an average of 5,260 miles per annum, twice the annual average of the whole period of sixty years, and 5.3 times the annual average of the first period of thirty-five years. During these twenty-three years the country has experienced three great waves of railroad construction, which were checked only by extraordinary financial revulsions.

The first of these great construction waves occurred within the eight years intervening between the close of the war and the panic of 1873. In that time the mileage increased more than 100 per cent., or from 35,085 miles in 1865 to 70,268 miles in 1873. Within this period was completed the first Pacific Railroad line, and construction on a second line to the Pacific was well under way. The cash cost of the 35,000 miles of road constructed in these eight years must have exceeded $1,400,000,000; and the panic, which began in the fall of 1873, was largely the result of the transformation—following so close in the wake of a great civil war—of this vast sum from floating into fixed capital.

In New England, during this period, railroad mileage increased nearly 2,500 miles; in the Middle States the increase was 6,070 miles, about 75 per cent.; in the South it increased 4,000 miles (44 per cent.), and in the Pacific States the increase was from 166 miles to 2,193 miles. But the great increase of this period was in the Western and Southwestern States, as is shown in the following statement:

At the close of 1873 the total capital investment in all the Railroads of the United States was $3,784,543,034, represented by share capital to the amount of $1,947,638,584, and bonded debts to the amount of $1,836,904,450. This vast aggregate represented also the cost of the 70,651 miles of railroad then in operation, the average cost per mile for the whole country at that time equalling $60,057. In New England the average cost was $47,850 per mile; in the Middle States, $67,737 per mile; in the Western States, $52,125 per mile; in the Southern States, $36,994 per mile; and in the Pacific States, $95,590 per mile. The maximum cost per mile was in New Jersey, where it averaged $115,829; the minimum was in Florida, where the average was only $18,445 per mile.

The increase of mileage from 1871 to 1873 had been 21,623 miles, and the increase of the cost of the roads $1,119,915,389, nominally. One cause for the excessive mileage built within a few years was the extraordinary effort to complete roads, in order to save from lapsing the vast grants of land made by Congress, on condition that the roads should be built within a certain time. But the increase was far beyond the possibility of speedy returns for the capital invested. That much land could be found unoccupied near the line of a railroad implied a sparse population; and although prairie soil could quickly be brought into cultivation, it would be long before there could be sufficient traffic to pay the interest on the cost of the roads. Excessive competition and speculation in railroad building and railroad bonds and stocks ensued, until, in September, 1873, the great financial storm which has since passed into history as the "panic of 1873" burst upon the country.

The depression which followed extended through the years 1874–1878. During 1879 matters began to improve throughout the country, and this feeling soon became reflected through the railroads. In that year construction increased nearly 100 per cent. over the preceding year.

The following statement shows the total mileage of railroads in operation at the close of each year from 1874 to 1888, with the annual increase in mileage:

Years.	Miles in Operation.	Annual Increase Mileage.	Years.	Miles in Operation.	Annual Increase Mileage.	Years.	Miles in Operation.	Annual Increase Mileage.
1874	72,385	2,117	1879	86,468	4,746	1884	125,379	3,825
1875	74,096	1,711	1880	93,349	6,876	1885	128,309	2,930
1876	76,808	2,712	1881	103,145	9,796	1886	136,409	8,100
1877	79,088	2,280	1882	114,718	11,568	1887	149,281	12,872
1878	81,717	2,629	1883	121,454	6,741	1888	156,082	6,801

During these fifteen years there were built 85,814 miles of new railroad, an increase of over 122 per cent.; that is, in the last fifteen years we built 15,546 miles of railroad more than we built in the preceding forty-five years. The first five of these fifteen comprised a period of depression; the next four years were years of unexampled activity; while the three years of 1883, 1884 and 1885 were years of hesitancy, in which no new railroad enterprise of great magnitude was begun, as was natural, after the completion in a single year (1882) of 11,600 miles of road. In 1886 there were built 8,128 miles, and in 1887, 12,984 miles, the latter surpassing the record of any previous year; and in 1888, 7,028 miles. In the three years the new construction aggregated 28,140 miles, or within 58 miles of the extraordinary record of the three years 1881–1883.

The increase in mileage during the ten years from 1840 to 1850 was 6,202 miles, or 220 per cent. The average mileage constructed per year in this decade equalled 620.3 miles. In the succeeding decade, 1850 to 1860, 21,605 miles were added, an average of 2,160.5 miles per year, the increase equalling nearly 240 per cent. The next ten years, 1860 to 1870, showed an increase of only 73 per cent., or 22,296 miles, the falling off from previous records being due to the outbreak of the war. Between 1870 and 1880, 45,375 miles were added, an increase of nearly 86 per cent. Since 1880, 57,786 miles have been built.

Since the revival of railroad construction in 1879 there have been completed three additional through transcontinental railroads, the Northern Pacific, the Atlantic and Pacific, and the Southern Pacific; while the Union Pacific by the construction of its Oregon Short Line northwest to a connection with a branch of the Oregon Railway and Navigation Company's system, the Atchison by the construction of its line to a connection with the Southern Pacific, and the Chicago, Burlington and Quincy by the construction of its Denver extension, have added three other important routes to the Pacific. At least three of the great Western Railroad systems are now stretching westward, with the evident intention of speedily reaching the same ocean.

A striking feature of the last decade of railroad building is the large number of speculative and parallel lines which were put under way and many of them completed, notably the West Shore Railroad, which parallels the New York Central line for its whole length from New York to Buffalo; the "Nickel-Plate" line, which parallels the Lake Shore in like manner from Buffalo to Chicago; and the South Pennsylvania, paralleling the Pennsylvania Railroad between Philadelphia and Pittsburgh, upon which a vast sum was expended, but which has not been completed. In some instances such lines were perhaps undertaken with a view to forcing their subsequent purchase by the older companies whose lines they sought to parallel; and in the case of the two roads first mentioned these plans met with eminent success. But their fulfilment was in the main the cause of the depression which existed during the years 1885, 1886 and 1887.

The chief feature of railroad construction of the "wave" of 1886–88 has been the extraordinary activity displayed by the older and more powerful corporations of the Northwest and Southwest in the extension of their lines, with the apparent purpose of securing a firm foothold upon every available foot of territory contiguous to their several systems, or within reach thereof. The result of this policy has proved in many instances unwise, if not disastrous, as an examination of the facts herein set forth will show.

The most important lines which have been constructed during that period are here briefly summarized:

North and northwest of Chicago there have been completed the Duluth, South Shore and Atlantic Ry., forming a new short route between Duluth and

Sault Ste. Marie, where connection is made with the Canadian Pacific RR., under whose control the Duluth line has passed. The Minneapolis, St. Paul and Sault Ste. Marie has completed an equally important line between Minneapolis and St. Paul and the "Soo," and has also constructed an extension northwest of Minneapolis to within a short distance of Bismarck, Dak.

Between Chicago and St. Paul two important new routes have been opened—the Chicago, Burlington and Northern, and the Chicago, St. Paul and Kansas City. The latter company also extended its line southwest to Kansas City, to which point the most important extension of the Chicago, Milwaukee and St. Paul RR. within the three years was built.

Running far west to Helena and Butte, Mont., the St. Paul, Minneapolis and Manitoba Ry. Co. completed a line which is the most northerly east and west line of importance in the United States.

By reference to the statement of railroad construction for the three years presented herewith (p. vii), the mileage of lines in each State and group of States can be readily seen. In the following statement is given by States the names and lengths of the more important extensions during the three years covered thereby :

(NOTE.--The *Engineering News* map of railroad construction for three years in last number of the MANUAL will be found of much value in studying the geographical importance of the various lines constructed within the period which it illustrates. A map, prepared in the same general style, showing the ramifications of the great railroad systems of the Southwestern States, will be found elsewhere in this number of the MANUAL.)

The total number of miles of railroad in the United States at the close of 1888 was 156,082, of which 7,028 miles were constructed during the year—the rate of increase being 4.7 per cent. The mileage of lines making returns of their share capital and funded and floating debts equalled 154,276, against 147,999 for 1887, the increase being 6,277, the rate of increase being 4.24 per cent.

The share capital of the mileage completed at the end of 1888 equalled $4,438,411,342, against $4,191,562,029 in 1887, the increase equalling $246,849,313, the rate of increase being about 5.9 per cent.

The funded debts of all the lines at the close of the year aggregated $4,624,035,023, a sum $437,091,907 in excess of the total of 1887 ($4,186,943,116), an increase of nearly 9.5 per cent.

The other forms of indebtedness of the several companies at the close of the year equalled $306,952,589, against $294,682,071 for 1887, the increase being $12,270,518. The total share capital and indebtedness of all kinds of all the roads making returns equalled at the close of the year $9,369,398,954, an increase in the year of $696,211,738 over the total of 1887 ($8,673,187,216), the rate of increase for the year being about 8 per cent.

The cost per mile of all the roads making return as measured by the amount of their stocks and indebtedness equalled very nearly $60,732, against $58,603 for 1887.

The gross earnings or receipts of all the lines (including elevated railroads) from which returns were received for the year equalled $960,256,270, of which $251,356,167 were received from transportation of passengers; $639,200,723 from transportation of freight; and $69,699,380 from the transportation of mails and express matter, profits of leased lines, and other miscellaneous sources of revenue. In the latter sum are included the gross earnings of elevated railroads.

The gross earnings of all the lines for the year ending December 31, 1887, equalled $940,150,702; the increase for the year 1888 equalling $20,105,568, or 2.14 per cent. The earnings in 1887 from transportation of passengers equalled $240,542,876; from freight, $636,666,223; from transportation of mails and express matter, etc., etc., $62,941,603, against $69,699,380 for 1888.

The earnings per mile from which full returns were received in 1888 equalled $6,540, against $6,861 for 1887, the decrease equalling $321 per mile.

The net earnings of all the lines for 1888 equalled $301,631,051, against $334,989,119 for 1887, the falling off equalling $33,358,068, the rate of decrease being about 10 per cent.

The amount of interest paid in 1888 equalled $207,124,288, against $203,790,352 in 1887, the increase being $3,333,936, the rate of increase equalling more than 1.63 per cent.

The amount paid in dividends in 1888 equalled $80,243,041, against $91,573,458 in 1887, the falling off equalling $11,330,417, the rate of decrease being about 12.4 per cent.

The number of persons transported in 1888 by all the lines was 451,353,655, against 428,225,513 for 1888, the increase for the year being 23,128,142, the rate of increase equalling 5.4 per cent.

The number of passengers carried one mile in 1888 equalled 11,190,613,679, against 10,570,306,710 for 1887, the increase equalling 620,306,969 persons carried one mile, the rate of increase equalling very nearly 6 per cent.

The distance travelled by each passenger in 1888 equalled 24.78 miles; in 1887, 24.68 miles.

The amount received per passenger per mile equalled 2.246 cents in 1888, against 2.276 cents in 1887. Had the passenger rates for 1887 been maintained for 1888, the earnings from this source would have equalled $255,034,086, a sum $14,491,210 greater than that received.

The number of tons of freight transported on our railroads in 1888 equalled 589,398,317, against 552,074,752 tons in 1887, the increase equalling 37,323,565 tons, the rate of increase being about 6¾ per cent. The value of the tonnage moved in 1888, estimating its value at $25 the ton, equalled $14,633,957,925.

The number of tons transported one mile in 1888 equalled 70,423,005,988, against 61,561,069,996 tons moved one mile in 1887, the increase of service performed for the year equalling 8,861,935,992 tons moved one mile, the rate of increase being about 14.4 per cent.

When the MANUAL for 1888 was published, it recorded the greatest amounts, in the aggregate, ever earned—either gross or net—by the railroads of the country.

* Decrease.

In the midsummer of 1888 the situation presented many hopeful aspects, and it was widely believed that the period of depression had passed. The volume of business throughout the country was larger than ever in its history, and an improvement in earnings was therefore confidently looked for. But unfortunately, while the traffic was large and of increasing proportions, the rates received for its transportation—owing to the fierce and unbridled competiton in the West—drooped continually.

The following statement will show the volume of freight traffic on all the railroads of the United States during the seven years, 1882–1888:

Years.	Tons Freight Moved.	Tons Freight Moved one Mile.	Aver. Rate per Ton per Mile.	Aver. Haul per Ton.
	Tons.	Miles.	Cents.	Miles.
1882	360,490,375	39,302,209,249	1.236	109.02
1883	400,453,439	44,064,923,445	1.236	110.04
1884	399,074,749	44,725,207,677	1.124	112.07
1885	437,040,099	49,151,894,469	1.057	112.46
1886	482,945,254	53,809,070,529	1.042	109.49
1887	552,074,752	61,561,069,996	1.094	111.51
1888	589,398,317	70,423,005,988	0.907	119.48

From this statement it appears that in the seven years the tonnage increased 228,907,942 tons, or 63 per cent. In the same period the mileage of lines in operation increased 49,588.91 miles, or 51 per cent. Computed on the basis of tonnage per mile of road, the traffic of 1882 was 3,650.5 tons per mile; of 1883, 3,744.7 tons per mile; of 1884, 3,526.2 tons per mile; of 1885, 3,578.6 tons per mile; of 1886, 3,853.4 tons per mile; of 1887, 4,030.1 tons per mile, and of 1888, 4,055.2 tons per mile. It thus becomes apparent that the traffic of the past two years was the largest ever carried by the railroads of the country. During 1888 the volume of freight traffic was exceptionally large, and with an increase of eight miles in the average length of haul per ton the earnings from this source should have been—had fairly renumerative rates prevailed—sufficient to insure a continuance of dividends by the great trunk lines rather than their suspension, as has been the case in so many instances.

The tonnage-mileage of 1887 was 61,561,069,996, for transporting which the railroads received an average rate of 1.034 cents per ton per mile, producing a revenue of $636,666,223. In 1888 the tonnage-mileage was 70,423,005,988, which produced an average revenue per ton per mile of 0.907 cent, or, in the aggregate, $639,200,723. Had the rates received in 1887 prevailed in 1888, the difference of about 1¼ mills per ton per mile would have given the railroads an increased revenue of $89,189,819, sufficient to pay more than 2 per cent. upon the total amount of capital stock outstanding at the end of 1888, upon all of the roads contributing toward this grand aggregate.

The causes which led to this unlooked-for result are now thoroughly understood. The sentiment is unanimously expressed that the chief elements of disturbance in the railroad situation in the West have been—first, the unprecedented activity with which the railroad systems of that section have been extended, as a result of the desire to secure entrance to the newly developed lands in the West and Southwest; second, the partial failure of the crops, and the consequent loss of a large proportion of the traffic which had been calculated upon; third, the complications resulting from the application of a new and radical law,—the Interstate Commerce Act; and fourth, the spirit of hostility and repression evinced by the Legislatures of some of the Western States.

To these several causes, which were in themselves sufficient to demoralize the business of even so powerful a system as that of the railroads, might be added a fifth and perhaps most potent cause of all, that is, the very mightiness of the contestants and the magnitude of the interests involved. In no period of the world's history has there been such vast aggregations of capital engaged in commercial enterprises as are now to be found in this country. Nor is there any country in which competition in business is freer and sharper than in ours. In this general competition the railroads of the country have taken active part. The construction of new lines has been encouraged in every part of this country —in no section more strongly than in those which are now displaying the most violent antagonism toward them. Nowhere were greater inducements held out to capital to supply railroad facilities than west of the Mississippi, between the close of the war and the early seventies; yet in those very States, which owe their present prosperity and development to no cause more than to railroads, we see the most rampant hostility displayed toward the creators of their wealth.

In the early days of railroads in this country, their profits reached very respectable proportions. In some instances, where the lines were especially favored in respect to location and physical surroundings, these returns were so large as to excite the cupidity of capital to such an extent that, at several periods of the country's history, the eagerness displayed by railroad constructors in pushing their lines beyond the requirements of the territory resulted in plunging the country into financial crises having far-reaching effects. But the days of large profits appear to have passed. A railroad which in the future can pay regular dividends of 5 per cent. per annum, will be regarded in much the same light as those which formerly paid 8 and 10 per cent. for years without intermission.

Appended are three tables, showing the decline in freight rates upon various

railroads of the United States. Table No. 1 includes seven leading Eastern trunk lines, running between Chicago and the seaboard, and covers the twenty-four years, 1865 to 1888 inclusive. Upon these roads the rates received for transportation of freight declined from 2.900 cents per ton per mile in 1865, to 0.609 cent per ton per mile, a reduction of 79 per cent. within the period covered by the statement. In other words, the railroads comprised in that statement received, in 1888, $21 for the performance of a service for which in 1865 they received $100. What other business can show a corresponding decrease in returns?

Table No. 2 gives like statistics for six leading Western trunk lines running west, northwest and southwest of Chicago, and embracing the same period, 1865 to 1888. Upon these lines the reduction equalled 73 per cent. in the twenty-four years, or from 3.642 cents per ton per mile in 1865 to 0.934 cent in 1888.

The thirteen roads embraced in these two tables are typical of the entire railroad system. Upon the basis of the deductions here shown, it may be assumed that the average reduction throughout the whole country since the close of the Civil War has been at least 70 per cent. To earn an amount equal on the average to that earned twenty-four years ago, the railroads are now required to perform a service nearly three times as great. Yet notwithstanding this, the cost of operating the lines has not been decreased to any appreciable extent. Of the total cost of operating a railroad fully 80 per cent. is paid to labor in one way or another. Expenses of this nature cannot be materially reduced; in point of fact, the tendency is constantly toward an increase. The average rate of wages paid by railroads is to-day as large if not larger than in 1865. It becomes plain therefore that the immense sums that have been annually lost to the railroads of the country, by their voluntary reductions in rates have been a corresponding saving to the public at large. A calculation of the sums saved to the public by these reductions in rates during the past quarter century would reach far up into the thousands of millions.

During all these years the railroads have met with most active competition from the waterways of the country, upon which freight can always be transported at about one-third of the cost of railroad transportation. It early became apparent to the railroad companies that to make their lines pay required an immense volume of traffic, which could only be secured by the development of their routes to a point where competition from waterways need not be feared. With this view, tracks have been doubled, trebled, and even in some cases quadrupled; roads have been almost entirely rebuilt with heavy steel rails; locomotives and cars of double or treble their former capacity have been constructed, and trains have been run with a frequency and at a rate of speed which were once considered to be among the impossibilities.

The effect of all this is seen in the wonderful development of all sections of the country, but particularly in the Western States, in which the progress recorded in a short quarter of a century is justly regarded as one of the marvels of the present age.

To illustrate the extraordinary progress of the Western States, the following statement, covering eleven of the leading States west of the Ohio and Mississippi Rivers has been prepared:

An examination of the above statement shows that in eighteen years the population of the eleven States named has increased 11,083,133, or 85 per cent.; railroad mileage has increased 221 per cent.; railroad earnings 175 per cent., and production of wheat and corn 160 per cent. But for the failure of the crops in recent years the increase in the last-mentioned item would have equalled and perhaps exceeded the increase in railroad mileage.

In proportion to population the earnings of the railroads in these States was considerably higher in 1888 than in 1870, being $18 per capita in the former year as against $12 in the latter, the increase being 50 per cent. But this increase of averages is a very deceptive one, as, calculated upon the basis of mileage—the only true test—the earnings in 1888 were but $5,728 per mile as against $6,753 per mile in 1870. The falling off of revenues in these States equalled more than $1,000 per mile, which for 1888 alone amounted to an aggregate of $73,000,000.

With these facts before us, it is difficult to understand the extraordinary antipathy to railroad corporations now prevalent in the West. The railroad mileage of the West has advanced in far greater ratio than the population, and the wealth and commerce of that section have kept pace with the railroad mileage. Were the railroads to be advanced only in ratio to the increase in population, the situation in the West and throughout the country would present an entirely different aspect, and public sentiment would experience a corresponding change.

The acreage upon which was produced the crops of wheat and corn given in the foregoing table was in 1888, 66,435,304 bushels. No figures of acreage in 1870 are obtainable, but was undoubtedly less than 30,000,000 acres in that year. Without railroads the products of this immense territory would be to a large extent valueless; but such trifling matters as these are always dismissed from the consideration of demagogues when they strive to excite the public mind upon the rapacity and greed of railroad corporations.

Upon this point the following extract from the MANUAL for 1881 is appropriate:

Digitized by Google

"Over ordinary earth roads, wheat will bear transportation for a distance of only 250 miles, when its value is $1.50 per bushel at the market. Indian corn will bear transportation only 125 miles, when its value is 75 cents per bushel. When grown at greater distances from market, these products, without railroads, have no commercial or exportable value. The railroads, by transporting at one-twentieth the cost over earth roads, give a marketable value to wheat grown 5,000 miles inland; to Indian corn grown 2,500 miles inland. Beyond a certain limit, consequently, these works are the sole inducement to the production of these staples, in an amount greater than that necessary for consumption by the producer. Railroads are as much the condition of their production as the ship is for the production of wool in Australia. The effect of cheap production is well illustrated in the extraordinary increase in the production of wheat and corn in the Western States, and the corresponding impulse given to the construction of railroads, the increased mileage of which has only kept pace with that of other industries.

"The railroads of the country have been the instruments, of all others, in placing it in its present position before the world, by enabling the wheat grower in distant Dakota to compete successfully with the wheat grower of Western Europe in his accustomed markets. The railroads of the United States, by revolutionizing the agriculture, are revolutionizing the political systems and institutions of the Old World. The vast crowds of immigrants now flocking to our shores testify the appreciation, by the *people* of Europe, of the institutions of our own country, which have no other warrant than their utility, and having such warrant, palpable to the meanest understanding, require no vast and oppressive armaments for their support.

"In view of these colossal operations, it is difficult to say which excites the greatest wonder and admiration: their vast magnitude, their uniform regularity, or the beneficence of the result,—all due to the entire freedom with which our railroads have been constructed and managed. The sole object has been to secure the greatest profits from the least outlay. When such conditions exist, the best results of which man is capable are achieved. In all this, the only *rôle* of government has been that of a *police officer*. The State of New York led off in this wise policy by the enactment of "a General Railroad Law," by which 25 or more persons may, without any application to the Legislature, associate themselves, and by so doing become a body corporate, authorized to do any act necessary in the construction, operation or the maintainance of a railroad. This right carried with it that of taking lands on paying their value. From that date everything like railroad monopoly in that State has been at an end. Railroads could be built anywhere and everywhere—a dozen parallel lines running side by side if parties could be found silly enough to construct them. Its legislature was at once relieved of one of the most troublesome subjects that ever came before it. Other States speedily followed in the same direction. The Territories were vested by the Federal Government with similar powers, so that railroad construction everywhere became as free to the people of the United States as the air they breathed. The advantage of such perfect freedom is well illustrated by the event. There is hardly a person in the Northern and Western States that does not live within the hearing of the whistle of the locomotive engine. The necessity of railroads was everywhere so pressing that a great many lines were built by people living along them, not with the expectation of direct income, but for the incidental advantages which they secure. Great success in the form of dividends was certain to lead to the construction of rival railroads to share in the profits of the first comer. There was no monopoly in their right of construction. There could be no monopoly in their operations, as all were competitors for each other's business. A grand corrective of monopoly were the systems of the different

States. The Maryland system, the chief member of which is the Baltimore and Ohio Railroad, was gotten up for the sole purpose of increasing the trade of Baltimore, and with it that of the whole State. But for the advantages to be received in the way of trade by a single community, not a dollar could have been raised for its construction. The same may be said of the Pennsylvania Railroad. The welfare of Pennsylvania, and of its chief city, Philadelphia, was never lost sight of in any combination that might be proposed or formed. Relative to each other, in the matter of transportation, New York, Pennsylvania and Maryland are distinct sovereignties. On the north, the Canadian lines are an adequate corrective of any attempt at excessive charges on the New York lines. The former already supply to the New England States, the great markets for Western products, no small portion of their food. The extensions and ramifications of lines that must always be rivals and antagonistic are so complete that the business of every important section and community in the United States is now fiercely competed for—to be competed for all the more fiercely as time goes on. To learn what has been the effect of this competition in the past, reference is only to be had to the accompanying tables. From the results there shown, in connection with absolute freedom in the construction of railroads which is now being carried on at a rate never before equalled, one would suppose that the people of the United States had at last, in the construction and management of such works, reached the very acme of social, economical and practical wisdom. Never, in view of the results, had a people of any country such reason for self-gratulation as those of our own. They have thoroughly popularized the most potent and beneficent invention of the race, and made it the instrument of the greatest good to the greatest number,—an instrument which has relieved the nation from the possibility of want by supplying the deficiency of one section with the excess of another,—an instrument which has rendered, from the abundance of this country, a dearth of food impossible in the civilized world. By a wise and far-reaching policy it has equalized the condition of every person in our vast domain. A farmer goes from the Genesee Valley, in the State of New York, famous for its wheat, to the Upper Missouri, with entire certainty that he can compete, in his new field, with those he left behind, although his products must go 2,000 miles by railway before it passes his old home. These vast operations attract little attention, until some accident arrests their orderly movement. Let the trains on the New York Central be blocked for a few hours,—and what numerous and impatient crowds throng its stations! This road moves 30,000 tons of freight daily, requiring very nearly 20,000 cars, which must proceed without interruption, be loaded and unloaded the moment they reach their destined points, or heavy loss in place of profit is the certain result. There must be no cessation to this mighty movement, which, of all human creations, approaches most nearly some of the great processes in nature—silent, majestic, beneficent, and eternal."

In point of importance the railroad interest now takes precedence of all other industries or enterprises. Its magnitude is greater than any other interest in the world, and it has become so thoroughly a part of the economic system of the Republic as to be second only to the Government itself.

In order to show how closely interwoven are the interests of railroad stockholders and the working classes of the country, a few calculations are herewith submitted:

If we estimate that in the operation of our railways there are employed in prosperous times an average of six persons per mile of road, it would show a total, on the basis of our present mileage, of more than 936,000 persons regu-

larly employed in connection with that single interest; and if to this number we add 780,000—a number representing an average of five to the mile—as the number of persons employed in connection with all those industries which are directly affiliated with, and dependent on our railway system, such as locomotive and car building establishments, rail mills, etc., etc., we have a total of nearly 1,716,000, or an average of 11 to the mile of railroad. Assuming that each of these would represent a family averaging five persons, we have an aggregate population of 8,580,000—nearly one-seventh of the total for the country at large—of which 90 per cent. are actually dependent on the railway system for the sustenance of life. If we allow, as the average rate of wages of those employed in operating, say $450 per annum, and for those employed in locomotive building, etc., say $500 per annum, we have a total pay-roll of $911,200,000 per annum, of which at least $500,000,000 is directly chargeable to operating account, while the remainder is for account of betterments, improvements and new construction. Add to this the amount paid to laborers engaged in construction in such a year as 1887. In that year there were built new roads whose aggregate length was 12,984 miles. If we take, as the average cost of labor in grading, track laying, etc., for each mile of this total, say $10,000, and allow the average daily wages of laborers to be $1.50, with, say, 100 laborers of all classes to each mile, this would show the average time for the completion of a mile of railroad to be 67 days. On this basis the construction of 12,984 miles of railroad would give steady employment for 300 days in the year to an army of 289,976 laborers, whose total earnings would be $129,840,000.

This gives a total of 2,006,000 persons, to which we will add 44,000 as the number whose labors are stimulated by the employment of the 289,976 last mentioned, making a total of 2,050,000, representing families numbering in the aggregate 12,250,000 persons. To maintain this number there would be expended by railroad and others under the above calculations at least $1,040,000,000 per annum, or very nearly $3,000,000 for each day in the year. The regular expenditure of more than 90 per cent. of this vast sum stimulates other industries, and in this manner the volume of general business is increased in progressive ratio.

In these calculations no account has been taken of the large number of people forming the proprietary interest of this vast aggregation of capital, which comprises people in all classes and in all occupations, and scattered throughout all parts of the country.

The New York Central Railroad Company has 10,000 stockholders, whose average holding is about $9,000. If we take that sum as representing the average holding of all stock and bondholders in the country, the total number of such would be over 1,000,000, representing more than 5,000,000 persons with important interests in the success of the railroad system.

From these deductions a general idea can be gathered of the magnitude of the railroad interest, and how vast and widespread is the interest of our people in that system.

By reference to the accompanying tables it will be seen that during the past ten years the following percentages of profit have been distributed to hold-

Digitized by Google

ers of the share capital of our railroads. In 1879 the dividends paid averaged 2.5 per cent. of the total amount of capital stock outstanding; in 1880, 2.8 per cent. was paid; in 1881, 2.9 per cent.; in 1882, 2.91 per cent.; in 1883, 2.75 per cent.; in 1884, 2.48 per cent.; in 1885, 2.02 per cent.; in 1886, 2.04 per cent.; in 1887, 2.18 per cent.; and in 1888, 1.77 per cent.

In connection with this, the following statement is of value as showing the relative productiveness of railroads in the several sections of the country:

Statement showing the percentage of dividends paid by the railroads of the United States, classified according to geographical groups during the years 1887 and 1888:

Groups.	1887	1888
New England Group	4.51 p. c.	4.56 p. c.
Middle Group	2.68 "	2.52 "
Central Northern Group	2.91 "	2.37 "
South Atlantic Group	0.69 "	0.63 "
Gulf and Mississippi Valley Group	0.23 "	0.78 "
Southwestern Group	1.86 "	0.83 "
Northwestern Group	0.97 "	0.52 "
Pacific Group	0.71 "	0.62 "

In the MANUAL for 1888 there was presented a statement showing the relative proportions of capital stock of the railroads of the United States upon which dividends were paid and upon which dividends were not paid, in the two years 1882 and 1886. A study of this table discloses many facts of interest. Of the eight groups into which the country has been divided, the railroads of only three paid dividends in either year upon more than one-half of the total capital stock. Following is an abstract of that table:

	Per Cent. of Stock Producing Dividends.		Per Cent. of Stock not Producing Dividends.	
	1882	1886	1882	1886
New England Group	69.74	79.81	30.26	20.19
Middle Group	69 56	54.53	40.44	45.47
North Central Group	49.61	43.72	50.39	56.28
South Atlantic Group	30.96	18.77	69.04	81.23
South Central Group	22.44	6.37	77.56	93.63
Southwestern Group	32.74	27.36	67.26	72.64
Northwestern Group	46.85	22.14	53.15	77.86
Pacific Group	55.11	69.02	44.89	30.98

It will be observed that the MANUAL, in presenting this year its summaries of railroad general balances and operations, has departed from the custom, long observed, of presenting such summaries by States, and gives, instead, a comprehensive statement embodying all required facts, showing comparatively the results by groups for the two past years. The arrangement of the groups is according to geographical location, and was first adopted by the MANUAL in 1886. Since then this system of grouping has become very widely adopted by statisticians and geographers throughout the country. The arrangement by States, formerly in use, has been abandoned for obvious reasons. When it was begun twenty-one years ago, the railroads of each State formed, to a large extent, independent systems, so that the tabulations in early numbers of the MANUAL

Digitized by Google

showed, as near as possible, the exact condition of the railroads of each State. As consolidations were affected, forming inter-State railroads, a new problem was presented—that of properly apportioning the returns of such roads. In such cases the MANUAL adopted the uniform rule of accrediting to each several State the full mileage, capital account and operations of every road domiciled within it. Thus the Lake Shore Railroad is domiciled within the State of Ohio, and the Chicago and Northwestern within the State of Illinois; and to these States severally were credited all the figures abstracted from the report of each respective company. The statistics of mileage could be and were apportioned to each State through which such lines ran; but no such apportionment was possible of capital stock, bonds, traffic statistics and earnings, for the reason that railroad companies do not and doubtless cannot furnish them.

Experience has shown that the plan adopted by the MANUAL was the only feasible one to follow, although this was not unanimously concurred in. Others, including some railroad commissions, who thought they had hit upon a better plan, sought to apportion the cost, capitalization and operations to each State upon the basis of mileage within such State; but as this plan would give to Dakota as dense a traffic per mile of railroad and as heavy a cost in the same proportion as it would give to Illinois, the fallacy of such a proceeding soon became apparent, and it was speedily abandoned. And so the MANUAL'S system has prevailed and its figures accepted as the nearest approach to accuracy that was possible under the attendant circumstances.

But during recent years the tendency to consolidation has become so general that the State tabulations, while they continued to be of value as showing the relation of one State to another, nevertheless lost much of their value as means of comparison of one year with another. The consolidation of a railroad domiciled in one State into a railroad domiciled in an adjacent State would increase the mileage, equipment, capital account and operations of the one State at the expense of the other, so that for purposes of comparison with former years the summaries of both States became valueless. It was in consequence of this that the tabulation of general results by States has been abandoned. It is hoped that the statistics of groups will meet all the wants of students of the MANUAL'S figures.

On pages ii. and iii. is given a statement showing the mileage of railroad owned, equipment, capital investment and cost; mileage of lines operated, traffic statistics, earnings and payments therefrom, of all the railroads in the United States, for the two years 1887 and 1888. In this statement the mileage of lines apportioned to each group is very nearly equal to the mileage actually within such group, as shown in the table on page vi., except in groups 3 and 7, which together very nearly equal the aggregate of the mileage as given on page vi. The explanation of this apparent discrepancy is to be found in the large extent of mileage in the seventh or Northwestern group, which forms parts of the lines of roads domiciled in and accredited to the third group, as in the case of the Chicago and Northwestern, Chicago, Milwaukee and St. Paul, Chicago, Burlington and Quincy, and other important systems.

POOR'S MANUAL OF RAILROADS 1889.

GROUP I.—Railroads of the New England States—Maine, New Hampshire, Vermont, Massachusetts, Rhode Island and Connecticut.

ATLANTIC AND ST. LAWRENCE RAILROAD COMPANY.

Main Line of Road.—Portland, Me., to Island Pond, Vt..... 149.37 miles.
Berlin Falls Branch: Junction to Berlin Falls, N. H..... 1.25 miles.

Total A. & St. L. RR. proper (Me., 82.55; N. H., 53.27; Vt., 14.80).....150.62 miles. Sidings, etc., 29.23 miles. Gauge, 4 ft. 8½ in. Rail (steel, 149.37 miles), 65 lbs.

History.—See MANUAL for 1888, page 1. Road was leased August 5, 1853, to the Grand Trunk Ry. Co. of Canada for 999 years, the lessee assuming all outstanding obligations and guaranteeing 6 per cent. on the stock.

Rolling Stock.—Furnished by the Grand Trunk Ry. Co. of Canada.

Operations for year ending June 30, 1888.—Train mileage—passenger, 294,842; freight, 450,496; mixed, 116,646; other, 57,714—total, 919,198 miles. Passengers carried, 294,614; carried one mile, 10,359,284; average mile rate, 2.63 cents. Tons freight moved, 882,826; moved one mile, 82,382,158; average ton-mile rate, 0.89 cent.

Earnings.—		Expenses.—	
Passenger	$272,623 76	Transportation	$222,701 31
Freight	732,736 45	Motive Power	283,568 42
Mail	19,019 08	Maintenance of Cars	84,677 71
Express	17,849 49	Maintenance Way and Buildings	216,046 85
		General and Taxes	55,241 45
Total ($6,919.59 per mile)	$1,042,228 78	Total ($5,710.16 per mile)	$862,235 74

Net earnings (17.27 per cent.), $179,993.04; add rental received, $2,507.30—total available revenue, $182,500.34. Dividend charge under lease, $329,040.

DIVIDENDS.—From July 1, 1873, to July 1, 1888, inclusive, 31 semi-annual dividends of 3 per cent. each were paid, making sixty-five regular cash dividends, aggregating 175 per cent., paid to date. For statement of dividends paid prior to 1873, see MANUAL for 1888.

Financial Statement, November 30, 1888.—Capital stock, $5,484,000; funded debt (2d mortgage 5-20 bonds of October 1, 1864, £309,900, or $1,499,916; 3d mortgage 5-20 bonds of May 1, 1871, £147,300, or $712,932; balance due on exchange of bonds, $152), $2,213,000—total, $7,697,000. *Contra:* Cost of road, etc., $8,484,000. Par value of stock: Currency, $100; sterling, £100, or $484. The bonds, $2,213,000, are all held by the Grand Trunk Ry. Co., which issued against them its 5 per cent. perpetual debenture stock.

The sinking fund for the redemption of the City of Portland bonds was finally closed November 2, 1888, by the payment of the remainder of said bonds amounting to $308,000, which matured on that date.

RAILROADS OWNED OR LEASED BY THE BOSTON AND MAINE RAILROAD COMPANY.

BOSTON AND LOWELL RAILROAD.—Boston, Mass., to Lowell, Mass., 26.75 miles. Branches: *Mystic*, 2.25; *Lexington and Arlington*, 9.25; *Woburn*, 6.20; *Stoneham*, 2.50; *Lawrence*, 3.21; *Bedford and Billerica*, 7.63; *Salem and Lowell*, 16.80; *Lowell and Lawrence*, 12.42; *Middlesex Central RR.*, Lexington to Concord, 11.08 miles—total length of lines, 98.09 miles. Total track (steel, 120.5 miles), 204.21. Gauge, 4 ft. 8½ in. Rail, 60 to 72 lbs. For full history of the road see MANUAL for 1886, page 167, and MANUAL for 1888, page 8. Leased in October, 1887, to the Boston and Maine RR. Co. for 99 years; rental being 7 per cent. on the stock for the first 10 years, and 8 per cent. thereafter, interest on bonds being also guaranteed. On June 1, 1884, this company leased the Boston, Concord and Montreal RR., and its leased line the Pemigewasset Valley RR. for 99 years. For terms of this lease see MANUAL for 1888, page 8. The following extract from the annual report of the Boston and Maine RR. Co., for 1888, gives the present status of the litigation which was begun for the abrogation of this lease: "The litigation begun for the purpose of abrogating the lease of the Boston, Concord and Montreal Railroad to the Boston and Lowell, which was referred to in the last report to stockholders, is still undecided. Arguments therein will be heard by the Supreme Court of New Hampshire at some time during the current month. Meanwhile the Boston and Lowell Railroad Corporation has operated the road pursuant to the provisions of its lease to this company. The pecuniary results of such operation have been a considerable deficit. This deficit, however, is not one that will have to be borne eventually either by this company or by the Boston and Lowell. In pursuance of the terms of the lease of the Boston, Concord and Montreal to the Lowell, there were turned over to the latter corporation, stocks, bonds, and miscellaneous assets, which, according to the express terms of the lease, were to be disposed of, and the proceeds applied for the sole benefit and use of the lessee. These assets can be availed of at any time to make good any losses incurred in the operation of the Boston, Concord and Montreal Railroad under its lease, and whether that lease is confirmed or set aside. And while their exact value has not been appraised, and perhaps cannot be ascertained except by an actual sale, it is the opinion of the directors of the Lowell road that it is amply sufficient to cover all deficits heretofore arising from the operation of the Montreal road."

The operations, etc., following are those of the B., C. & M. RR., which was operated during the year by the Boston and Lowell RR. Co., under the lease of June 1, 1884, referred to above. In the income account are included all the receipts of the Boston and Lowell RR. Co., comprising its lease rental, etc., from the Boston and Maine RR. Co., and other items.

CENTRAL MASSACHUSETTS RAILROAD.—Cambridge, Mass., to Northampton, Mass., 98.77 miles. Sidings, 14.33 miles. Gauge, 4 ft. 8½ inches. Rail (steel), 60 lbs. The Massachusetts Central RR. Co. was chartered May 10, 1869. Its road was opened from Cambridge to Hudson, 23.50 miles, October 1, 1881, and to Jefferson's in December, 1881. On July 1, 1882, the company made default in payment of interest, and the trustees took possession of the property May 4, 1883. The operation of the road was suspended May 16, 1883. Sold under foreclosure September 1, 1883, and purchased on behalf of the bondholders, who organized the present company November 10, 1883, under special act of the Massachusetts Legislature. By the terms of this charter preferred stock was issued dollar for dollar in payment of the mortgage debt of the old company, this stock to have entire control of the affairs of the company until such time as the road shall earn two semi-annual dividends of 4 per cent. each, in any one year. Common stock was issued share for share for the stock of the old company. The charter also authorized the extension of the road from Bondville, Mass., to the New York State Line, and the leasing to or consolidation with the Poughkeepsie, Hartford and Boston, or any other road connecting with this line in Massachusetts or New York. In June, 1885, a special act of the Legislature was passed authorizing the trustees to make a contract for the operation of the road and to issue certificates of indebtedness to the amount of $200,000, in order to provide the means necessary to put the road in good condition. Under this authority the road has been fully repaired, and was reopened for business September 28, 1885. From that date Until December 1, 1886, the road was operated under contract by the Boston and Lowell RR. Co. On October 1, 1886, the Boston and Lowell RR. Co. entered into a lease of this company's road for 99 years, agreeing to pay as rental 20 per cent. of the gross earnings of the Central Massachusetts road up to $1,000,000, and 25 per cent. of gross earnings in excess of that amount, deducting from such rental an amount ($100,000) equal to the interest on $2,000,000 new 5 per cent. bonds (described below) which the Central Massachusetts Co., by the terms of the agreement, issued to the Boston and Lowell Co., at par, in consideration of the latter company obligating itself to complete and equip the line of the C. M. Co. from North Cambridge to Northampton, and pay off the floating debt. In pursuance of this contract the floating debt was paid, and the road opened to Northampton December 19, 1887. Rental, 1887-1888, $101,500. Expenses and taxes, $1,500. Net income, $100,000. Paid interest on bonds, $100,000. Capital stock paid in—common, $3,450,500; preferred, $3,922.754—total, $7,373,254; funded debt, first mortgage 5 per cent. 20-year bonds dated October 1, 1886, interest payable in Boston, April 1 and October 1, $2,000,000—total stock and bonds, $9,373,254. *Directors* (elected October 31, 1888).—Samuel N. Aldrich, Marlboro', Mass.; Elisha S. Converse, Malden, Mass.; Lyman Hollingsworth, Cohasset, Mass.; Wm. M. Gaylord, Northampton, Mass.; Henry F. Hills, Amherst, Mass.; J. Edwin Smith, Worcester, Mass.; William T. Parker, Thomas H. Perkins, Moses W. Richardson, Henry Woods, Boston, Mass.; Charles E. Sweet, Chas. P. Darling, Newton, Mass. *Officers:* SAMUEL N. CHELSEA BEACH RAILROAD.—Oak Island Junction, Mass., to Saugus River Junction, 1.78 miles; total track, 2.32 miles. Chartered April 22, 1881; road opened July 2, 1881; virtually owned by Eastern RR. Co. Capital stock, $38,300; profit and loss, $10.52—total, representing cost, $38,310.52. SAMUEL C. LAWRENCE, *President*, Medford, Mass.; N. G. Chapin, *Treasurer*; F. I. Amory, *Secretary*. General and transfer offices, Boston, Mass.

CONNECTICUT AND PASSUMPSIC RIVERS RAILROAD.—White River Junction to Canada Line, 110.30; Massawippi Valley Ry. (*leased*) Vermont State Line to Lenoxville, Canada, 36.75 miles; total length of line, 147.05 miles. Sidings, etc., 23.25 miles. Rail (steel, 110.30 miles), 56 lbs. Chartered October 27, 1843; entire line opened October 14, 1863. Leased for 99 years from January 1, 1887, to the Boston and Lowell RR. Co., the rental to equal interest on bonds and dividends of 5 per cent. for first ten years and 6 per cent. thereafter. The Massawippi Valley Ry. leased for 99 years from July 1, 1870, continues this line into Canada to a junction with the Grand Trunk Ry. The lessee pays interest on bonds and dividends at same rate as upon its own stock.

The funded debt consists of 1st mortgage 7 per cent. 20-year bonds, due April 1, 1893, interest payable April and October, at Treasurer's office, Boston. The Newport and Richford bonds are a first mortgage on that road. This company has also largely aided in completing the Southeastern Ry. Company's line, which joins the C. & P. Rivers RR. at Newport.

Annual meeting early in September. Books close for dividends January 1 and July 1. The stock and bonds are listed on Boston Stock Exchange. Boston Safe Deposit and Trust Co., Boston, Mass., Registrar of transfers of stock. For statement of dividends paid prior to lease see MANUAL for 1887, page 11.

History.—The Central Vermont RR. Co. was organized in April, 1873, with a capital of $1,000,000, and in June of the same year was appointed receiver of the property of the Vermont Central and Vermont and Canada RR. Cos., and continued to act in that capacity till June 30, 1884, when a reorganization of the Vermont Central and Vermont and Canada RR. Cos. was effected, and those companies were practically consolidated under the title of the Consolidated Railroad Company of Vermont. The Central Vermont then took leases of the roads and leased lines of the Consolidated Co. Prior to this date the Central Vermont had taken leases of the Montreal and Vermont Junction, the Waterloo and Magog, and the New London Northern; and there was transferred to them at the date of the reorganization, the Stanstead, Shefford and Chambly RR., subject to a small mortgage held by parties in England. On the first of June, 1886, the Central Vermont also leased the Ogdensburg and Lake Champlain RR., in the common stock of which it had previously acquired a large interest.

A detailed history of the Vermont Central and Vermont and Canada RR. Cos., showing the various leases, consolidations, defaults, receiverships and reorganizations, since the organization of the companies, was given in the MANUAL for 1887, page 25. The plan of reorganization outlined there has been carried out, and the entire debt of the Vermont Central Co. has been either paid or converted into the obligations of the Central Vermont RR. Co.

ADDISON RAILROAD.—Leicester Junction, Vt., to Ticonderoga, N. Y., 15.60 miles; sidings, 1 mile. Chartered in 1870; road opened December 1, 1871. Leased to Rutland RR. Co. from completion, for 7 per cent. on actual cost, and transferred to the Central Vermont RR. Co. when the latter leased the Rutland RR. In the contract with the Rutland RR. Co. it was agreed the capital stock should not exceed $500,000. Rental, 1888, $15,000. Dividends paid (April 1 and October 1, each 1½ per cent.), $15,000. Capital stock, $500,000, representing cost of road and equipment. Dividends payable at Rutland, Vt. P. W. Clement, *President;* Edward T. Smith, *Secretary and Treasurer*, Rutland, Vt.

BRATTLEBORO' AND WHITEHALL RAILROAD.—Brattleboro' to South Londonderry, Vt., 35.7 miles. Sidings, 2 miles. Gauge, 3 feet. Rail (steel, 4 miles, 40 lbs.), 36 lbs. Chartered in 1867 as the West River RR. Co.; under present title in 1876. Road opened November 3, 1880. Leased in February, 1880, for 99 years to the New London Northern RR. Co., which received all the assets of this company in consideration of completing the road by November, 1880. The road has been operated since January 1, 1883, by the Central Vermont, and all its operations are included in the returns of that company. Yearly rental, $12,000. Locomotive engines, 3; passenger cars, 6; freight cars, 50. Capital stock, $205,000; funded debt, first mortgage bonds, $150,000—total stock and bonds, $355,000. Cost of road and equipment, $350,000. The capital stock is largely owned by the towns along the line of the road. C. F. Thompson, *President;* J. L. Martin, *Secretary;* George S. Dowley, *Treasurer*, Brattleboro', Vt.

MONTPELIER AND WHITE RIVER RAILROAD.—In operation: Montpelier to Barre, Vt., 6 miles; projected from Montpelier to White River, 55 miles. Opened in 1876; operated by the Central Vermont RR. Co.; terms not stated. Officers not reported. An extension of the road from Barre to Williamstown, a distance of 7 miles, was in progress at the close of the fiscal year, and was completed before January 1, 1889.

MISSISQUOI VALLEY RAILROAD.—St. Albans, Vt., to Richford, Vt., 28.85 miles; sidings, 2 miles. Rail (steel, 22 miles), 56 lbs. The Missisquoi Railroad was built in 1872. In July, 1873, it was leased to the receivers and managers of the Vermont Central RR. Co., and transferred to the Central Vermont RR. Co. on its reorganization. By this corporation it was operated until November 15, 1877, when it was surrendered to the mortgage trustees, who operated it till the close of 1886. The cost of the road originally was $720,000, which was partially provided for by an issue of $500,000 1st mortgage 7 per cent. bonds, due in 1891, on which no interest has been paid since July 1, 1876. The present company was organized in December, 1886, with a capital of $500,000, issued in exchange for the bonds and coupons surrendered. The road was leased to the Central Vermont RR. Co. July, 1, 1888. Worthington C. Smith, *President;* F. S. Stranahan, *Vice-President;* W. Tracy Smith, *Secretary and Treasurer*, St. Albans, Vt.

MONTREAL AND VERMONT JUNCTION RAILWAY.—Vermont State Line to Junction with S., S. & C. Ry., near St. John's, Que., 23.6 miles; sidings, 2 miles. Rail (steel), 60 lbs. This road is operated by the Central Vermont RR. Co., and all operations are included in the returns of the lease. Financial statement and names of officers not reported. Corporate Office, St. John's, Que.

STANSTEAD SHEFFORD AND CHAMBLY RAILWAY.—St. John's to Waterloo, Que., 41 miles; sidings, etc., 5.5 miles. Rail (steel, 9.5 miles), 60 lbs. Locomotives, 6; passenger cars, 4; baggage, mail, and express cars, 2. Chartered in 1853, and road opened in 1858 and 1861. Leased to the Central Vermont RR. Co. at a rental equal to interest on $800,000 bonds. No financial statement furnished. G. G. Stevens, *President;* John P. Noyes, *Secretary and Treasurer*, Waterloo, Que.

RUTLAND RAILROAD.—Bellows Falls, Vt., to Burlington, Vt., 120 miles. Sidings and other tracks, 26 miles. Gauge, 4 ft. 8½ in. Rail, 56 lbs. Chartered as the Champlain and Connecticut RR. Co., November 1, 1843. Charter modified November 1, 1847, and name changed to Rutland and Burlington RR. Co. Line opened in 1849. In November, 1858, property passed into hands of mortgage trustees. Reorganized in July, 1867, under existing title. In December, 1870, road leased to trustees of Vermont Central RR. for 20 years, at a rental of $376,000, and in addition $94,500 for 1874; $108,000 for 1875; $148,500 for 1876: $162,000 for 1877 and 1878; and $175,000 for 1879 and for each succeeding year. In 1876 (February 25), lease was modified, and gross earnings of the Central Vermont, the Rutland, and the Addison RRs. pooled, and 30½ per cent. of the total made over to the two last-named roads, with an allowance of 75 per cent. therefrom for operating expenses to the Central Vermont RR. Co. Finally it was agreed that the Central Vermont should pay for the use of the two roads a minimum yearly rental of $250,000 and $8,000 for organization expenses; but for the past two or three years the lessee retained $18,000 a year for taxes, which led to legal proceedings which are now pending. The Addison RR. had been leased by this company and was transferred to Central Vermont RR. Co. by the lease of its own road. In November, 1887, a majority of the stock was purchased by the Delaware and Hudson Canal Co., but the sale does go into effect till the lease to the Central Vermont expires, which will be in December, 1890. Income account for year ending June 30, 1888 (latest furnished).—Receipts: Cash on hand July 1, 1887, $24,163; rent of roads, $240,000; rent of real estate, $1,004; cash borrowed temporarily, $60,000; Addison RR. dividends, $9,267; sundries, $81—total, $335,235. MANCHESTER AND NORTH WEARE RAILROAD.—Manchester to North Weare, 19 miles; total track (steel, 5.22 miles), 20.75 miles. Chartered June 24, 1848, as the New Hampshire Central RR. Co., to build from Manchester to Claremont. Construction begun in 1849; road opened from Manchester to Old Mill Village, February 19, 1850, and to Henniker, a total distance of 25.52 miles, December 10, 1850. On April 12, 1853, a consolidation was effected with the Concord and Claremont RR. Co., under the name of the Merrimac and Connecticut Rivers RR. Co. Default having been made by this consolidated company, its road was taken possession of by the mortgage trustees. In 1858 the two companies separated, the New Hampshire Central being rechartered under the name of the Manchester and North Weare RR. Co., June 28th of the same year, and in 1859 this new organization acquired the road at trustees' sale. The original cost of the road from Manchester to Henniker was $546,587.49. At the sale in 1859 it was purchased for $200,000, the present company issuing its capital stock for that amount. The road is practically owned by the Concord RR. Co., which has operated and controlled it since the organization of the existing corporation. On October 31, 1858, the rails between Henniker and North Weare, 6.52 miles, were torn up, and that portion of the road was abandoned. Capital stock, representing cost of road to present company, $200,000. Income for year ending September 30, 1888, $34,639.57; expenses and taxes, $26,995.59; net income, $7,643.98. Add surplus from last year, $9,447.61—total surplus, $17,091.59. JESSE GAULT, *President*, Hooksett, N. H.; Josiah Carpenter, *Treasurer*, Manchester, N. H.; Nathan P. Hunt, *Clerk*, Manchester, N. Total length of lines operated (owned, 299.05; leased, 70.03).....369.08 miles.
2d track (owned, 101.24; leased, 56), 157.24; sidings (owned, 180.56; leased, 28.10), 208.66.
Gauge, 4 ft. 8½ in. Rail (steel, 427.59 miles), 60 and 72 lbs.

Upon the consolidation with the Boston, Hoosac Tunnel and Western, and the Troy and Boston, the line of the former from Vermont-Massachusetts State line to Johnsonville, N. Y., 25.72 miles, and the Southern Vermont road, 6.19 miles, leased to the latter, were transferred by the Fitchburg Company to account of second track, and were so treated till the opening of the past fiscal year, since when they have been treated as first track.

History.—Chartered March 3, 1842; completed between Cambridge and Fitchburg, March 5, 1845. In 1848 the road was extended into Boston. The Peterborough and Shirley RR. was opened in 1850, leased for ten years, and purchased in 1860. The Vermont and Massachusetts RR. is leased for 999 years from January 1, 1874. That portion of the road between Ashburnham and Fitchburg, 10.39 miles, is used under contract by the Cheshire RR. Co. in common with the Fitchburg Co. At Boston, the Hoosac Tunnel Dock and Elevator

Company, an auxiliary corporation, was chartered April 29, 1879, for the construction of docks, wharves, elevators, warehouses, etc., for the handling and storage of freight. On April 15, 1887, the Fitchburg Co. purchased the property of the Dock and Elevator Co., issuing in payment therefor $1,512,500 preferred stock.

The company took possession of the Boston, Barre and Gardner Railroad, under a temporary operating contract, March 7, 1885. It was merged July 1, 1885, the company issuing new stock at the rate of one share for every ten shares of B., B. and G. stock, and assuming all liabilities of that company. The Ashburnham Railroad was purchased April 22, 1885.

On the 1st of February, 1887, the Troy and Greenfield Railroad and Hoosac Tunnel and the Fitchburg Railroad Companies were consolidated under the name of the latter. In the consolidation the capital stock was set at $12,048,800, of which $7,048,800 is preferred, and $5,000,000 common; $5,286,600 of the preferred stock being issued in exchange for the stock of the Fitchburg Co., immediately after the consolidation went into effect, the remaining $1,762,200 being divided pro rata among the Fitchburg shareholders within four months after the consolidation. The common stock was issued within four months after the consolidation, to the State of Massachusetts. The preferred stock has preference for dividends up to 4 per cent., after which both issues share equally. There were issued to the Commonwealth $5,000,000 bonds of the consolidated company, dated February 1, 1887, and to run for 50 years.

On May 3, 1887, the Fitchburg Co. consolidated with itself the Troy and Boston RR. Co., issuing $1,833,300 preferred stock pro rata to Troy and Boston stockholders, $1,000,000 to be delivered to them immediately, and the remainder to be held in trust for a time for payment of any outstanding claims against the Troy and Boston. The consolidated company also issues $3,000,000 new 4 per cent. consolidated mortgage bonds in exchange for the outstanding bonds of the Troy and Boston, and in settlement of claims against that company. The preferred stock issued to the Troy and Boston enjoys the same rights and privileges as the rest of the issue, but in consideration of the sums required to be expended upon the Troy and Boston Railroad it shall receive for the first four years only three-fifths, and for the next four years only four-fifths of the rate paid upon the rest of the preferred stock.

On June 1, 1887, the company purchased the Boston, Hoosac Tunnel and Western and its leased line, the Troy, Saratoga, and Northern, increasing its stock for that purpose by the issue of $2,900,000 preferred, and $2,000,000 common, the common to be held in trust against any claims that may arise against the Boston, Hoosac Tunnel and Western, and Troy, Saratoga, and Northern Companies.

Rolling Stock, September 30, 1888.—Locomotive engines, 183. Cars—passenger, 134; smoking, 24; combination, 26; baggage and express, 36; mail, 10; paymaster's, 1; directors, 1; freight (box, 4,108; stock, 244; coal, 701; platform, 761; tank oil, 5; caboose, 8-wh., 5; 4-wh., 72; flat, 8-wh., 10; 4-wh., 11; dump, 4-wh., 249), 6,126; derrick, 10; tool, 6—total cars, 6,374. * Interest on this loan is payable on the 1st of each month; the bonds mature from August 1, 1890, to September 1, 1891.

† The Bangor City Loan was issued to aid in the construction of the European and North American Ry., and is a lien on the portion of that line extending from Bangor to Winn, 55 miles. By the terms of the lease the M. C. RR. Co. assume this issue, together with $19,000 old first mortgage bonds of same company, which became due August 1, 1888, and were paid off.

The consolidated bonds of 1872-1912 are divided into four classes, A, B, C & D. Of Class A there are outstanding $975,000; Class B, $1,524,000; Class C, $1,567,400; Class D, $110,000. Class B will be further increased by the consolidation of the Maine Central issues; Class C by the Portland and Kennebec bonds and stocks; and Class D by the Androscoggin and the Leeds and Farmington issues. The trustees are to reserve an amount sufficient to retire all other issues. Bonds of Class A are also reserved for the purchase of equipment and the funding of the floating debt.

Interest on bonds is payable at the Treasurer's office and First National Bank, Portland, Me., and Second National Bank, Boston, Mass., except on City of Bangor bonds, which is payable at Merchants' National Bank, Boston.

The sinking fund bonds of 1905 were issued to provide means for payment of floating debt incurred during recent years in increasing equipment, and for various improvements.

DIVIDENDS.—The Maine Central Railroad Co. has paid since its organization the following dividends: May 12, 1870, $22.53 per share in scrip; August 15, 1882, 2 per cent.; February 15, 1883, 2½ per cent.; August 15, 1883, 3 per cent.; February 15, 1884, 3 per cent.; August 15, 1884, 3 per cent.; February 15, 1885, 3 per cent.; August 15, 1885, 3 per cent.; February 15, 1886, 3 per cent.; August 15, 1886, 3 per cent.; February 15, 1887, 3 per cent.; August 15, 1887, 3 per cent.; February 15, 1888, 3 per cent.; August 15, 1888, 3 per cent.

RAILROADS LEASED OR OWNED BY MAINE CENTRAL RR. CO.

BAR HARBOR BRANCH, formerly **MAINE SHORE LINE RAILROAD.**—Penobscot Switch, Me., to Mount Desert Ferry, Me., 41.7 miles. Length, including ferry, 48.66 miles. The Maine Shore Line RR. Co. was chartered March 4, 1881; charter amended January 24, 1883. Authorized to construct a railroad from some point on the St. Croix River in Calais to Bangor. Of this line there was completed and opened June 23, 1884, the section as above. This section, known as the Mount Desert Branch of the Maine Central RR., was built by the latter company under the terms of a perpetual lease, dated July 16, 1888. By this lease it was stipulated that the Maine Central Co. should receive from the Maine Shore Line Co. bonds to an amount not to exceed $750,000, secured by a mortgage on this line of road. These bonds, which bear 6 per cent. interest, payable June and December, and mature in 40 years, are deposited with the American Loan and Trust Company of Boston as security for an issue of a like amount of Maine Central collateral trust bonds, payable in 40 years, and bearing 5 per cent. interest. The Maine Central RR. Co. assumes the payment to the Trust Co. of the interest on the Maine Shore Line bonds. From the amount thus received the Trust Co. pays the interest on the Maine Central 5 per cent. collateral trust bonds, and applies the remaining 1 per cent. to a sinking fund to retire said collateral trust bonds. Title to the branch was to have become vested in the Maine Central on retirement of the bonds, but during the past year it was conveyed to that company in conformance with an act of the legislature passed in January, 1887.

BELFAST AND MOOSEHEAD LAKE RAILROAD.—Belfast to Burnham, Me., 33.10 miles. Incorporated February 28, 1867, to build a road from Belfast to Moosehead Lake *via* Newport. Company organized July 3, 1867. On April 27, 1871, a lease was made to the M. C. RR. Co., for a term of 50 years from May 10, 1871, at an annual rental of $36,000, payable semi-annually May 10 and November 10, lessee paying all taxes, etc. After 1892, a sum not less than $3,000 per year will be drawn and paid, and the whole amount will be paid at expiration of lease in 1920. Rental, 1887-8, $36,000. Expenses, $331.49. Net income, $35,668.51. Payments: Interest on bonds, $8,250; dividends (on preferred stock, $16,062; non-preferred, $11,316.90), $27,378.90—total, $35,628.90. Balance, surplus, $39.61. Capital stock ($267,700 preferred and $380,400 non-preferred), $648,100;

funded debt, mortgage trust bonds, $150,000, interest payable May and November. Rate of interest from May 15, 1888, to May 15, 1892, 5 per cent.; May 15, 1892, to May 15, 1920, 4 per cent. The bonds were issued May 15, 1888, to retire an equal amount of first mortgage bonds falling due in 1890. Trustees of bonds: William B. Swan, Calvin Hervey, A. C. Burgess, Belfast, Me. The preferred stock is entitled to 6 per cent. dividends, then the non-preferred is entitled to 6 per cent., after which both share equally. The road is controlled by the City of Belfast, which holds 3,604 shares of non-preferred and 1,396 shares of preferred stock. Individual stockholders hold 1,281 shares of preferred stock, and the town of Brooks, 200 shares of non-preferred. Dividends payable June and December at office of Treasurer. CHARLES B. HAZELTINE, *President;* John H. Quimby, *Secretary and Treasurer.* GENERAL OFFICE, Belfast, Me.

DEXTER AND NEWPORT RAILROAD.—Newport to Dexter, Me., 14 miles. Sidings, 0.5 mile. Chartered March 30, 1853; road opened November 25, 1868. Leased December 1, 1868, for 30 years from November 25, 1868, to the Maine Central, at an annual rental of $18,000. Lease renewed in 1888 for 999 years at $18,000 per year for 10 years, and $6,350 per year thereafter, lessee assuming payment and discharge of funded debt. Rental, 1888, $18,000; surplus from last year, $311.15; available revenue, $18,311.15. Payments: Interest on bonds, $10,500; dividends, 6 per cent., $7,320; sundry expenses, $304.68—total, $18,124.68. Balance, surplus, $186.47. Capital stock, $122,000; funded debt, $175,000—total 297,000. Cost of road, etc., $297,000. The funded debt consists of $125,000 Town of Dexter and $50,000 Town of Corinna bonds, both issues running for 30 years from September 2, 1867, and interest payable in Dexter, Portland and Boston on March 2 and September 2. Dividends payable in Dexter, March 2 and September 2. C. H. SHAW, *President;* Albert F. Bradbury, *Treasurer;* Josiah Crosby, *Secretary*, Dexter, Me.

DEXTER AND PISCATAQUIS RAILROAD.—This company was chartered October 24, 1888, to build an extension of the Dexter and Newport Railroad from Dexter to Foxcroft, on the Bangor and Piscataquis RR., a distance of about 18 miles. Contracts were let about January 1, 1889, the road to be completed by November 1, 1889. A lease of the road has been made to the Maine Central Co. for 999 years, at a rental of $12,500 per annum. The capital stock is $110,000, and the estimated cost of the road $250,000. J. B. MAYO, *President;* L. P. Evans, *Clerk;* E. A. Thompson, *Treasurer*, Foxcroft, Me.

EASTERN MAINE RAILROAD.—Bangor, Me., to Bucksport, Me., 18.80 miles; total track, 20.68 miles. Gauge, 4 ft. 8½ inches. Rail, 56 lbs. Chartered as Bucksport and Bangor RR. in 1871. Road opened December 12, 1874. Leased on opening to European and North American Ry. Co. at 40 per cent. of its gross earnings. In November, 1876, the rental was reduced to 35 per cent. The company making default on its first mortgage 7 per cent. bonds, amounting to $380,500, the road was sold under foreclosure in March, 1879, and purchased on account of the bondholders, who reorganized the company under its present name February 1, 1882. On the first of May, 1888, the road was leased in perpetuity to the Maine Central RR. Co. at an annual rental of $9,500. Rental, 1888, $9,500; expenses, $500; net income, $9,000. Paid dividends, 4½ per cent., $9,000. Rolling stock not included in lease. In 1885 the capital stock was decreased from $551,690 to $200,000. The original cost of the road was $615,096.52. *Financial Statement*, September 30, 1888.—Capital stock, $200,000; profit and loss, $183.99—total, $200,183. *Contra:* Construction, $200,000; cash, $183.99—total, $200,183. EUGENE HALE, *President*, Ellsworth, Me.; G. W. Kimball, *Treasurer*, Rockland, Me.; L. A. Emery, *Secretary*, Ellsworth, Me. GENERAL OFFICE, Rockland, Me.

EUROPEAN AND NORTH AMERICAN RAILWAY.—Bangor, Me., to Vanceboro', Me. (steel), 114.10 miles. Chartered August 20, 1850; road opened in 1871; leased in perpetuity April 1, 1882, to the Maine Central RR. Co., at an annual rental of $125,500. A grant of about 500,000 acres of land was donated to the company by the State of Maine in 1868. In December, 1869, the European and North American Railway of New Brunswick was completed, and in December, 1872, the two roads, forming a continuous line from Bangor, Me., to St. John, N. B., 205.5 miles, were united under one management. In 1875, default in interest having been made, the companies separated. The New Brunswick division was reorganized as the St. John and Maine Railway. The Maine division was surrendered October 2, 1876, to the trustees of the land grant mortgage, by whom proceedings for its foreclosure were begun September 1, 1877, and terminated October 4, 1880, when a new company, with the name of the old, was formed under the laws of the State of Maine, which provide that mortgage bondholders of railroads, upon foreclosure of the mortgage, may become stockholders in a new company under the old franchise, to corresponding amounts. The total amount of land grant bonds outstanding at the date of present company's organization was $2,000,000; overdue interest on the same, $660,000—a total of $2,660,000, of which all but $12,000 had been converted into stock up to September 30, 1886, or retired by the operation of the sinking fund. *Financial Statement*, September 30, 1888.—Capital stock, $2,488,700; funded debt, $1,000,000; dividends unpaid, $855; land grant, bonds and coupons, $10,550; profit and loss, $90,628.44—total, $3,590,533.44. *Contra:* Construction, $3,255,570.23; equipment, $330,678.77; stock of E. & N. A. Ry., $3,290; cash, $994.44—total, $3,590,533.44. Under the lease to the Maine Central RR. Co., the latter assumed payment of the $1,000,000 Bangor City bonds and the $19,000 first mortgage bonds. The latter issue has since been retired. The rolling stock was transferred to lessee. Dividends (each 2½ per cent.) paid at office of treasurer, on April 1 and October 1. NOAH WOODS, *President;* A. T. Thompson, *Treasurer;* Charles P. Stetson, *Clerk*, Bangor, Me.

PORTLAND AND OGDENSBURG RAILWAY.—Portland, Me., to Fabyan's, 89.08 miles; Scott's Mills, Vt., to Lunenburg, Vt., 2.32 miles—total, 91.35 miles. Sidings, etc., 21.79 miles. Gauge, 4 ft. 8½ in. Rail (steel, 91 miles), 56 and 60 lbs.

History.—Chartered as Portland and Ogdensburg RR. Co. February 11, 1867; road opened between Portland and Fabyan's (White Mountains), August 7, 1875. The line from Scott's Mills to Lunenburg, Vt., was opened December 22, 1875. The company defaulted July 1, 1876, on 1st consol. mtg. coupons, and proceedings in foreclosure were begun. In August, 1877, the company agreed with the mortgage trustees to fund coupons up to July 1, 1878, in notes payable in twelve semi-annual instalments of $9,360 each. These were paid up to January 1, 1884, as were also the coupons on first mortgage bonds of $800,000, due since July 1, 1878. On January 1, 1884, default was made on 1st mortgage bonds of 1870, and the road was placed in the hands of a receiver. Receiver has since paid all interest accruing on these bonds to and including that of January 1, 1888. Suit for foreclosure having been instituted by the Mercantile Trust Co. of New York as holder of certain bonds issued under the consolidated mortgage, a decree was granted December 15, 1885, and the road and property became absolutely the possession of the trustees under such mortgage. By the foreclosure the old stock was wiped out, and the consolidated bonds of November 1, 1871, with coupons over-due, became the stock of the new company—the Portland and Ogdensburg Ry., which was organized June 8, 1886. On August 20, 1888, this company leased its property to the Maine Central RR. Co. for 999 years, the latter company assuming all the liabilities of the Portland and Ogdensburg Ry., and of the receiver.

The receiver's certificates and trustee's charges were at once paid by the Maine Central RR. Co., and the property was transferred to that company September 1, 1888. The Maine Central RR. Co. agrees to pay a dividend on the stock of the Portland and Ogdensburg Ry. Co. of one per cent. per annum for the first three years, and two per cent. per annum thereafter, payable quarterly at the office of the treasurer of the Maine Central RR. Co. in Portland, on the last days of November, February, May and August.

By the terms of the lease, the Portland and Ogdensburg Ry. is to issue bonds not to exceed $20,000 per mile of completed railway, the principal and interest of which is guaranteed by the Maine Central RR. Co., and the bonds are secured by mortgage of the property to the Boston Safe Deposit and Trust Co., trustee. With these bonds the $800,000 of 1st mortgage bonds are to be paid at maturity, and the new bond then becomes the only lien

on the property. The new bond bears 5 per cent. interest, running 20 years—$600,000 of which have been issued for the purpose of extinguishing all liabilities except the $800,000 mortgage, and for improving the property.

Operations, etc., for 11 months ending August 31, 1888.—Train mileage—passenger, 127,021; freight, 112,942; other, 67,659—total, 307,622 miles. History.—This company was formed by the organization, in 1878, of the holders of Berdell mortgage bonds issued by the Boston, Hartford and Erie RR. Co. (See MANUAL for 1888.)

On July 24, 1881, the Hudson River Extension of the road was opened from Waterbury, Conn., to Brewster's, N. Y., 190.36 miles from Boston, and on December 12, 1881, to Fishkill on the Hudson, 228.56 miles from Boston. Of this line the company owns from Boston to Hopewell Junction, N. Y., 215.04 miles. Between that point and Wicopee, 11.02 miles, it uses the line of the N., D. & C. RR. From this last point to Fishkill the company built 1.80 miles of line. A connection is made (by ferry) with the N. Y., L. E. & W. RR. at Newburgh, N. Y. During the fiscal year 1883 the mileage of the company was reduced by the sale of 5.34 miles of the Woonsocket branch to the Boston and Albany RR. Co., and the taking up of 1.39 miles of the Dedham branch. For statement showing the growth of this company's system, see MANUAL for 1884, page 69.

The Norwich and Worcester RR. is leased and operated as the Norwich and Worcester Division of this company's road. Through this lease the company also controls the Norwich and New York Transportation Company's line of steamers.

During the past fiscal year the company took 99-year leases of the Rhode Island and Massachusetts, the Milford and Woonsocket and the Milford, Franklin and Providence roads, and became owner of the Connecticut Central RR. by foreclosure of a mortgage upon that property.

During 1882 the company made an arrangement with the New England Car Trust Association, under which there was purchased certain equipment, the cost of which was provided for by the Car Trust Association, the railroad company issuing thereto its notes to an amount equivalent to such cost, less the first instalment of 10 per cent, which under the agreement was paid in cash. These notes were held by the Car Trust as collateral to secure an equal amount of 6 per cent. Car Trust certificates, which were a lien on the equipment furnished. In January, 1885, the Car Trust Association was merged into the New York and New England RR. Co., under an agreement by which the latter company issued an equal amount of 2d mortgage bonds in place of $1,241,000 Car Trust certificates outstanding. These bonds are due August 1, 1902, and bear interest from February 1, 1885, at the rate of 3 per cent. per annum for five years, 5 per cent. per annum for the following two years, and 6 per cent. per annum thereafter. See MANUAL for 1886, page 414.

The company failing to meet its fixed charges and provide for its floating debt, a receiver was appointed January 1, 1884. Subsequently power was granted to the company by the Legislatures of Massachusetts, Rhode Island and Connecticut, to issue $5,000,000 7 per cent. cumulative preferred stock, of which $2,200,000 has been issued and the proceeds applied to the extinguishment of the floating debt. On the 31st of December, 1885, the receiver was discharged and the property restored to the company.

The Richardson's Wharf property, which was previously occupied under a weekly rental, was leased to the company May 1, 1886, at a yearly rental of $15,000 and taxes, with privilege of purchase, after two years, for $300,000.

"FUNDING TERMINAL INDEBTEDNESS.—The Legislature of Massachusetts enacted a law at its last session authorizing the company to fund its indebtedness on its terminal property, making the bonds so issued a first lien upon the property and a legal investment for savings banks to the extent of sixty per cent. of the value of the property as ascertained in the usual manner. Papers are now being drawn to provide for the issue of bonds to the extent of $1,486,000, which will run fifty years with interest at the rate of four per cent. per annum. This issue of bonds was authorized by the stockholders at the last annual meeting, but their further assent will be required at the ensuing meeting to include a newly acquired piece of property."

1st mort. (Providence to Stonington, 50 miles), 7 p. c. 30-year bonds, due July 1, 1899. Int. Jan. & July..$1,000,000
1st mort. (Stonington to New London, 13 miles), 4 p. c. 20-year bonds, due Apr. 1, 1901, int. Apr. & Oct. 300,000

At the annual meeting in December, 1887, the directors were authorized to increase the capital stock to $5,000,000, the proceeds of the increase to be used in providing improved terminal facilities in Providence and other improvements. Annual meeting, second Wednesday in December. Books close for annual meeting and for dividend payments ten days prior to each. Interest and dividends payable at the Central Trust Co., 54 Wall Street, New York.

"While the earnings of the road and branches show a further improvement on that of last year, the surplus earnings of the company have fallen off, partly from the fact that no extra dividend was paid by the Providence and Stonington Steamship Company, but mainly owing to the unusually large amount expended in the reconstruction of bridges, in steel rails, and in fuel.

"A contract was made in April last with the Union Bridge Company for building a bridge over the Thames River, and the work was commenced soon afterwards. It is now well advanced and should be completed early in the next summer. The right of way to the bridge has been mainly purchased, and contracts have been made for grading the approaches.

"On the 18th of April the Executive Committee entered into an agreement with a committee of the Providence and Worcester Railroad Company to lease the property of that company for 99 years. This contract was subsequently ratified by the unanimous vote of the stockholders of both corporations, and is now held in escrow waiting the approval of the Massachusetts Legislature."

opened November 10, 1845. Since then the mileage has been increased by various consolidations, extensions and leases to a total of 468.82 miles, September 30, 1884, as shown in MANUAL for 1885, page 76. On April 1, 1885, the Brockton Branch, 0.75 mile, was opened. In 1887 the Dorchester and Milton RR. was merged into this company's system.

During the past fiscal year the mileage has been increased by the following additions: Boston and Providence RR., leased from April 1, 1888, for 99 years, at a rental equal to 10 per cent. yearly on stock, and a bonus of $1,300,000 cash, out of which an extra dividend of $32.50 per share was paid on stock, May 2, 1888; the Attleborough Branch RR., formerly leased to the Boston and Providence RR. Co.; the Nantasket Beach RR. leased for 99 years at a yearly rental of $6,250; the Chatham Branch RR., opened for business November 21, 1887, and the West Bridgewater Branch opened for business January 1, 1888.

The Framingham and Lowell was leased from its completion, by the Boston, Clinton and Fitchburg, and afterwards by the Boston, Clinton, Fitchburg and New Bedford. On the absorption of the latter by the Old Colony the lease was transferred to the latter company. October 1, 1882, name changed to Lowell and Framingham RR. Co. On May 13, 1884, the Old Colony Railroad Company and the Lowell and Framingham RR. Co. entered into an arrangement providing for the consolidation of the two companies under the name of the Old Colony RR. Co., the Old Colony issuing 4½ per cent. 20-year bonds in exchange for the bonds of the Lowell and Framingham RR. Co. The capital stock of the Lowell and Framingham was exchanged for that of the consolidated company, at the rate of four shares of preferred stock or twenty shares of common stock of the former for one share of the latter. The consolidation was completed in April, 1886, increasing the construction account, $627,905; the property accounts, however, being diminished $434,016.74, the value of the stocks and bonds held by the company September 30, 1885, and used in the union.

At the time the lease took effect, April 1, 1888, improvements were being made upon the Boston and Providence Railroad in new stations and a second track upon the West Roxbury Branch. These improvements have been completed at a cost of $56,351.78 for the second track and $12,379.01 for stations, and the amount has been charged to improvement account. The additions made to construction account for the year amounted to $231,875. To provide

for this expenditure, for payment for stock in the Steamboat Company, and for the floating debt as stated in the last report, and to meet long notes maturing during the year to the amount of $220,000, and the payment of $1,300,000 to the Boston and Providence Railroad Company under the lease, and about $140,000 for materials on hand, the following securities have been issued: $1,560,000 of four per cent. bonds, as authorized by the stockholders at the annual meeting, November 22, 1887, and made applicable by the special meeting to the Providence lease. These bonds were sold for their par value. Four thousand shares of capital stock have been sold for $676,631.25. The premium realized from this sale, $276,631.25, has been credited to the improvement account, which now amounts to $414,459.28.

The whole amount of short-time notes outstanding on September 30, 1888, was $326,563.10, of which $300,000 has been paid at the date of this report. The balance, $26,563.10, consists of notes given for land to parties who preferred notes to money, and of notes given to the beneficial society of the employes of the company as an investment of their funds. At the annual meeting held in November last it was decided to increase the capital stock to $15,000,000, and to build a branch line from North Attleboro' to Walpole and thence to a connection with the West Roxbury Branch at Dedham.

VERMONT VALLEY RAILROAD COMPANY OF 1871.

Line of Road.—Bellows Falls, Vt., to Battleboro', Vt.....24 miles. 2d track, 2.5 m.; sidings, 1.19 m. Gauge, 4 ft. 8½ in. Rail (steel, 26.89 m.), 56 and 66 lbs.

History.—Chartered November 8, 1848; road opened in 1851. Leased May 12, 1865, to

trustees for 10 years, at an annual rental of $60,000. Lease transferred to the Rutland RR. Co. January 23, 1871, and operated by that company until April 5, 1877, when the road was surrendered to the Vermont Valley RR. Co. of 1871, which has since operated it under arrangement with the Connecticut River RR. Co. Toward the close of 1880, the V.V. RR. Co. purchased the Sullivan County RR., and to provide means for such purpose made an issue of $800,000 30-year bonds, dated October 1, 1880, interest 5 per cent., payable April and October. These bonds are secured by a first mortgage on the line of the V. V. RR. and by a collateral pledge of the $500,000 capital stock of the S. C. RR. to the Boston Safe Deposit and Trust Co., trustee of the mortgage. The dividend declared on the Sullivan RR. stock pays the interest on the bonds. On June 1, 1881, the V. V. RR. Co. of 1871 took formal possession of the road.

History.—The Adirondack Railway Co., incorporated July 7, 1882, is successor to the Adirondack Company, which was chartered October 24, 1863, to build a line from Saratoga to Ogdensburg; road opened to its present terminus December 31, 1870. In 1874 the road was placed in the hands of a receiver, by whom it was operated until September 29, 1881, when it was sold under a decree of foreclosure and purchased by the trustees of the bondholders. In August, 1882, the trustees surrendered the road to the new company. In the reorganization the present company acquired, in addition to the road and franchises, about 500,000 acres of lumber land, in the Adirondack region, formerly the property of the old company. During the past fiscal year the line extending from Jessup's Landing to Palmer Falls, a distance of 2.5 miles, was built by the Hudson River Pulp and Paper Co., and leased to this company.

Funded debt consists of:

General mortgage (Riv. Div., 132 m.) 7 3 p. c. 30-year bonds, due March 1, 1896, (interest Jan. and July). $4,000,000
1st mortgage (Low Grade Div., 110 m.) 7 per cent. 40-year bonds, due April 1, 1910 (inter. Apr. & Oct.). 10,000,000
2d mortgage (Low Grade Div., 110 m.) 5 per cent. bonds, dated April 1, 1870 (interest Jan. and July)... 2,200,000
Income, 3d lien, 7 per cent. 30-year mortgage bonds, due October 1, 1894 (interest April and October).. 9,727,000

The 2d mortgage bonds become due and are payable, $100,000 a year, from and after January 1, 1875. The original amount was $3,500,000, and to January 1, 1888, thirteen annual payments had been made, reducing the amount to $2,200,000.

The amount of income bonds authorized is $10,000,000. They receive the remainder of net revenue after interest on prior liens, and any deficiency is made up by payments in additional issues. The limit of $10,000,000 was practically reached April 1, 1884. Since then no interest on these bonds has been paid. Annual meeting, second Tuesday in April. Interest payable at New York, Philadelphia, and Pittsburgh.

The general mortgage River Division, and the 1st mortgage Low Grade Division bonds are coupon $1,000 each; the income mortgage bonds are coupon $100, $500 and $1,000.

Interest on first mortgage Low Grade Division bonds is paid by Pennsylvania RR. Co.

GENERAL BALANCE SHEET.—During the year "this account, after careful analysis, has been materially changed. The changes appear chiefly in the large reductions of that part of the account termed in the last annual report 'Surplus Fund.' These reductions have been made chiefly in a re-valuation of the stocks and bonds and other properties of the company, and of claims held against subordinate companies, and have been made substantially upon the following general principles:

"1. Wherever interest has been charged against leased or subordinate companies for a series of years, and the net earnings of those lines have not been sufficient to justify the expectation of a collection within a reasonable time, the claim for such interest has been written off, and the assets as they appeared on the books of the company reduced accordingly.

"2. Where the company has acquired the bonds and stocks of subordinate companies which for some time past have proved to be non-dividend or non-interest paying, the value of such bonds and stocks has been reduced on the books of the company, in many cases to a nominal amount.

"3. Where the company has made advances to certain of its subordinate or leased lines for purposes of permanent improvement, and there is no immediate prospect of those lines repaying such investment, the same has been written off the books of the company.

"4. There has been an approximate re-valuation of the company's cars and engines, and a reduction made upon the books of the company in the item 'Cost of Rolling Power,' of $4,000,000, as the result of the approx-

rate appraisement of the value of the plant as it now stands. This reduction makes the equipment stand at about 70 per cent. of its cost.

"5. A large number of miscellaneous accounts, which are now uncollectible, have likewise been written off the books.

"The reductions in the values of the bonds and stocks owned by the company need not be regarded as permanent, as future developments may, and probably will, render some of them interest-bearing securities.

"After all of the reductions made on the principles above stated, there still remains a balance to credit of profit and loss of $23,812,605.74.

"The 'Surplus Fund,' as set forth in previous reports, was not a 'fund,' but was the credit to 'profit and loss' as it is usually stated, and of course represented the difference between the assets of the company, as they appeared on its books, and its liabilities. Such fund, therefore, necessarily included the cash amounts invested in the stocks and bonds owned by the company, and its advances to subordinate companies, either for the payment of interest, for permanent improvements on the subordinate lines, or other legitimate claims against them. By the reduction of the valuation of such investments, no actual change as to the amounts so invested is made, but only a restatement of the present value thereof as near as it can be ascertained upon careful investigation.

"The examination which has resulted in these reductions has covered the entire period of the company's history, and has been made in conjunction with the committee appointed by the board on April 18, 1888, to examine into and report the exact financial condition of the company, and the value of its properties.

"The following condensed statement shows the reductions that have been made:

"This balance to the credit of profit and loss will be subject to still further (but not large) modifications in a subsequent report, as the examination of all the items involved in the asset table is not quite complete, notably that of real estate. In this, however, it is not expected that any necessity for reduction will arise. The increase in the item of real estate, as stated in the asset table, as compared with that given in the annual report for 1887, is not due to a re-valuation of the company's real property, but to the fact that large real estate items have heretofore been included in cost of road, which should more properly have been classified under real estate, and which have now been transferred to that account."

* Payable in Consolidated Mortgage Bonds.

The loan of 1850–1880 was extended when it became due in the latter year, and is now redeemable at the option of the company. The loan of 1853–1885 was extended at 4 per cent. to October 1, 1935.

The sterling sinking fund bonds of 1870–1895 are secured on the main stem, Baltimore to Wheeling, 379 miles, and are redeemable by action of the sinking fund (£16,000 per annum), which is applied annually in March to purchase of these bonds, if not above par, but if above par the fund may be invested in other securities.

The sterling sinking fund bonds of 1872–1902 are of £200 each; are secured on main stem, 379 miles, and Washington to Point of Rocks branch, 42 miles; and are redeemable by action of an annual sinking fund of £24,000, which is to be applied semi-annually to purchase of these bonds, if below par, but if above par the fund is to be invested in other securities. Bonds of this issue are free of all State and United States taxes; principal and interest payable at London agents.

The sterling sinking fund bonds of 1874–1910 are of £200 each, and in other respects are similar to and secured in same manner as the bonds of 1872–1902, with the additional security of being a mortgage on all appurtenances and equipments of the company, and with the exception that the sinking fund is £18,000 per annum, applied semi-annually.

Interest is payable in London by Baring Brothers & Co. on sterling bonds of 1870–95 and of 1872–1902; of 1874–1910 by J. S. Morgan & Co.; on 4½s by Brown, Shipley & Co.

The 4½ per cent. sterling loan of 1933 is a direct obligation of the company, and is specially secured by a pledge of all the first mortgage bonds of the Baltimore and Philadelphia Railroad, amounting to £1,000,000, and by a first mortgage on the Philadelphia branch. The bonds of £200 each, coupon and registered (convertible at will), are free of all taxes, and mature April 1, 1933. The Baltimore and Ohio RR. Co. is under obligation that no mortgage shall hereafter be placed upon its main line that will impair or take precedence of this.

In accordance with the agreement with the City of Baltimore, the thirteenth annual payment, namely, $40,000 of the principal of the bonds for one million dollars given for the purchase of the interest of the city in the Pittsburgh and Connellsville Railroad Company has been made, thus reducing this obligation to $480,000.

The $7,744,000 (£1,600,000) five per cent. sterling bonds, $1877–1927, are secured by an equal amount of mortgage bonds of the B. & O. & C. RR. Cos., of the same date, bearing 6

per cent. interest, and 28,900 shares ($1,445,000) of capital stock of said companies, both placed in the hands of trustees.

The $3,000,000 six per cent. bonds 1879–1919 are secured by same amount of mortgage bonds of Parkersburg Branch RR. Co. of same date, bearing 6 per cent. interest and placed in hands of trustees.

The $10,000,000 5 per cent. gold bonds, 1885–1925, are secured by pledge of an equal amount of Pittsburgh and Connellsville 5 per cent. 2d consolidated mortgage bonds held by trustees.

The car trust bonds are dated January 1, 1887; interest payable January and July; principal in ten annual payments of $250,000 each, the first, or Class A, on January 1, 1888, and the tenth, or Class K, on January 1, 1897. The bonds are a direct obligation of the company, and are additionally secured by mortgage on the new rolling stock acquired through the car trust; and the entire original lien will hold till the payment of the last bond. The bonds are for $1,000 each, and are coupon, with privilege of registration. Interest payable at the office of the trustee, the Mercantile Trust and Deposit Co., Baltimore, Md.

The consolidated mortgage bonds are 5 per cent. 100-year gold coupons, with privilege of registration, interest payable, tax free, at the agency of the company in New York, February and August, and the principal February 1, 1988. The amount authorized is $29,600,000, of which $8,177,000 were reserved to be exchanged for the securities now in the sinking funds, and the remainder to retire the residue of the main line mortgage indebtedness not provided for by the existing sinking funds. If the $8,177,000 of securities in the sinking funds were not exchanged as above, it was provided that $7,500,000 of the bonds reserved for that purpose should be sold, which has been carried into effect, and the proceeds of these bonds, together with the proceeds of the sale of the B. & O. Express and telegraph lines, have been applied to the payment of the company's floating debt. The mortgage covers the main line and branches between Baltimore and Wheeling (exclusive of the Washington branch), the two Ohio river bridges, the company's Washington branch stock, and the entire amount of Wheeling, Pittsburgh and Baltimore RR. Co.'s 1st mortgage bonds. Trustee: Mercantile Trust and Deposit Co., Baltimore, Md.

"Of the Consolidated Mortgage bonds, $8,177,000 were reserved to be exchanged for these securities. If so exchanged, these latter securities could have been disposed of by the Company at its pleasure, or, if held by the Company, the annual interest therefrom would have been available as a source of income. Under the terms of the mortgage, instead of exchanging all of these securities for Consolidated Mortgage bonds, $7,500,000 of the Consolidated Mortgage bonds have been sold, and $626,000 have been exchanged for $566,000 of Sinking Fund securities, leaving $51,000 still to be exchanged, in accordance with the provisions of the mortgage. The remainder of the Consolidated Mortgage bonds, $21,423,000, were reserved to retire the residue of the mortgage indebtedness not provided for by the existing Sinking Funds at the time the Consolidated Mortgage was created. $1,592,000 of the Consolidated Mortgage bonds, including the $626,000 exchanged as above, have during the year been placed in the several Main Line Sinking Funds, as above stated, and as shown in the General Balance Sheet.

"By the operations of this Consolidated Mortgage the Company is relieved from the burdensome appropriations to the Main Line Sinking Funds, which with the increments for the year have amounted in cash to $639,945.16. The annual appropriation to these Sinking Funds is £58,000 sterling, but the increments thereupon increase each year. By the year 1895 the annual increment charge would amount approximately to $675,000, which, added to the fixed contribution of $280,720 (£58,000), would make the large sum of $955,720, which the Company would be called upon to pay in cash out of its income, in the absence of some such provision as that made by the Consolidated Mortgage.

"The practical operation of the Consolidated Mortgage, therefore, has been:

"1. To relieve the Company of the growing burden of the Sinking Funds.

"2. To give to the Company the use of the $8,177,000 in the Sinking Funds at the time of the creation of the mortgage, or, by selling $7,500,000 of Consolidated Mortgage bonds against these securities, to secure to the Company annually in cash the interest on those remaining in the Sinking Funds, which for the present year amounted to $358,525.16.

"All this is accomplished without increasing the indebtedness of the Company. When the several Main Line mortgages shall have matured they will be replaced by Consolidated Mortgage bonds to the amount of $29,600,000, substantially the gross amount of the Main Line mortgages, as stated."

Bonds for which the Company is Guarantor.

The Bonds for which this Company is guarantor are as follows:

First mortgage 4½ per cent. bonds of Cincinnati, Washington and Baltimore Railroad Company	$6,250,000
First mortgage 5 per cent. bonds of the Schuylkill River East Side Railroad Company	4,500,000
Second mortgage 5 per cent. bonds of the Staten Island Rapid Transit Rrailroad Company	2,500,000
First mortgage 6 per cent. bonds of the Valley Railroad Company of Virginia (held in sinking funds)	326,000
First mortgage 6 per cent. bonds of the Winchester and Potomac Railroad Company	147,250

The annual interest on these bonds is $8,895, and is paid out of the rental. (See table J.)

On July 9, 1884, the Pittsburgh and Western Railroad Company became the lessee of the Pittsburgh, Cleveland and Toledo Railroad, and bound itself to pay from the earnings of the P. & W. and P., C. & T. Companies the annual sum of $144,000, in equal monthly instalments, being the interest at 6 per cent. upon 2,400,000

Of the first mortgage bonds of the P., C. & T. RR. Co. The Baltimore and Ohio RR. Co., by a contract of the same date with the P. & W. RR. Co., agreed to see that the amount aforesaid was paid by the P. & W. RR. Co., and, in case of its failure to pay the same, became entitled to the lease of the P., C. & T. RR.

Up to the close of the fiscal year this company had not been called upon to make any payments upon the above guaranteed bonds except for the Schuylkill River East Side RR. Co. Its proportion of the deficit for the year on this account has been $25,504.13.

Annual meeting, third Monday in November. Books close for annual meeting on or about 8th of same month; for dividends, on or about 25th of April and 22d of October. Bonds and stocks listed as follows: On New York Stock Exchange, $8,000,000 6 per cent. Parkersburg Branch loan of 1919. On Baltimore Exchange, common, preferred, and Washington Branch stocks. On London Exchange, B. & O. 6 per cent. bonds of 1895, 1902, and 1910; 5 per cent. bonds of 1927, and 4½ per cent. bonds of 1933.

"COMPARISONS between 1887 and 1888:

"The gross earnings for the year ending September 30, 1888, were $20,353,491.64; for the year previous, $20,659,035.90—decrease, $305,544.26. The expenses of operation were $14,200,561.29; for the year previous, $14,120,131.20—increase, $80,430.09. The net earnings were $6,152,930.35; for the year previous, $6,538,904.70—decrease, $385,974.35.

"The published report of 1887 did not include the operations of the Washington County and State Line Railroads. They are included in the report of 1888. Taxes to the amount of $129,545.93 were charged to operating account in 1887. Taxes are treated separately in 1888. To make the foregoing comparison of net earnings uniform in 1887 and 1888, it is proper to add: Decrease in net for 1888, $385,974.35; add for taxes charged to operating account in 1887, $129,545.93—$515,520.28. Deduct loss in operating Washington County and State Line Railroads in 1887, $1,075.35—decrease in net of $514,444.93.

"Proper conclusions cannot be drawn from these comparisons, however, as to the relative results for the two years, without taking into consideration the following differences in accounting, and in the sources of gross and net revenue, as well as in the character of expenses incurred.

"*First.* The company discontinued the operation of the Baltimore and Ohio Express on September 1, 1887, and sold the franchise and equipment to the United States Express Company as of that date. The earnings and expenses for the year 1887 include those of the Express Department entire, while those for 1888 include only 40 per cent. of the gross earnings, paid by the express company to the railroad company.

The gross earnings of the express for 1887 were		$1,330,057 03
Received from the express company in 1888 (40 per cent. of the gross)		469,121 29
Difference in gross revenue in the accounts for the two years		860,935 74

Showing that if the express had been operated on the same basis in 1888 as in 1887 there would have been a large increase in gross revenue instead of a decrease of $305,544.26.

As regards the difference in net on this account:

The gross earnings from express in 1887 were		$1,330,057 03
40 per cent. of which is	$532,022 80	
Difference in operating expenses for the two years	688,287 21—	1,220,310 01
Net decrease on this account		$109,747 02

"*Second.* The company sold its sleeping and parlor car equipment and franchises to the Pullman Palace Car Company as of June 25, 1888, and the decrease in net earnings for 1888, on this account, was 56,197 39

These are not losses of *net income*, but merely differences in *net earnings* as the accounts are stated. The company has received the benefit of the cash and securities derived from the sales, and both contracts are regarded by your management as advantageous to the company.

"*Third.* There was collected from the Central Ohio Railroad Company during the year 1887, $210,656.03 for account of advances during previous years to that company for additions and improvements to its properties. This sum was credited to and deducted from the operating expenses of the Central Ohio Division for the year 1887. That is, the actual operating expenses for that year were greater than the statements indicate by 210,656 03

"*Fourth.* There were expended upon the roadway and bridges during 1888, with the view to their improvement, and charged to operating expenses, more than was so expended in 1887 331,563 46

"*Fifth.* With the object of still further improving the physical condition of the property, there was expended on the locomotives and freight cars, and charged to operating expenses, more than was so expended the year previous 83,050 36

"*Sixth.* The lines of the company in West Virginia and Pennsylvania were damaged greatly during July and August by floods of an unprecedented character, and large losses entailed upon the company thereby. The extraordinary cash expenditure incurred prior to September 30 on this account, and charged to operating expenses, amounted to 56,564 69

$847,778 88

"These differences, aggregating $847,778.88, more than account for the decrease of $305,544.26 in gross earnings, and of $514,444.93 in net earnings for the year.

"The amount of service performed has also been greater than in the year previous, as shown by the following:

"The gross earnings from freight have increased $880,146.70, or 6.15 per cent. over the previous year.

"The number of tons hauled was 11,195,940, an increase of 623,047, or 5.89 per cent over the year previous.

"The number of passengers carried was 7,120,432, an increase of 465,827, or 7 per cent. over the year previous.

"These facts show that notwithstanding the large increase in the expenses in the Roadway and Equipment Departments, marked economies have been introduced throughout the service, and at the same time the traffic has been increased.

"SINKING FUNDS.—The cash appropriations to the sinking funds have been:

On account of Pittsburgh and Connellsville consolidated mortgage loan	$20,687 02
On account of the Baltimore and Ohio and Chicago mortgage loan	36,300 00
	$56,987 02

Digitized by Google

"The appropriations to the sinking funds for the main line mortgages have been made in consolidated mortgage bonds, as provided for in the consolidated mortgage and by agreement with the Sinking Fund Trustees.

"On the 30th of September, 1887, $477,690.68 was due for appropriations and increments of the main line sinking funds. The appropriations and increments for these funds for the year ended September 30, 1888, amount to the sum of $704,045.16, making together $1,181,735.84. $966,000 of consolidated mortgage bonds have been placed in these sinking funds, at par and interest, in partial adjustment of the above amount, leaving a balance to be invested, as of September 30, 1888, of $197,472.17, which balance will also be adjusted in consolidated mortgage bonds.

"THE STATEN ISLAND RAPID TRANSIT RAILROAD.—On November 21, 1885, the company acquired a controlling interest (51 per cent.) in the capital stock and income bonds of the Staten Island Rapid Transit RR. Co., and in consideration therefor indorsed the second mortgage bonds of that company to the amount of $2,500,000.

"The Staten Island Company has completed the bridge over the Arthur Kill and the two new ferry boats 'Rober Garrett' and 'Erastus Wiman;' and the construction of improved ferry slips, waiting-rooms, and passenger station at the foot of Whitehall street, New York, and the terminals at St. George, Staten Island, are now in process of completion.

"The company owns about 10,016 feet of water front, accessible to its tracks, on the waters of Arthur Kill and New York Bay, which must in future develop great value.

"It is expected at an early day to have the connection between the Central RR. of New Jersey at or near Roselle Station and the west end of the Arthur Kill Bridge completed, and the New York traffic of the Baltimore and Ohio Company diverted to the Staten Island terminus, in accordance with the terms of the contract of July 27, 1886, between the Philadelphia and Reading RR. Co., the Central RR. Co. of New Jersey, the Schuylkill River East Side RR. Co., and the Baltimore and Ohio RR. Co.

"SALE OF THE BALTIMORE AND OHIO TELEGRAPH.—On October 5, 1887, the company sold its entire interest in the Baltimore and Ohio Telegraph system to the Western Union Telegraph Company, receiving therefor stock of the W. U. Tel. Co. to the amount of $5,000,000 and a guarantee of an annuity of $60.000 per annum, and made with the Western Union Company an operating contract, under which the Baltimore and Ohio Company retains the ownership of its exclusive railroad wires along its lines of railway and between Philadelphia and New York, and receives from the telegraph company unlimited free service along these lines and free service to the extent of $10,000 per annum beyond its lines of railway, and above that limit half rates for its railroad messages.

"SALE OF THE SLEEPING AND PARLOR CARS.—On June 25, 1888, the company sold its interest in the Baltimore and Ohio sleeping and parlor cars to the Pullman's Palace Car Company, and entered into a contract with that company to operate sleeping and parlor cars upon the lines in the B. & O. system for the period of 25 years from that date. As consideration for the transfer of the cars and the privilege of a long contract, the Baltimore and Ohio Company received the sum of $1,200,000."

RAILROADS OWNED OR LEASED BY THE BALTIMORE AND OHIO RR. CO.

BALTIMORE AND OHIO AND CHICAGO RAILROADS (CHICAGO DIVISION, BALTIMORE AND OHIO RR. Co.).—*Line of Road*, Chicago Junction, Ohio, to Baltimore Junction, Ill., 262.6 miles. CENTRAL OHIO RAILROAD (CENTRAL OHIO DIVISION BALTIMORE AND OHIO RR—*Line of Road*, Bellaire, Ohio, to Columbus, Ohio, 137.29 miles. Total track, 206.52 miles. Gauge, 4 ft. 8½ in. Rail (steel, 137.29 miles), 60 and 67 lbs. Chartered February 8, 1847; road opened in 1854. In 1859 it was placed in the hands of a receiver, and November 1, 1865, a new company (the C. O. RR. Co. as reorganized) was organized, to which the property was conveyed January 29, 1866. An agreement was made November 21, 1866, with the Baltimore and Ohio RR. Co., by which the road was to be operated for 20 years, the B. & O. RR. Co. to retain 65 per cent. of the gross earnings for the first five years, and 60 per cent. thereafter; and out of the remainder to pay annually $166,000 to the C. O. RR. Co., for the interest on its funded debt. The lease was modified February 13, 1869, so that the B. & O. RR. Co. was to retain 65 per cent. throughout the entire term of 20 years. The lease was extended February 28, 1880, unt.l December 1,1926. The consolidated first mortgage bonds are limited in issue to $20,000 per mile of completed road. The mileage of the company would permit the issue of $5,220,000 (which includes bonds provided by the mortgage to be issued on sidings in cities of Buffalo and Rochester, at the rate of $20,000 per mile), but of this amount $1,300,000 are held by the trustee to cover the outstanding $1,300,000 first mortgage bonds on the Rochester Division. Of the remaining $3,920,000 that could be issued, $935,000 were reserved to take up the $1,870,000 2d mortgage bonds of the Rochester Division. Of this amount $923,000 have been issued, and $1,846,000 of the income bonds received by the trustee, making the actual amount of consols outstanding April 1, 1888, $3,908,000. Of the first consols $12,000 are still held by the trustee to redeem $24,000 outstanding income bonds.

The general mortgage bonds are secured by a mortgage upon the entire property of the company. Of these bonds $6,000,000, numbered from 1 to 6,000, both inclusive, are reserved to take up and cancel the following described obligations, the payment of which was assumed by the Buffalo, Rochester and Pittsburgh RR. Co.: $1,300,000 1st mortgage bonds, Rochester and Pittsburgh RR., due in 1921; $3,920,000 consolidated 1st mortgage bonds, Rochester and Pittsburgh RR., due 1922; $760,000 car trust bonds, and $20,000 1st mortgage bonds, Perry RR., due 1902. None of these general mortgage bonds, from 1 to 6 000, both inclusive, can be certified to by the Trust Co. or issued until an equal amount of the above described securities have been cancelled and delivered to the Union Trust Co. The balance of the issue, being $4,000,000 of bonds, can be issued as required by the Buffalo, Rochester and Pittsburgh Ry. Co. These bonds are coupon with privilege of registration, and are of the denomination of $1,000 each.

Second track on lines owned, 91.98 miles; third and fourth tracks owned, 43.29 miles; sidings owned, 148.64—total length of track owned, 440.26 miles. Gauge, 4 ft. 8½ in. Rail—iron, 56 and 65; steel (323.80 miles), 62, 62½ and 70 lbs.

The company operates 627.27 miles of railroad and 33.20 miles of steamer and ferry lines, making a total of 660.47 miles, including the New York and Long Branch RR. (38.04 miles), operated jointly by this company and the Pennsylvania RR. Co., under agreement; and 9.66 miles of the Union RR., between Union and Minooka Junctions, operated jointly under a trackage lease with the Delaware and Hudson Canal Co. It also controls through proprietary interest 48.44 miles of railroad in Delaware and Maryland, extending from Bombay Hook, Del., to Chestertown, Md., with extension to Nicholson, Md., making a total mileage controlled of 708.91 miles. The company is the absolute owner of nearly the entire mileage operated by it in the State of New Jersey, and is the lessee in perpetuity of the balance, with the exception of the New York and Atlantic Highlands, and Toms River and Waretown Railroads, and the Lehigh and Lackawanna Branch in Pennsylvania. Its railroad interests, summarized, are as follows:

History.—Consolidation, February 22, 1849, of the Elizabeth and Somerville and the Somerville and Eastern RR. Co., the former chartered February 9, 1831, and built the road from Elizabethport to Somerville, 25 miles, completing it in March, 1839, and the latter chartered February 26, 1847, to build an extension of the Elizabeth and Somerville road from Somerville to Easton, 39 miles, about 10 miles of which extension were constructed when the

companies were consolidated. The road was completed from Elizabeth to Phillipsburg July 2, 1852, and was extended to Jersey City, in 1864. (For history of construction of branches see MANUAL for 1888.)

The Central RR. Co. leased its lines to the Philadelphia and Reading in May, 1883; the lease was abrogated January 1, 1887, and receivers appointed; a plan of reorganization was agreed upon some months later, and on January 1, 1888, the roads were restored to the company. In the reorganization most of the lines previously leased or operated were consolidated with Central RR.

"Heretofore proprietary interests in the various branch and tributary connecting lines operated by the Company were designated in the accounts as 'Stocks Owned' and 'Advances to other Companies,' which method was inadequate to a correct understanding of their value and relation to this Company. In the late re-organization complete ownership of the entire capital stocks of various other lines formerly operated under leases was acquired and is now, together with the proprietary interest referred to, included and represented in the Property Account."

The company also operates, jointly with the Delaware and Hudson Canal Co., the Union RR., from Union Junction to Minooka Junction, 9.66 miles. 2d track, 83.34; sidings, 118.05 miles. Gauge, 4 ft. 8½ in. Rail (steel, 332.62 m.), 60, 62½ and 65 lbs.

These roads are the property of the Lehigh Coal and Navigation Co., chartered February 13, 1822. In 1827 this company built the Mauch Chunk (gravity) RR., and in 1831 the gravity road to the Room Run Mines. The Lehigh and Susquehanna was commenced in 1837, and opened from White Haven to Wilkesbarre in 1841. The first anthracite coal, the product of this company's mines, 365 tons, was sent to market in 1820. The extension to Phillipsburg was completed in August 1868. The railroad was leased for 999 years from March 31, 1871, to the Central RR. Co. of New Jersey, at an annual rental of 33½ per cent. of the gross receipts.

On May 29, 1883, the lease was modified and the roads transferred to the Philadelphia and Reading RR. Co., and were operated by that company till January 1, 1887. On the latter date the roads were restored to the Central of New Jersey, and a new agreement made by which the lessee acknowledged the obligations imposed by the contracts of March 31, 1871, and May 29, 1883, and further agreed to deposit an equal amount of its new general mortgage bonds for the better security of the $2,310,000 gold loan of this company guaranteed by the Central. The Central Co. further agreed to lease the Wilkesbarre and Scranton Ry. (then building from Scranton to a connection with the Delaware and Hudson at Minooka Junction), at an annual rental of 6 per cent. on its cost, free of all charges.

Of the 1st mortgage loan of $5,381,840.84, which matured April 1, 1884, $5,000,000 were extended to July 1, 1914, at 4½ per cent., and the balance paid off and cancelled.

Interest on loans: Loan of 1884 extended to 1914, and general mortgage loan due 1924, 4½ per cent.; loans of 1894, 1897, 6 per cent.; loan of 1911, scrip redeemable in bonds of 1911, and Greenwood bonds of 1892, 7 per cent.

MAUCH CHUNK, SUMMIT HILL AND SWITCH BACK RAILROAD.—Mauch Chunk, Pa., to Summit Hill, Pa., 9 miles. This gravity road was built in 1826 for the transportation of coal from Summit Hill to the Lehigh River at Mauch Chunk. The empty cars were hauled back by mules, brought down in a car for that purpose with the coal. For the return of the empty cars there were built in 1844 two inclined planes—Mt. Pisgah, 2,322 feet long and 900 feet rise above Mauch Chunk, and Mt. Jefferson, 2,070 feet long and 462 feet rise—making an entire circuit of 18 miles. It was abandoned for transportation of coal in 1870, and has since been operated exclusively as a pleasure road. It is leased from the owners, the Central RR. Co. of New Jersey, by T. L. and H. J. Mumford, of Mauch Chunk, and is in operation from May 15 to November 1 each year. The equipment consists of 18 eight-wheeled passenger cars, 7 four-wheeled passenger cars, 4 eight-wheeled coal cars, 1 eight-wheeled flat car, 1 eight-wheeled water car, and 3 four-wheeled wreck cars. The road has no liabilities, its business being transacted on a cash basis. Gross earnings in 1888, $18,435.31; expenses and taxes, $16,285.62; net earnings, $2,149.69. T. L. MUMFORD, *Lessee and Manager*, Mauch Chunk, Pa.

Operations for year ending December 31, 1888.—Coal mined and delivered from the

company's mine, 1,023,349 tons; total coal transported, 2,424,848 tons. The first coal transported from this region was in 1842, in which year 1,708 tons were marketed. Gross earnings from RR., mines, etc., including value of coal on hand, year 1888, $2,709,234.52. Operating expenses, $2,227,116.48. Net earnings, $482,118.04. Payments shown in

Profit and Loss Account, year 1888.

Interest on Bonds	$137,015 12	Balance, at credit from 1887	$39,941 85
Sinking Fund	53,914 31	Gross Receipts	$2,709,234 52
Balance, surplus, December 31, 1888	330,430 46	Expenses	2,227,116 48— 482,118 04
Total Debits	$521,359 89	Total Credits	$521,359 89

From surplus, December 31, 1888, $330,430.46, there was paid January 31, 1889, dividend for year 1888 (2½ per cent.), $230,625; amount carried to credit of Royalty Fund, $51,703.65; erection of new coal pier, $7,512.11—total, $289,840.76. Balance to credit of Profit and Loss Account, $40,589.70.

For the past five years the C. C. Co. has been accumulating a fund, which, for the first time, appeared in the annual report for 1884. The fund has been derived from sales of the coal under several small outlying pieces of the company's property adjoining, and sold to companies which could more advantageously work them; and from the proceeds of some surface rights of way through the company's property. The moneys received from these sources, and the amount set aside as a royalty on the output of 1884, 1885, 1886 and 1887 amounted, December 31, 1887, to $204,780.23. To this has been added the interest accruing on above amount during 1888, and the royalty upon the output of 1888, making total $266,117.99; from which was paid for bonds of the "Wright Farm Mortgage," bought and cancelled in 1888, $10,000, leaving balance to credit of Royalty Fund, December 31, 1888, $256,117.99. This fund is invested in interest-bearing securities, and it is proposed to add to it hereafter, as a representative (in addition to the existing sinking fund) of the value of the coal which will be mined in future from the company's property. The company also holds as cash assets $100,000 first mortgage bonds of the Cumberland and Pennsylvania RR., acquired in 1875.

History.—The Delaware and Hudson Canal Company was chartered by the New York Legislature, April 7, 1823, to construct a canal and railroad from the coal fields of Pennsylvania to the Hudson River at Rondout, N. Y. The canal, extending from Honesdale to Rondout was completed in October, 1828, the State of New York having in 1827 loaned its credit to the enterprise to the amount of $500,000, and again in 1829 for $200,000. The Gravity Railroad was completed in 1829, in which year the coal product amounted to 7,000 tons.

The company is largely engaged in mining and sale of coal. Its operations during 1888 were as follows: Coal produced from company's mines, 4,442,638 tons, by others, 1,153,933 tons—total, 5,596,571 tons; coal transported during 1888—2,423,007 tons east *via* Honesdale, 1,198,852 tons west over N. Y., L. E. & W. RR., 1,431,001 tons north over Albany and Susquehanna RR., 884,609 tons south, and 159,099 tons by local sales—total, 5,596,571 tons. The gross receipts of the entire system during the year equalled $20,729,180.05; expenses, $14,044,710.10; net earnings, $6,684,469.95. Paid taxes, interest and rentals, $3,340,335.60. Balance, surplus, $3,344,134.35.

The company operates in the State of New York, under the name of the Northern Railroad Department (see pp. 139 to 143), the Albany and Susquehanna, the Rensselaer and Saratoga, the New York and Canada, the Rome and Clinton, and the Union, Clinton and Binghamton Railroads, with their branches and leased lines. The operations of the Lackawanna and Susquehanna RR. are also reported in connection with the Albany and Susquehanna RR.

In addition to its lines of railroad, as above, there are also owned and operated in the company's mining district, 162.75 miles of tram road, of 3 ft. gauge, of which 146 miles are under ground.

Rolling Stock, December 31, 1888.—Locomotive engines, 81. Cars—passenger, 23; baggage, mail and express, 9; freight, 4,597—total cars, 4,629.

Operations for year ending December 31, 1888.—Pennsylvania System (100.16 miles). Train mileage—passenger, 240,484; freight, 216,690; coal, 921.584—total, 1,378,758 miles. and retire the debentures, in accordance with a covenant in latter bonds. Both debentures and Pennsylvania Division bonds are secured on the property of the company in the State of Pennsylvania. Trustee of Pennsylvania Division mortgage, Union Trust Co., of New York. Stock and bonds listed on New York Stock Exchange; debenture and Pennsylvania Division bonds on London Stock Exchange, and also quoted in Glasgow. Annual meeting second Tuesday in May; books close for annual meeting 25 days prior thereto. Dividends are payable at Bank of Commerce, New York, quarterly, the 15th of March, June, September and December, and the books close about the 20th or 25th of the month preceding each payment. Interest is payable in New York at company's office and at Bank of Commerce.

DIVIDENDS.—During 1884 the company paid regular quarterly dividends of 1¾ per cent. each—two on $20,000,000 and two on $23,500,000—amounting to $1,522,500; during 1885 regular quarterly dividends of 1¼ per cent. each, amounting to $1,410,000; in 1886 regular quarterly dividends of 1¼ per cent. each, amounting to $1,175,000; in 1887 regular quarterly dividends of 1¼ per cent. each, amounting to $1,225,000; in 1888 regular quarterly dividends of 1¼ per cent. each, amounting to $1,470,000; making the total amount paid in dividends to date, $49,555,995, of which $44,287,495 were paid in cash and $5,268,500 in stock. Dividend payments for 1889 will be at the rate of 7 per cent., and at which rate the first quarterly dividend was paid March 15, 1889. For statement showing increase of capital stock and amount and rate of dividends paid from 1826 to 1883, see MANUAL for 1884, page 247.

On the 8th of May, 1883, an increase of the capital stock from $20,000,000 to $30,000,000 was authorized, the new stock to be offered to stockholders *pro rata* at par, and the proceeds to be used in retiring the bonds maturing in 1884, 1887 and 1891. In 1884, $3,500,000 of this stock was issued at par to retire the $,385,000 7 per cent. bonds, which matured July 1, 1884, the stock so issued being allotted to stockholders in the proportion of one share of new stock for each six shares of old. In December, 1886, $1,000,000 additional was issued, and the proceeds used in retiring an equal amount of bonds of the Union Coal Co., due January 1, 1887. The remaining $5,500,000 will be issued in 1891 to meet the first mortgage bonds then to mature. In accordance with the terms of a plan approved by the stockholders at the annual meeting held in May, 1888, this new stock will be issued to all stockholders of record, December 15, 1890, at $75 per share, the additional amount necessary (equal to $25 per share), being provided from surplus dividend accumulations, and being in the nature of an extra dividend.

RENSSELAER AND SARATOGA RAILROAD.—This company owns portions of the main line of the Delaware and Hudson Canal Company's Saratoga Division, extending from Waterford Junction, N. Y., to Ballston, 19.55 miles, and from Saratoga to Lake Champlain, 40.73 miles, the gaps, as already shown, being supplied by the Albany and Vermont RR., 12.18 miles, and 6.68 miles of the Saratoga and Schenectady RR. It also owns branches from Troy to Waterford Junction, 5.59 miles; from West Troy to Green Island, 1.08 miles; from Eagle Bridge, N. Y., to Rutland, Vt., 62.44 miles; and from Whitehall, N. Y., to the Vermont State Line, 6.83 miles—making the total length of lines owned 136.22 miles. Chartered April 14, 1832; original R. & S. RR. opened March 19, 1836. In 1868, when the company owned 25.14 miles of road and had perpetual leases of the Albany and Vermont RR., 12.18 miles, and the Saratoga and Schenectady RR., 21.65 miles, it acquired by consolidation two roads previously controlled by it, viz., the Troy, Salem and Rutland, or what is now known as the Rutland branch, 62.44 miles, and the Saratoga and Whitehall, extending from Saratoga *via* Whitehall, to Vermont State Line, 47.56 miles, the latter also having a lease of the road from the State Line to Castleton, Vt., 6.83 miles. By this consolidation the total mileage of the company was increased to 175.80 miles, of which 40.66 were leased. Since then the company built the Green Island Branch, 1.08 miles, and the cut-off near Ballston, 0.59 mile (taken up in 1883), and leased the Glen's Falls RR., 15.12 miles. Total length of all the lines owned (136.22 miles) and leased (55.78 miles) by the Rensselaer and Saratoga RR. Co., 192 miles. On March 1, 1871, whole system leased to D. & H. C. Co. in perpetuity, the lessee assuming all interest obligations and guaranteeing 8 per cent. per annum on stock of R. & S. RR. Co. See application of net earnings, above.

"The length of lines embraced in the Lehigh Valley system, without including second track or sidings, is as follows: Lehigh Valley Railroad, 382 miles; Pennsylvania and New York Canal and Railroad, including leased lines, 180 miles; Geneva, Ithaca and Sayre Railroad, 116 miles; Southern Central Railroad of New York, 114 miles; Lehigh Valley Railway of New York, 12 miles—total, 804 miles.

"We also operate for our own business about 50 miles of the Pennsylvania Railroad Company's system; 15 miles of that of the New York Central and Hudson River Railroad Company; 188 miles of the New York, Lake Erie and Western Railroad; and 21 miles of the Central Railroad of New Jersey: making a total of 1,078 miles covered by our trains. Hereafter the operations of all of our lines will be included in our annual reports."

History.—Chartered as the Delaware, Lehigh, Schuylkill and Susquehanna RR. Co., September 20, 1847; under existing title January 7, 1853. The main line in Pennsylvania was completed in October, 1855. The company absorbed the Beaver Meadow RR. in July, and the Penn Haven and White Haven RR. in August, 1864, the Lehigh and Mahanoy RR. in June, 1866, and the Hazleton and Lehigh Luzerne Railroads in June, 1868.

The Easton and Amboy RR. in New Jersey, now operated as a part of the main line, was opened in June, 1875. It was built under a separate charter, but is owned by the Lehigh Valley RR. Co. The Clinton Branch was opened November 22, 1881, and the Flemington and Paper Mill Branches in 1884.

The company owns a controlling interest in the Pennsylvania and New York RR. (and has leased it for 99 years from December 1, 1888), and also in the Geneva, Ithaca and Sayre RR., and leases the Southern Central RR. of New York.

During 1886-87 a branch line 14.92 miles in length, extending from New Boston to Hazleton, was built, and a branch line was also completed between Highland and the village of Sandy Run, on the Nescopec branch of the Lehigh and Susquehanna RR. The opening of these lines gave this company direct connections between Pottsville and Wilkesbarre, using a part of the Pennsylvania Schuylkill Valley RR., and a part of the Lehigh and Susquehanna Branch, and shortened the run of its trains between Hazleton and Wilkesbarre about 15 miles, as compared with the former route *via* Penn Haven.

During 1887 long-pending litigation with the Central RR. Co. of New Jersey was ended by an amicable settlement, which established the title of the Lehigh Valley to the property in Jersey City known as the West Line Tract. The Morris Canal basin, which adjoins this tract, was thus made more available in connection with rail and water transportation, and the company at once began the construction of important terminal facilities for the delivery and interchange of traffic at that point.

In order to reduce the distance by its line between the Delaware River and Jersey City, and to carry traffic a larger part of the distance on its own rails, this company has promoted the construction of a new line, under the charter of the ROSELLE AND SOUTH PLAINFIELD RAILWAY COMPANY, the capital stock of which ($300,000) is

controlled by this company. The distance between South Plainfield on the Easton and Amboy Railroad to Roselle on the Central Railroad of New Jersey, is about ten miles, from which latter point to Jersey City (fourteen miles distant) access will be had under a traffic contract with the Central Company. The construction of this road of double track was begun early in 1888, and completed before the close of the year.

A new line upon the Wilkesbarre Mountain, connecting the main line, near Glen Summit, with the Pleasant Valley branch, near Pittston, was placed under contract in 1887 and completed and opened for coal and freight traffic November 21, 1888. This new line has effected a reduction of grades from 96 to 64 feet to the mile, and of over 6 miles in distance, as to traffic from points north of Lackawanna and Bloomsburg Junction and from mines west of the Susquehanna River to all points south and east of the Wilkesbarre Mountain, and completes the double track between Fairview and Pittston.

The Wilkesbarre and Harvey's Lake Railroad, 12 miles in length, has been constructed with capital supplied by this company, and was opened for traffic as a branch of the Pennsylvania and New York Railroad in July last.

To provide in part for these several extensions there were sold during 1887 $1,200,000 of the mortgage bonds of the Easton and Amboy Railroad Company, received from that company for expenditures made on its account. Further provision was made in March, 1888, when the company made an issue of new stock to the amount of 20 per cent. of the total then outstanding, which stock was apportioned to stockholders at par.

MARYLAND CENTRAL RAILWAY COMPANY.

Line of Road.—Baltimore, Md., to Delta, Pa.....45 miles.
Sidings, etc., 3.5 miles. Gauge, 3 ft. Rail (steel), 40 lbs. per yard.

History.—The Maryland Central RR. Co. was a consolidation, in 1882, of the Baltimore and Delta and the Maryland Central RR. Cos. See MANUAL for 1888.

Receiver appointed October 24, 1884, on application of trustees of second mortgage bonds. Road sold under foreclosure December 10, 1888; purchased on behalf of the bondholders for $600,000, and reorganized December 29, 1888, under the existing title. Under the plan of reorganization the $600,000 old first mortgage and $175,000 past due interest of the Baltimore and Delta RR. Co., are to be exchanged, dollar for dollar, for $850,000 new first mortgage bonds, dated November 1, 1888, bearing interest at 4 per cent. for ten years, and 5 per cent. for twenty years after issue; also, $25,000 of the new bonds to be exchanged for the pay-roll loans, new stock to the amount of $400,000, is to be issued and distributed to the holders of the (principal, $300,000, and accrued interest, $100,000) Maryland Central RR. second mortgage bonds.

This company has recently acquired control of the York and Peach Bottom RR., and it is intended to change the gauge of both roads to standard width. The Deer Creek and Susquehanna RR., at present under construction from Belair, Md., to the Susquehanna River, a distance of 16 miles, will, when completed, be operated by this company.

Rolling Stock, December 31, 1887.—Locomotive engines, 7. Cars—passenger, 18; baggage, mail and express, 4; freight (box, 100; stock, 8; gondolas, 50; caboose, 1), 154—total cars, 176.

Operations for year ending December 31, 1888.—Traffic statistics not reported.

Financial Statement, December 31, 1888.—Funded debt, 1st mortgage 6 per cent. bonds due in 1910, $600,000; 2d mortgage 6 per cent. bonds, due in 1898, $300,000; receiver's certificates, $25,000; interest on receiver's certificates, $100—total, $925,100.

DEER CREEK AND SUSQUEHANNA RAILROAD.—Incorporated in Maryland in 1886 to build a road from Stafford, Md., on the Susquehanna River, to Aberdeen, Md., about 15 miles, with a branch from the main line at Glenville to Belair, Md., about 10 miles. Work was commenced in January, 1889, and it is expected to have the road completed by September, 1889. Capital stock, $300,000. First mortgage bonds to the extent of $300,000 have been issued upon that portion of the line now under construction from Belair, to Stafford, 16 miles. These bonds are guaranteed by the Maryland Central RR. Co. and bear interest at rate of 5 per cent. per annum, payable January 1, and July 1, and become due in 1919. Mercantile Trust and Deposit Company of Baltimore, trustee. GEORGE JEWETT, *President;* W. B. Harlan, *Secretary.*

SLATE RIDGE AND DELTA RAILWAY.—Slate Ridge to Delta, Pa., 1 mile. Sidings, 500 feet; gauge, 3 feet. Steel, 1 mile 500 feet. Road operated by Maryland Central RR. Co.; under the joint receivership of William Gilmor and S. Spencer. Capital stock (par, $50), $2,700, representing cost of road and equipment. History.—The New York Central and Hudson River Railroad Company was organized by the consolidation, November 1, 1869, of the New York Central and the Hudson River Railroad Companies. (See MANUAL for 1887 for full historical statement.)

The New York Central and Hudson River RR. Co. has added the following lines to its system since its organization:

The New York and Harlem, chartered April 25, 1831; leased for 400 years from April 1, 1873, the rental being 8 per cent. on stock and interest on bonds. This lease covers the N. Y. and Mahopac; lease dated June 17, 1872; expires Dec. 31, 1971. Rental nominal.

The Spuyten Duyvil and Port Morris RR., chartered April 24, 1867; lease dated November 1, 1871; expires December 31, 1970; rental, 8 per cent., on cost, $988,000.

The Dunkirk, Allegheny Valley and Pittsburgh, RR., lease dated January 3, 1874; expires January 3, 2273. Rental, 7 per cent. on $2,900,000 bonds, and 3 per cent. on $1,800,000 stocks.

The Syracuse Junction RR. was built by the N. Y. C. & H. R. RR. Co. to take the two freight tracks of its fourth track system around the city of Syracuse; leased April 10, 1875, and subsequently absorbed under authority of law. In 1881 the mileage of this branch, which up to that time had been treated as main road, was added to the figures of the third and fourth tracks.

The Junction (Buffalo) RR. was built by the N. Y. C. & H. R. RR. Co. to connect its main lines between North Buffalo and East Buffalo; leased April 10, 1875, and absorbed the same as the Syracuse Junction RR.

The Geneva and Lyons RR. was built by the N. Y. C. & H. R. RR. Co. to connect Geneva, on the Auburn Branch, with Lyons, on the main line, a distance of 14 miles.

The two Hudson River bridges, crossing the Hudson River between East Albany and Albany are practically owned—¾ by the N. Y. C. & H. R. RR. Co., and ¼ by the Boston and Albany RR. Co., each company paying proportionately for expenses of maintenance and operating.

The Troy Union RR. is owned—½ by the N. Y. Central, ¼ by the Troy and Boston, and ¼ by the Rensselaer and Saratoga. Each company pays its proportion of maintenance and operating.

The West Shore was a reorganization after foreclosure sale on November 24, 1885, of the New York, West Shore and Buffalo. It is leased to the New York Central for 475 years from January 1, 1886, the rental being 4 per cent. per annum on $50,000,000 1st mortgage bonds.

* New York Central paid 4, and Hudson River 8 per cent. † Dividend payments changed in 1875 from semi-annually to quarterly, making 10 per cent paid in that fiscal year. ‡ In 1885 5 per cent. was paid, 3¼ of which was charged against earnings, and the balance against profit and loss accounts.

NOTE.—In the statement on page 196 the average earnings per mile and percentages of expenses to earnings are calculated from actual transportation earnings, which excludes rents, interest, etc. In 1885 and 1886 the amounts received and paid for car mileage were not included in the earnings and expenses respectively, as previously, but the excess of payments over receipts, being the debit balance in the account, has been charged to operating expenses.

History.—The New York, West Shore and Buffalo Ry. Co. was formed on the 14th of June, 1881, by the consolidation and merger of the North River RR. Co., and the (first) New York, West Shore and Buffalo Ry. Co. The former of these was itself a consolidation (May 5, 1881) of the Jersey City and Albany Ry. Co. (organized in January, 1879), owning a line from Weehawken, N. J., to Fort Montgomery, N. Y., 38 miles, and the North River Ry. Co., which had been organized in 1880 in the interest of the New York, Ontario and Western Ry. Co. to build a line from Fort Montgomery to Albany with a branch to Middletown, a total of about 165 miles. The latter (N. Y., W. S. & B. Ry.) company had been organized February 18, 1880, and proposed building a trunk line between New York and Buffalo. By agreement with the New York, Ontario and Western Ry. Co., the section of this line from Weehawken to Middletown, 77.5 miles, was built by the Ontario and Western Co., for which said company received $10,000,000 of the 1st mortgage 5 per cent. bonds, and $2,367,000 of the stock of the New York, West Shore and Buffalo Ry. Co. The sections from Cornwall to Albany and Buffalo were built by the North River Construction Co., as contractor. On October 1, 1883, the road was opened from Weehawken to Syracuse, and on the 1st of January, 1884, through trains were run to Buffalo.

Default was made in January, 1884, and receivers were appointed June 9, 1884. Road sold under foreclosure November 24, 1885, and transferred by the purchasing committee to the present company, organized December 5, 1885. Leased for 475 years from January 1, 1886, to the New York Central and Hudson River RR. Co., the rental being interest on bonds.

Under an agreement made January 1, 1886, the New York, Ontario and Western Ry. Co. transferred to the purchasing committee all stock and bonds of the West Shore and Ontario Terminal Co., and of the New York, West Shore and Buffalo Ry. Co., and relinquished all claims against both companies, being relieved in turn of all liability on account of the joint lease with the New York, West Shore and Buffalo of the Terminal Co.'s property and the guarantee of its bonds, which guarantee is cancelled. The Middletown Branch was transferred to the Ontario and Western, and that company has trackage rights to May 12, 2079, over the road from Cornwall to Weehawken for through Ontario and Western business exclusively, at a rental based on car mileage. See MANUAL for 1886, page 489.

Of the main line, 52.88 miles from Weehawken, N. J., to Cornwall Junction, N. Y., and the Middletown Branch, from Cornwall Junction to Middletown, N. Y., 24.6 miles, were formerly leased to the New York, Ontario and Western Ry. Co., subject to this company's right of trackage over the line from Weehawken, N. J., to Cornwall Junction, N. Y., at a rental of 25 per cent. of gross earnings and all expenses of maintenance.

Shortly after the opening of the West Shore road the Construction Company was placed in the hands of a receiver, its debts aggregating $5,000,000, of which $1,000,000 was secured, and $4,000,000 unsecured. The claims of the construction company against the N. Y., W. S. & B. Ry. Co. were acquired by the purchasing committee for $6,000,000 4 per cent. guaranteed bonds. From the proceeds the secured debt is settled dollar for dollar cash, and the unsecured debt at fifty cents on the dollar.

The Saratoga and Hudson River Ry., known as the Athens Branch of the New York Central and Hudson River RR., was leased from that company in 1882 for a period of 475 years, the rental being commuted for the entire period for $400,000.

Financial Statement, September 30, 1888.—Capital stock (par, $100), $10,000,000; first mortgage bonds, $50,000,000—total stock and bonds, $60,000,000. The cost of road September 30, 1888, $60,000,000.

The bonds are dated January 1, 1886, due in 475 years, and bear interest at the rate of 4 per cent. per annum, payable January and July, at the office of New York Central and Hudson River RR. Co., New York. They are $1,000 coupon bonds, with provision for exchange for registered certificates of $500, $1,000, $10,000 and $50,000. They are secured by mortgage on 448.02 miles of main and branch lines and on the rolling stock previously covered by car trusts; also on the terminal property in Weehawken, through ownership of all the stock and bonds of the West Shore and Ontario Terminal Co. Trustee: Union Trust Co., New York.

The holders of old first mortgage bonds of the New York, West Shore and Buffalo Ry. Co., who assented to the plan of reorganization, received one new bond for two old bonds; the rest of the new issue, amounting to $35,000,000, was applied to the expenses of reorganization, the retirement of receiver's certificates, and other liens prior to the old first mortgage, the settlement with the North River Construction Co., the purchase of rolling stock previously covered by car trust, and the acquirement of the terminal property at Weehawken.

Under the terms of the lease to the New York Central the principal and interest of these bonds is guaranteed by that company, such guarantee being indorsed on each bond. The capital stock was delivered to the lessee as a consideration for the lease and guarantee.

Board of Directors, West Shore RR. Co., elected April, 1888.

WEST SHORE AND ONTARIO TERMINAL COMPANY OF NEW YORK AND NEW JERSEY.—This company was formed on the 13th of June, 1883, by the consolidation of the National Stock Yard Co., and the Midland Terminal and Ferry Co., with the Open Cut and General Storehouse Co., the name of the latter company being retained until June 19 of same year, when the present title was adopted. The Ferry Co. and the Open Cut Co. had been organized with powers to hold and improve lands for commercial purposes on the Hudson River and elsewhere, and to operate a ferry between Wechawken and New York. In the consolidation the stocks of the Stock Yard and of the Ferry Companies were exchanged for the stocks of the new corporation, the Ontario and Western and the West Shore Railway Companies being equal owners. On July 13, 1883, the property was leased to the two railway companies for 99 years. Entire lease assumed by West Shore Co. January 1, 1886. Capital stock, $4,723,100; funded debt, $10,000,000 first mortgage 5 per cent., gold 40-year bonds, due August 1, 1923, interest February and August, principal and interest guaranteed by the West Shore Company. History.—The New York and Erie RR Co. was chartered April 24, 1832, to build a line of railroad from Piermont to Dunkirk, N. Y., a distance of 446 miles. Construction was commenced in 1836 on a section of 10 miles nearest Piermont, and one of 41 miles from Delaware to Callicoon Creek. In the same year the credit of the State was granted to the company to the extent of $3,000,000. In September, 1841, the first section from Piermont (the eastern terminus provided by the first charter) to Goshen was opened. The company becoming embarrassed, the undertaking was placed in the hands of assignees, under whose management the road was opened to Middletown, January 8, 1848. The cost to February 1, 1884, was $4,736,949, of which $2,599,514 were derived from the State loan. In 1845 the State released the property of its mortgage, provided the company should complete the road to Lake Erie in six years, and the old stockholders surrendered one-half of their stock. The amount necessary to complete the road was estimated at $7,000,000. Construction was resumed and the road opened to Port Jervis, January 6, 1848; to Binghamton, December 28, 1848; to Elmira, October 10, 1849; to Hornellsville, September 3, 1850; and to Dunkirk, April 22, 1851. The Newburgh Branch was opened in 1850. The gauge of the road when opened was six feet.

The lines between Jersey City (Long Dock) and Suffern, viz., the Paterson and Hu Paterson and Ramapo, Union, and Long Dock, are leased in perpetuity, and form a p the main line. The Erie International Railway connects the Buffalo Branch with the national Bridge crossing the Niagara River.

In 1859 the road and property of the New York and Erie RR. Co. were placed hands of a receiver for non-payment of interest on its funded debt. A reorganizatio had under the name of the Erie Railway Co., the articles of association being filed Ju 1861. The principal change then made in its financial condition was the convers unsecured bonds, amounting, with interest, to $8,535,700, into preferred stock.

In May, 1875, the road and property of the company were again placed in the hands of a receiver for non-payment of interest on its bonds.

On the 24th of April, 1878, the road, property and franchise were sold under foreclosure, and a reorganization completed under the name of the New York, Lake Erie and Western RR. Co., by the filing of articles of association on the 27th of same month. By the terms of reorganization an assessment was laid on the common stock to the amount of $4 and $6 per share—holders paying $4 to receive back their stock; those paying $6 to receive back their stock and income bonds equalling the amount of the assessments paid. The assessments on the preferred shares were $2 and $3 respectively—those paying $2 to receive back their stock; those paying $3 to receive back their stock and income bonds equalling the amount of the assessments. The total amount of income bonds so issued was $508,008.75. The new (present) company took possession of its road June 1, 1878. The assessments on the stock were carried to a special fund for the improvement of the road. The length of roads owned and operated at that time was 525.60; the length of leased lines, 400.84 miles—making total length of road and branches 926.53 miles. Since then the company has added through lease or other contract the following lines to its system: Lockport and Buffalo, 13.89 miles; September 15, 1880; Buffalo and Southwestern, 68.39 miles, August 1, 1880; Bergen County, 10 miles, October 1, 1881; Middletown and Crawford, 10.22 miles, January 30, 1882; the New York, Pennsylvania and Ohio, 572.86 miles, May 1, 1883; and in 1886 the Conesus Lake, 1.61 miles, the Erie and Black Rock, 1.14 miles, and the Hoosie and Parke Branch, 2.36 miles.

The tracks of the Cleveland, Columbus, Cincinnati and Indianapolis are used to gain entrance into Cincinnati, under a contract dated January 3, 1886. At the same time arrangements were made for through car service between New York and Peoria, Ill., the Erie cars to run over the Indiana, Bloomington and Western Ry. from Springfield, O., to Peoria, Ill.

A proposition looking to the reorganization of the Chicago and Atlantic Ry. Co. and the adjustment of the differences between it and the Erie was submitted to the security holders of the former company early in 1887. It was not acceptable to them, so suit has been brought for the foreclosure of the Chicago and Atlantic mortgage. (See statement for CHICAGO AND ATLANTIC RY. CO.)

For further particulars in reference to the leased and operated roads, see statements for the several companies, appended hereto. In addition to lines of railroad in the above table, the Erie Company controls the Erie and Wyoming Valley, New York, Lake Erie and Western RR. and Coal Co. and the Barclay Coal RR.

The laying of the third rail, giving the standard gauge from Jersey City to Buffalo, was completed December 24, 1878. During 1885 the last of the third rail remaining on the road was removed, and the whole road is now of standard gauge.

The Erie Ry. Co. many years since obtained control of coal lands in Jefferson, Elk and McKean Counties, Pennsylvania; also, control of mineral rights of about an equal number of acres. All these lands (about 36,000 acres) were heavily timbered. To secure the advantages which this control afforded as a means of obtaining a plentiful supply of fuel, as well as of increasing its traffic, the company constructed in 1882, under the charter of the N. Y., L. E. & W. RR. & Coal Co. (*which see*), an extension of the Bradford Branch from Crawford Junction to its coal fields. Under the provisions of a contract with the Pennsylvania RR. Co., the latter constructed in 1883, as an outlet for the latter line, and extension of its Philadelphia and Erie Division, under the charter of the Ridgeway and Clearfield RR. Co., from Ridgeway to Brockwayville, 19.59 miles, and completed it during the year 1884 to a connection with the Allegheny Valley RR. (low grade) at Falls Creek. (See MANUAL for 1883, page 173; MANUAL for 1884, page 164, and MANUAL for 1887, General Index.) At about the time of obtaining control of the bituminous coal lands referred to above, the Erie Ry. Co. also became largely interested in the anthracite coal fields of the Wyoming Valley, in the neighborhood of which there are extensive mines which produce annually large quantities of coal. To secure the large volume of traffic offered by these mines and properties, the company was largely dependent on connecting roads—the Jefferson RR. and the Delaware and Hudson Canal and Pennsylvania Coal Companies' lines. In 1882 a contract was made with the latter

company for the use of their lands and planes over the mountains, and on the 6th of November, same year, the Erie and Wyoming Valley RR. was organized. Under this charter the line was completed during the fiscal year 1884. (See MANUAL for 1883, page 173, and MANUAL for 1887, General Index.)

The Buffalo, Rochester and Pittsburgh RR. Co. uses part of this company's track under contract. (See statement of B., R. & P. RR. Co., also MANUAL for 1883, pages 173, 174 and 175, for terms of this contract.)

The contract with Delaware and Hudson Canal Co. having expired, a new one to run for 5 years from April 7, 1885, was made, embracing largely the features of the old one, the Canal Co., however, to pay a reduced rate of trackage on the Jefferson Branch. An agreement was also made releasing this company from the payment of interest which it had previously made to the Canal Co. under its guaranty of Boston, Hartford & Erie bonds.

806 shares, $2,791,224. Total number of shares paying assessments was $81,557½ of preferred and 770,838 of common; par value, $85,240,500. The total amount realized was $3,415,722.75, and adding interest, $3,792,459.47. Of this sum $3,205,958.68 were applied to the improvement of the road, and $586,357.93 to the charges of reorganization and expenses in London, leaving unapplied $442.86. Holders of 9,162 shares of common and 3,8[illegible]2 of preferred failed to pay assessments on same. Of the common stock thus delinquent 5,000 shares were sold in 1880–81, and the proceeds of sale placed to credit of company. The total amount of capital stock of the company, as authorized by its articles of incorporation, is $86,536,900—$78,000,000 common, and $8,536,900 preferred. Of this there had been issued on September 30, 1888, in exchange for stock upon which assessments had been paid, $85,015,900—$76,866,500 common and $8,149,400—leaving $224,600 of assessment-paid stock still awaiting such exchange,

* 7 p. c. to June, 1888 (8 mos.), $33,110; 4 p. c. to Sept. 30, 1888 (4 mos.), $9,460—total as above, $42,570.

The first consolidated mortgage bonds are of $1,000 each, and to bearer, with provision for registration of principal of coupon bonds. The first consolidated funded coupon bonds are of $500 and $1,000, to bearer, with provision for registration of principal of coupon bonds, and are secured by lien of first consolidated mortgage above. The second consolidated six per cent. bonds are of $500 and $1,000, to bearer, with provision for registration of principal of coupon bonds. Provision is made in the mortgage securing these bonds that in the event of default in the payment of interest no proceedings to enforce same can be instituted until the company fails to pay interest on six successive due dates of coupons.

The fifth mortgage 7 per cent. bonds which fell due June 1, 1888, were extended for 50 years at 4 per cent.

The income bonds bear interest at the rate of six per cent, or at such lesser rate for any fiscal year as the net earnings of the company, as declared by the board of directors and applicable for that purpose shall be sufficient to satisfy. Interest at full rate was paid in 1881–82, 1882–83, and 1883–84.

The collateral trust bonds may be called for redemption at 10 per cent. premium, at any time before maturity, on three months' notice. Trustee, United States Trust Co., of New York. Secured by deed of trust covering certain bonds and stocks representing interests of this company in branch lines, coal properties, terminal facilities and improvements connected with the lines of its railroads.

The funded coupon bonds of 1885 were issued for coupons of the 2d consols. and the 2d consol. funded coupon bonds falling due from June, 1884, to June, 1886, inclusive. They are of $1,000 each, are redeemable at any time at 105 and interest, and are secured by deposit with the trustee of the coupons funded, which preserve all their original lien. Farmers' Loan and Trust Co., trustee.

In June, 1884, the company defaulted in the payment of interest on its second consolidated mortgage bonds, and subsequently on the rental due the Buffalo and Southwestern and the interest on certain classes of car trusts.

An adjustment of the two latter defaults was afterward effected—in the case of the Buffalo and Southwestern RR. by the payment of the rental in dispute, the Erie also securing a modification of the lease by the reduction of the rental charge from 35 per cent. of its gross earnings to 27½ per cent., with the condition that should such percentage be insufficient to provide for the interest charges on the Buffalo and Southwestern bonds, the Erie should make good the deficit.

Under the original agreements governing the car trusts there was payable in 1885 on account of pricipal and interest, $1,201,200. The company, however, proposed to holders of these securities that no drawing of principal should be made in 1885, that one per cent. each should be made on that account in 1886 and 1887, two per cent. each in 1888 and 1889, and not less than 5 per cent. yearly thereafter. The company further agreed to pay the interest regularly on condition that the rate on series F and G should be reduced to 5 per cent. This proposition has been accepted by nearly 92 per cent. of the holders, and interest payments have been made to them regularly since.

The amount of stock in following table for year 1882 represents only that exchanged to close of fiscal year. The total amount of capital stock issued to September 30, 1888, is as given, $85,515,900.00; amount of assented stock unissued, $224,600; amount on hand subject to sale (common, 4,162, and preferred, 3,802—total, 7,961 shares), $796,400. Total amount authorized, $86,536,900.

NEW YORK, PENNSYLVANIA AND OHIO RAILROAD.—Salamanca, N. Y., to Dayton, O., 388.04 miles, with branches. Franklin Junction to Oil City, Pa., 33.78; near Wadsworth to Silver Creek, O., 2.65 miles; Wadsworth Branch, 2.98 miles; the Youngstown and Austintown RR., 3.87 miles; and the Manning Coal RR., 3.32 miles—total, 434.64 miles. The company leases the Cleveland and Mahoning Valley Ry., 123.94 miles; the Westerman RR., 2.09 miles, the Sharon Ry., 16.14 miles—total length of lines owned and leased, 576.81 miles. Miles of steel rails in main line, 388.04; in branches owned and leased, 170.08—total, 558.12. The Atlantic and Great Western RR. Co. was organized November 10, 1871, as successor of the A. & G. W. Ry. Co., which was organized August 19, 1865, by the consolidation of various companies in New York, Pennsylvania and Ohio. The road was opened for through traffic in 1865. The property went into the hands of receivers April 1, 1867; was transferred by lease to the Erie Ry. Co. December 8, 1868; again placed in receivers' hands April 9, 1869; re-leased to the Erie Ry. Co. January 1, 1870; sold July 1, 1871; and again leased to the Erie Ry. Co. May 1, 1874. The last lease had been in operation only a few months when the road was again placed under a receivership, December, 9, 1874. The entire property was sold under foreclosure of the consolidated mortgage of the A. & G. W. RR. Co. January 6, 1880, and bought by reorganization trustees, by whom it was conveyed to the corporators of the New York, Pennsylvania and Ohio RR. Co. March 5, 1880. Under the terms of sale and reorganization, provision was made for the issue of $8,000,000 prior lien bonds, $35,000,000 1st mortgage, $14,500,000 2d mortgage, and $30,000,000 3d mortgage bonds; 200,000 shares ($50 each) of preferred stock, and 700,000 shares ($50 each) of common stock. It was also provided that the capital stock should be held in trust, to be voted upon by five voting trustees, three to be named by the 1st mortgage bondholders; one by the 2d, and the other by the leased lines bondholders of 1872. The road was operated by the receiver of the A. & G. W. Ry. from date of sale to the organization of the new company, March 24, 1880. The gauge on the entire road, originally 6 feet, was changed to 4 ft. 8½ inches, June 22, 1880. On the 1st of May, 1883, the road was leased to the New York, Lake Erie and Western RR. Co., the rental being 32 per cent. of gross earnings up to $6,000,000, and 50 per cent. of all in excess of that amount until the gross earnings amount to $7,200,000, when the rental is to be 35 per cent. of gross earnings. By a modification of the lease, made April 1, 1887, the Erie pays as rental 32 per cent. of gross earnings up to $6,000,000, one-tenth of one per cent. on each $100,000 or fraction thereof in excess of $6,000,000 and up to $7,250,000, and one-third of gross earnings if they exceed the latter sum. For operations, etc., see pages 215 and 217.

During the past year the company took a 99 years' lease of the Shenango and New Castle RR., in course of construction from New Castle, Pa., to a connection with the Sharon RR. at West Middlesex,—not yet in operation.

History.—Organized as the New York and Oswego Midland, January 11, 1866. Main line opened in July, 1871; Western Division in August, 1873. For details of later history, relations with New York, West Shore and Buffalo Ry. Co., etc., see MANUAL for 1888, page 225, and MANUAL for 1886, page 490.

The agreement of January, 1886, made with the West Shore and the New York Central companies, and published in the MANUAL for 1886, page 490, was modified in January, 1888, fixing the amount to be paid by this company for trackage rights over the West Shore road from Cornwall to Weehawken at the same rates as agreed upon in January, 1886, till January 1, 1896, after which the Ontario company is to pay only its proportionate share of the cost of maintenance and a like proportion of the interest at 4 per cent. on $2,000,000 (instead of $5,000,000 as in the original agreement) plus the amount expended for necessary improvements subsequent to January 1, 1886. Provision is also made for cars of each company to be hauled by the trains of the other company, in order to reduce expenses of each company. The agreement is to run till May 12, 2079, but the Ontario Co. has the option of terminating it after May 12, 1980. Upon the execution of the agreement the Ontario Co. received $140,000 in settlement of all claims against the other parties.

Funded debt, 1st mortgage 6 per cent. 30-year gold $1,000 coupon bonds, due September 1, 1914, interest March and September. The bonds are a mortgage on the entire property of the company. They are redeemable at 110 per cent. on any interest day, after 6 months' notice. The authorized issue is $4,000,000, of which $2,000,000 were deposited with the Farmers' Loan & Trust Co. to cancel the same amount of preferred stock outstanding; and at the close of the last fiscal year $1,989,000 preferred stock had been so retired; $1,000,000 were sold and the proceeds applied to the liquidation of the floating debt; $200,000 were sold and proceeds applied in part payment, for additional rolling stock and new steel rails, and the remainder of the authorized issue, $800,000, is held in the treasury to be used in acquiring new property.

Since the close of the fiscal year the New York, Ontario and Western Ry. Co. has made arrangements for the construction of a branch from Hancock, on the main line, southwest to the anthracite coal fields at Scranton, Pa., a distance of 54½ miles, under the corporate title of *Ontario, Carbondale and Scranton Ry. Co.* To provide the means for this work and for other purposes the company has executed a mortgage bearing date of April 11, 1889, to secure an issue of $10,000,000 consolidated first mortgage 5 per cent. 50-year bonds, due in 1939 and redeemable on and after June 1, 1899, at 105, at company's option. These bonds are secured by a consolidated first mortgage upon the entire main line and property of the company and are, in addition, a first charge upon the Scranton extension, being secured by the deposit of all the $1,500,000 first mortgage bonds, and $1,495,000 (out of $1,500,000) stock of the O., C. & S. Ry. Co. The bonds are of $500 (£100) and $1,000 (£200) each, coupon with privilege of registration; interest payable June 1 and December 1; principal and interest payable in gold. Following are the purposes (approximately) for which these bonds are to be issued:

For the construction of the new coal line of 54.5 miles and its equipment	$3,100,000
Additional rolling stock and facilities for the N. Y. O. & W. Ry. to handle this additional traffic	700,000
For the construction of the Tunnel at Zig Zag, to improve the grade	800,000
Additional rolling stock for the extension of the ordinary traffic of the N. Y. O. & W. Ry. as required	400,000
Leaving in the Treasury of the Company for the redemption of its existing 6 per cent. bonds, and future capital requirements	6,500,000
Total	$10,000,000

For the immediate requirements of the company it was determined in April, 1889, to issue at once $2,500,000 of above bonds.

Annual meeting, third Wednesday in January at 16 and 18 Exchange Place, New York. Books close one month prior to and reopen six days after the meeting. Interest payable at New York office. Trustees of bonds: The Mercantile Trust Co. Registrar of stock: Mercantile Trust Co., New York and London. Transfer agents: John Fleming, New York, and the English Association of American Bond and Shareholders, Limited, London. Common stock and bonds listed on New York Exchange; common stock also listed in London.

From June, 1883, to Dec. 31, 1885, operations include 58 miles of road between Cornwall and Weehawken.

"The large increase in the freight traffic is more readily seen, by reducing it to the ton mile basis, as follows :

	1888	1887
Coal tonnage, one mile.....	23,197,000	19,629,000
Milk " "	4,133,000	3,528,000
Other " "	54,490,000	31,887,000
	81,820,000	55,044,000

an increase of forty eight per cent. The earnings, however, show an increase of but twenty-one per cent.

"This enormous advance in tonnage is the result mainly of the entrance of your company, in conjunction with other lines named, into the through business between the West and New York, and was secured only at the prevailing rates. The company's position as a trunk line is now recognized, and its ability to secure and handle through business demonstrated.

"The Poughkeepsie Bridge is substantially completed, and within a few weeks direct rail-connection will be made with your main line at Campbell Hall, a station eight miles east of Middletown. Traffic with the Bridge and connecting lines will then be interchanged with your company on terms equally as favorable as have been or may hereafter be granted to any other railroad company.

"The Orange County Railroad Company, recently organized, is to build from Greycourt, the terminus of the Lehigh and Hudson River Railroad, crossing the New York, Ontario and Western Railway at Burnside Station, two miles from Campbell Hall, from which point connection will be made with the Poughkeepsie Bridge Railroad, and, possibly, the line will be carried on to Montgomery, thereby giving your company another connection with the Wallkill Valley Railroad at that point.

"An extension of the New Berlin branch to the village of Edmeston, about 7 miles, has for many years past been urged upon the company by the residents of the district, and the promoters, under the title of the *Wharton Valley Ry. Co.*, at length subscribed a portion of the right of way and a cash bonus of $20,000 in aid of their project. In consideration of this aid, and the full paid capital stock, and $75,000 in bonds, your company has agreed to construct the railway, and to lease it at a rental of five per cent. on $75,000 of bonds, the payment of both principal and interest to the amount mentioned being guaranteed by your company by endorsement upon the bonds." The line was placed under contract in September, and opened for traffic since the close of the fiscal year.

RAILROADS LEASED (FROM THE D. & H. CANAL CO.) BY N. Y., O. & W. RY. CO.

On the 1st of June, 1886, the N. Y., O. & W. Ry. Co. took a 35-year lease of the Utica, Clinton and Binghamton, and Rome and Clinton RRs. from the Delaware and Hudson Canal Co., at a minimum rental of $70,000 per annum. The operations of these lines are not included in the statements of the lessee, given above, separate accounts being kept and the net results carried to income account of the N. Y., O. & W. Ry. Co.

OPERATIONS of the U. C. & B. and R. & C. RRs. for the year ending September 30, 1888.—Train mileage—passenger, 53,574; freight, 93,508; other, 3,146—total, 150,228 miles. Passengers carried, 163,639; carried one mile, 1,883,647; average mile rate, 2.67 cents. Tons freight moved, 452,679; moved one mile, 9,873,388; average ton-mile rate, 1.58 cents. Earnings—passenger, $50,379.66; freight, $155,981.91; mail, $2,785.20; express, $4,857.66; miscellaneous, $4,858.54—total, $218,862.97. Expenses—transportation, $78,342.29; motive power and cars, $23,876.06; maintenance of way, etc., $20,226.52; general, $10,522.96—total, $141,967.83: Net earnings, $76,895.14. Payments: Rentals, $72,152.77; taxes, $8,400—total, $80,552.77. Deficit, loss to lessee, $3,657.63 as against a profit of $10,958.55 in 1887.

"The increase in rental charges of leased lines is explained by the fact, that at the time these properties were leased, the proposed bridge over the tracks of the New York Central and D. L. & W. RRs. in Utica, for the purpose of connecting the U. C. & B. road with the system of roads operated by the R. W. & O., was not completed. A deduction of $5,000 from the rental was made each year until the completion of the bridge. The new bridge was put in operation on the 25th of April, and since then all of the through business from the Canadian Pacific road exchanged at Prescott and Ogdensburgh, as well as Soo Line business from St. Paul and Minneapolis, passes over this bridge and is delivered to us by the R. W. & O. at Utica. Formerly this business was either switched across the New York Central tracks, paying a charge of $1 per car, or received at Central Square.

"About 30 per cent. of the entire earnings of the leased lines is received from the blast furnaces located at Kirkland and Franklin Iron Works stations. One of these furnaces was closed during the year for a period of six months, and the other about six weeks, which caused considerable reduction in local revenue. Aside from the loss of revenue caused by the temporary closing of the blast furnaces, the business has been good, and the amount of freight contributed to the main line considerably larger than last year. The traffic interchanged between the leased lines and the main line at Randallsville aggregated $197,706."

ROME AND CLINTON RAILROAD.—Rome, N. Y., to Clinton, N. Y., 12.70 miles. Sidings, etc., 1.11 miles. Chartered June 3, 1869; road opened January 15, 1872. Leased by the Delaware and Hudson Canal Co., at annual rental of $25,500. Rental, 1887-88, $25,000; other receipts, $900—total, $25,900; expenses and taxes, $2,156.33; net income, $23,743.67. Paid dividends, January and July, 6¾ per cent., $23,595.10. Surplus, $148.57. Capital stock, $345,360; other liabilities, $59.09; profit and loss, $14,935.37—total, $360,354.46. *Contra:* Cost of road, $360,000; cash, $354.46. On the completion of this line it was leased to the New York and Oswego Midland RR. Co. In January, 1879, the first dividend was paid, being at the rate of 3½ per cent. in cash. Rentals received prior to that time had been applied to the liquidation of bonded debt of $100,000. In February, 1879, a stock dividend of 20 per cent. was paid, and in July, 1879, January, 1880, and February, 1880, cash dividends of 3½, 3½, and 3½ per cent. respectively, the latter being from proceeds of receiver's certificates received from lessee for rentals. Following this last payment regular semi-annual cash dividends have been paid from July, 1880, each at the rate of 3½ per cent. or 3½ per cent. JAMES I. SCOLLARD, *President;* C. D. Hayes, *Secretary and Treasurer.* CORPORATE OFFICE, Clinton, N. Y.

UTICA, CLINTON AND BINGHAMTON RAILROAD.—Utica N. Y., to Randallsville, N. Y., 31.20 miles. Sidings, etc., 15.58 miles. Rail (steel, 31.28 miles), 62 lbs. Interest payable at company's office and at the National Park Bank, New York City. The Midland RR. 1st mortgage bonds are secured by a first mortgage on the line from Marion to Unionville, 71.6 miles. Of these bonds $500,000 were issued at 6 per cent., and on the remaining $3,000,000 interest was 4 per cent. for first year, 5 per cent. each for two succeeding years, and 6 per cent. thereafter until maturity. The Paterson Extension bonds are secured by a first mortgage on the road and real estate in the city of Paterson. The N. Y., S. & W. first mortgage bonds are secured by a first mortgage on the line from Two Bridges to Gravel Place, the Winton, Delaware and Lackawanna Valley Branches, in all 61.6 miles, and by a second mortgage on the main line and Paterson Extension. Central Trust Company, New York City, trustee for all bonds and registrar of stock.

Preferred stock is entitled to 6 per cent. cumulative dividends.

Annual meeting last Thursday in February, at Jersey City, N. J. Books close for annual meeting twenty days prior thereto. Common and preferred stock, and all bonds except Paterson Extension, listed on New York Stock Exchange.

Interest on 1st mortgage and debenture bonds of the New York, Susquehanna and Western for the years 1885 and 1886 was paid half in cash and half in 10-year 6 per cent. scrip. During 1887 the company made two new issues of bonds—$3,750,000 1st mortgage refunding 5 per cent. 50-year gold bonds, dated January 1, 1887, interest payable January and July; and $1,000,000 second mortgage 4½ per cent. 50-year gold bonds, due February 1, 1937. Interest payable February and August. With the 1st mortgage bonds the company took up the 1st mortgage bonds of 1911, the coupon obligations issued for coupons of same issue during 1885 and 1886, and all outstanding car trusts. With the 2d mortgage bonds the company takes up the debentures and the coupon obligations of same issue in 1885 and 1886, and reserves the balance for future improvements.

In 1882 the company purchased the entire capital stock of the Union RR. Co., $600,000. ffic contract has been entered into with the Stewartstown RR. Co., which has built 7 miles in length from New Freedom to Stewartstown, Pa. (opened Sept. 10, 1885), by erms of which contract this company will secure all traffic controlled by the Stewarts- RR. Co., and destined to and from points on this company's main line and its con- ons.

The Union railroad since its acquirement has been operated distinct from the Northern nd and the financial results have been kept separate. The Rockville Branch is operated s extension of the Susquehanna Division under contract. For fuller information, see AL for 1885, page 261.

In addition to the mileage given above, the company uses the track of the N. Y., L. E. . RR., between Southport and Horseheads, N. Y., a distance of 7 miles, making the total ck operated (excluding Union RR.) about 377 miles. For operating purposes these lines rmed into six divisions, as follows: Main line, 139; Green Spring Branch, 9; Shamokin Elmira, 78; Summit Branch RR., 20; Canandaigua, 47 miles. Separate accounts of the ations, earnings, etc., of the Union RR. are kept, and reference should be made to the ents for that company.

A controlling interest in (not a majority of) the share capital of this company is owned he Pennsylvania RR. Co.

Rolling Stock, December 31, 1887.—Locomotive engines, 157. Cars—passenger, 72; ge, 22; express, 17; postal, 3; freight (box, 1,490; gondola, 3,794; stock, 47; stone, 50; caboose, 86), 5,522—total, 5,636; tool and working cars, 284. In addition to bove equipment, 600 box cars, 950 8-wheel coal cars and 400 long gondalas were put in by the Pennsylvania Car Trust, and 1,256 long gondolas by the Pennsylvania Equip- Trust.

In addition to its railroads, the Pennsylvania RR. Co. operates, in connection with its United New Jersey Division, the Delaware and Raritan Canal, 44 miles, and feeder, 22 miles; and owns and controls, but operates under a separate corporate management, the Pennsylvania Canal, extending from Columbia to Nanticoke, with branches from Northumberland to Lock Haven and Bald Eagle, with cross-cut to Lewisburg; Clark's Ferry to Millersburg, and from mouth of Juniata River to Huntington, Pa., a total length of 326 miles.

History.—The original line of the Pennsylvania RR. Co., chartered April 13, 1846, extended from Harrisburg to Pittsburgh, a distance of 248 miles. The work of construction was begun at Harrisburg in July, 1847. The division from that point to a junction with the Portage Railroad (then a State work), at Hollidaysburg, at the eastern base of the mountains, was opened September 16, 1850. The Western Division, from the western end of the Portage Railroad at Johnstown to Pittsburgh, was opened September 10, 1852. The Mountain Division, and with it the whole line, was opened February 15, 1854. From Harrisburg to Philadelphia the line is made up of the Old Philadelphia and Columbia RR. (originally a State work), and the Harrisburg, Portsmouth, Mount Joy and Lancaster RR., chartered in 1832.

* Rockville Branch operated by Northern Central Ry. Co.

opened in 1838, and leased in 1849. The Philadelphia and Columbia RR. was purchased in 1857, with the main line of a system of public works of the State. This system was undertaken in 1826, and contemplated the construction of canals along the lines of all leading water courses. The Philadelphia and Columbia RR. was built to connect the Susquehanna system of canals with Philadelphia, as well as to form part of a line, made up of canal and railroad, between Philadelphia and Pittsburgh. When the system was undertaken, a canal from the waters of the Susquehanna to those of the Allegheny was supposed, erroneously, to be practicable. The Portage Railroad across the summit, of 41 miles, was worked by a series of inclined planes, and was abandoned upon the completion of the Pennsylvania RR. For the work purchased of the State between Philadelphia and Pittsburgh, this company paid $7,500,000, in its 5 per cent. bonds, payable at the rate of $460,000 annually, the balance, after payment of interest, going to the reduction of the principal.

The following is a recapitulation of all the miles of line and tracks either owned, leased, operated or controlled by this company east of the cities of Pittsburgh and Erie, December 31, 1888:

* For the purpose of uniformity in these statements the freight tonnage, gross earnings and operating expenses of the Delaware and Raritan Canal are omitted from the above statement of operations of the United RRs. of New Jersey Division, and that Division is credited, in lieu thereof, with the net earnings of that Canal, the object being to keep the operations of the railroad system distinct. On the Delaware and Raritan Canal there were moved 1,386,981 tons of freight a total of 54,356,440 miles, making the aggregate tonnage of the whole system 57,095,027, and tonnage mileage, 5,851,173,368. The actual gross earnings of the United RRs. of New Jersey Division, including canal, were $17,100,851.52; operating expenses, $13,071,485.97; net earnings, $4,029,365.55, percentage of expenses to earnings, 76.44 per cent.

"While the preceding statements," says the report of the company, "show a continued improvement in the gross revenues of each of the main divisions, yet, on account of the lower rates forced upon your Company by the severe competition that prevailed during the greater portion of the year, the profits resulting from the operation of the road were not correspondingly increased. The interest from investments being materially less in 1888 than in 1887 (when it was exceptionally large), the balance of income was $9,809,160.93, as against $10,213,295.86 for 1887. Deducting from this sum the amounts properly chargeable thereto, the net income for the year was $7,040,962.82, as compared with $7,783,738.66 for 1887. Although the causes first stated existed to an even greater extent in the territory tributary to your lines west of Pittsburgh, yet the deficit of the Pennsylvania Company in meeting its fixed liabilities was inconsiderable; but that company having been required to make large expenditures for betterments and improvements of your leased properties, for which you are directly responsible, a portion of the amount advanced by your Company for that purpose has been charged directly against your income account. Notwithstanding these necessary deductions, the amount carried to the credit of profit and loss, after paying a five per cent. dividend, was $1,630,420.81, making the total amount now standing to the credit of that account, $19,229,368.33.

"From the tabular statement in a subsequent part of the report it will be seen that the gross earnings of all the lines embraced in your system east and west of Pittsburgh amounted to $116,509,292.59, and that their operations covered the movement of 113,316,894 tons of traffic and 74,000,086 passengers. These results not only show the large annual increase in both your freight and passenger traffic, but also the magnitude of the railway system managed in your interest. It may be noted that the cost of the securities now held by your Company amounts to $109,296,039.59.

"Both the New Jersey and the Philadelphia and Erie Railroad Divisions show continued prosperity, though the expenditures on the former property continue to be exceptionally large in improving the facilities for traffic between the important commercial centres of New York and Philadelphia.

"The funds for the expenditures, properly chargeable to capital account, on your main, leased and auxiliary lines east of Pittsburgh, having been obtained from the sale of $3,000,000 four per cent. bonds of the Western Pennsylvania Railroad Company, guaranteed by your Company, and of Car Trust certificates held in your treasury, there was no increase of your share capital or funded debt for that purpose.

"The principal of the debt due to the State of Pennsylvania on account of the purchase of the Main Line, which was charged to capital account, was reduced during the year by the payment of $383,906.40, leaving a balance of $1,232,757.48. The final payment of $635,654.94 upon this debt will be made July 31st, 1890.

"Under the provisions of the consolidated mortgage of the Company there was set apart, on the first day of July last, out of the net income, $324,800 as a sinking fund for the redemption of the outstanding bonds secured by that mortgage. As their market value was too high to permit of their purchase, that amount was placed to the credit of the trustees of the sinking fund.

The aggregate amount so placed with the trustees of the fund for investment since the commencement of the trust, including the income from first mortgages upon real estate, is		$3,127,616 00
Of which there has been invested as follows:		
Bonds secured by consolidated mortgage purchased to date, at par value	$1,769,070 00	
First mortgages upon real estate	1,247,900 00	
		$3,016,970 00
Cash on hand December 31, 1888	110,646 00	
		$3,126,616 00

"Under an arrangement made with the Western Pennsylvania Railroad Company its general mortgage securing $5,000,000 of five per cent. bonds was cancelled, and a new mortgage created securing the same amount of bonds at four per cent. interest. Your Company having surrendered the five and six per cent. bonds held by it, aggregating $2,975,000, received, in partial payment therefor, the $3,000,000 of the new four per cent. bonds hereinbefore referred to.

"The East Brandywine and Waynesburg Railroad, extending from your Main Line at Downingtown to New Holland, a distance of twenty eight miles, was sold under foreclosure, and reorganized under the name of the Downingtown and Lancaster Railroad Company. All its securities are held by your Company.

"The Philadelphia and Erie Railroad Company, in order to provide the means for the payment of its $3,000,000 of seven per cent. bonds, maturing July 1, 1888, and to fund its four and a half per cent. debentures, amounting to $1,455,000 issued $4,555,000 of four per cent. bonds secured by its General Mortgage, and guaranteed by your Company.

"Under the contract existing between the New Jersey Railroad and Transportation Company and the Perth Amboy and Woodbridge Railroad Company, $27,080 of the stock of the latter company in the hands of individual holders, and bearing six per cent. guaranteed interest, was purchased at par. There was also issued to your Company, in payment of advances heretofore made for betterments, $136,820, making a total of $163,900 out of $164,020 of its capital stock now held in your treasury. The $100,000 six per cent. overdue debentures of that company were provided for by an issue of $100,000 of four per cent. debentures guaranteed by the United New Jersey Railroad and Canal Company.

"Under the Consolidated Mortgage of the Freehold and Jamesburg Agricultural Railroad Company $100,000 of four per cent. bonds were issued, guaranteed by the United New Jersey Railroad and Canal Company, and the proceeds applied to the payment of the $100,000 of seven per cent. bonds that matured May 1, 1888, of the Squankum and Freehold Marl Company, which had been merged into the Freehold and Jamesburg Agricultural Railroad Company.

"There are now in the sinking fund, for the redemption of the obligations of the various companies forming the United New Jersey Railroad and Canal Company, securities of the par value of $5,018,400, and a cash balance, uninvested by the trustees, of $20,515.44, making an aggregate of $5,038,915.44. During the current year, $5,866,000 of the outstanding six per cent. loans of these companies will mature, making, with $154,000 of debentures that fell due last year, a total of $6,020,000, which will be provided for by the issue of four per cent. bonds under their general mortgage of April 20, 1871.

"The trustees of the sinking fund for the redemption of the trust certificates issued for the purchase of the shares of the capital stock of the Philadelphia, Wilmington and Baltimore Railroad Company were only able to purchase $85,000 certificates during the past year at the limit fixed in the trust agreement, and therefore returned to your treasury, of the amount appropriated for that purpose, $182,477.47. The total amount of these certificates purchased and cancelled to December 31, 1888, is $1,911,000, leaving outstanding $8,089,000."

Decrease	.....	9,219 71	.....	3,000 00	39,107 84

The aggregate tonnage for the year was 712,089 net tons; an increase, as compared with 1887, of 24,627 tons. The anthracite tonnage increased 55,824 gross tons, but the lumber tonnage, including logs, decreased 15,777 net tons.

Car Trusts.

Under the car trust system a further issue of $3,000,000 of four per cent. certificates was authorized for the equipment of the roads and affiliated lines. Under this authority, and that heretofore conferred, there were furnished during the year 100 box, 6 refrigerator, and 2,000 hopper gondola cars for the main line, 500 long gondolas for the lines in which the company is interested west of Pittsburg, 500 long gondolas, subleased to the Northern Central Railway Company, 500 long gondolas, subleased to the Philadelphia, Wilmington & Baltimore Railroad Company, and 500 hopper gondolas, subleased to the Bell's Gap Railroad Company.

The outstanding certificates of Series C, D, E, and F of the Railway Car Trust of Pennsylvania were paid and cancelled during the year. These certificates represented 1,000 box cars and 1,500 hopper gondolas for the main line, at an original cost of $1,485,000, and 1,000 box cars for the Pennsylvania Company, at an original cost of $573,000, and upon their cancellation the equipment became the property respectively of the lines east and west of Pittsburgh.

LINES WEST OF PITTSBURGH.

The following statement gives the result of the lines west of Pittsburgh operated by the Pennsylvania Company and Pittsburgh, Cincinnati and St. Louis Railway Company :

The total earnings of the Pennsylvania Company on lines operated directly by it were	$19,579,177 48	
Expenses for same period were	13,016,817 09	
Leaving net earnings	6,562,360 39	
From this deduct: Rental, interest, and liabilities of all kinds chargeable thereto	6,637,251 02	
Net loss on Pennsylvania Company's lines		$74,890 63
The total earnings of the Pittsburgh, Cincinnati and St. Louis Railway Company on lines operated directly by it were	7,821,988 88	
Expenses for same period were	6,151,580 63	
Leaving net earnings	1,669,708 25	
From this deduct: Rental, interest and liabilities of all kinds chargeable thereto	1,746,218 98	
Net loss on Pittsburgh, Cincinnati, and St. Louis Railway Company's lines		76,515 73
Net loss on lines west of Pittsburgh for 1888		151,406 36
Net profit on lines west of Pittsburgh for 1887		1,200,186 23
Comparative decrease on lines west of Pittsburgh for 1888		1,351,592 59

The other lines west of Pittsburgh, on account of which the company has assumed direct obligations, or in which it is largely interested through ownership of securities, but which are operated through their own organizations, are: The Chicago, St. Louis and Pittsburgh Railroad, and roads operated through its organization ; St. Louis, Vandalia and Terre Haute Railroad ; Grand Rapids and Indiana Railroad, and roads operated through its organization; East St. Louis and Carondelet Railway ; Cincinnati and Muskingum Valley Railway ; and the Waynesburg and Washington Railroad.

The aggregate gross earnings of these roads in 1888 were	$10,493,908 30	
Expenses	8,219,985 62	
Net earnings	2,273,922 68	
Deduct rental and interest	2,311,400 70	
Loss		$37,478 02

These lines, comprising the Western system, show a comparative decrease in net results of $1,448,608.84 as compared with 1887. While the freight movement shows a gain of 1,062,051 tons, and the passenger travel an increase of 1,655,521 in the number carried, there was a general reduction in the rates on all classes of traffic. Large expenditures were made in the purchase of real estate and in the increase of facilities at terminal points, the renewal of bridges, the construction of branches and sidings and upon freight and passenger stations and new equipment. The condition of the properties was fully maintained.

There have been redeemed through the sinking fund $1,321,000 of the issue of $3,200,000 of the Pennsylvania Company's 6 per cent. bonds, secured by Pittsburgh, Fort Wayne and Chicago Ry. Co. stock as collateral, leaving the amount outstanding $1,879,000. There was a further issue of $2,500,000 of its 4½ per cent. bonds for the purpose of providing for construction and other capital accounts on the lines west of Pittsburg, so that the entire issue to date is $17,500,000. Of this amount $533,000 had been retired through the operations of the sinking fund, leaving outstanding at this date $16,967,000.

The report made by the trustees of the sinking funds of the first and second mortgages of the Pittsburgh, Fort Wayne and Chicago RR. Co. shows that the regular annual payment of $104,100 was made thereto. They redeemed during the year $68,500 of the first mortgage and $135,500 of the second mortgage bonds, making the total amount redeemed to December 31, 1888: First mortgage bonds, $1,753,000; second mortgage bonds, $2,154,000. With a balance of cash in the hands of trustees, uninvested, December 31, 1888': On account of first mortgage sinking fund, $686,958.32; on account of second mortgage sinking fund, $448,691.11.

The further amount of $148,587 was also added to the sinking funds provided for the redemption of the existing mortgages of the Cleveland and Pittsburgh RR. Co., in addition to the amounts contributed directly to other sinking funds by the individual companies.

The earnings of the Grand Rapids and Indiana RR. Co., owing to a reduction in rates, were not quite sufficient to meet the interest on its entire funded debt and the losses on its leased lines. The land department made sales of 6,078 acres of farm lands and 10,889 acres of pine lands for $360,897.38, being an average price of $21.27 per acre. The amount sold to the close of the year, after deducting cancelled contracts, was 474,355 acres, and the aggregate price received therefor was $5,983,329.91, an average of $12.61 per acre. No bonds could be purchased by the trustees during the year out of the proceeds of such land sales, and there are now outstanding $3,934,000 of the guaranteed and $505,000 of the unguaranteed first mortgage land-grant bonds of the company.

The assets on hand December 31, 1888, applicable to the redemption of the first mortgage land-grant bonds were: Cash in the hands of the trustees, $1,394,751.28; cash in the hands of cashier, $44,541.25; bills and accounts receivable in hands of cashier, $260,028.46; bills receivable and securities in hands of trustees, $227,171—total, $1,926,491.99.

Summary of all lines east and west of Pittsburgh, operated by Pennsylvania RR. Co., Pennsylvania Co., or controlled organizations:

During the past year the capital stock was increased $900, which was issued *pro rata* to stockholders, and the proceeds applied to new construction, equipment, and betterments. The stock was issued under authority granted in March, 1886, when the directors were authorized to increase the capital stock at their discretion to $115,000,000.

The trust certificates (originally $10,000,000), were issued to provide part of the means for the purchase of the P., W. & B. RR. (see SUMMARY OF PROGRESS, in MANUAL for 1882, p. 288), and bear interest at 4 per cent. For the payment of these certificates the faith of the Pennsylvania RR. Co. is pledged, and they are further secured by a deposit of 200,000 of the shares purchased with the Pennsylvania Co. for Insurance on Lives and Granting Annuities, as trustees. The dividends upon this stock, after providing for the interest on the then outstanding certificates, are applied as a sinking fund for their purchase and cancellation whenever they can be obtained at a price not exceeding par.

Included in accounts payable (in General Balance Sheet) are passenger balances due other roads, $911,191.07; pay-rolls and vouchers for December, 1888, $5,801,402.82; unpaid dividends, $106,462; outstanding dividend scrip, $1,283.36; sundry accounts due other roads, etc., $11,804,338.10.

burgh includes the Harrisburg, Portsmouth, Mt. Joy and Lancaster RR., 109.22 miles, represented by $1,882,500 guaranteed stock and bonds of that company; the branches to Indiana, Hollidaysburg and Morrison's Cove; branch to connect at Tyrone with P., V. & C. RR. and branch; Columbia Bridge; branches from Columbia to York, and sundry other branches and extensions, comprising 1,458.73 miles of single track, and including wharves and grain elevator, and cost of stations, warehouses and shops. The equipment, charged in equipment account, consists of locomotives, passenger cars, baggage, mail and express cars, freight cars and road cars, as well as shop machinery, steamboats, car-floats, and canal equipment, schooners, barges and tugs.

The general mortgage bonds are secured, under a deed dated July 1, 1867, by a mortgage of $35,000,000 on the railroads, real and personal estates, premises, hereditaments, etc., made to two trustees for the benefit of the holders. The sterling bonds issued under this mortgage (£2,781,200) are all coupon, and are indorsed by the London, Asiatic and American Co., Limited, of London. Interest payable at Philadelphia or at London Agency. Listed on Philadelphia and London Stock Exchanges. Also quoted at Dublin, Glasgow, Leeds, and Liverpool.

The authorized issue of consols of 1905 is $100,000,000, and they are secured on the entire property and franchises of the company, including rolling stock. Of the amount outstanding $23,469,000 or £4,693,800 are sterling bonds, issued in London in September, 1873, and December, 1874, and bear the indorsement of the London, Asiatic and American Co., Limited. Interest is payable in London January 1 and July 1; principal in London July 1, 1905, by the action of a sinking fund of 1 per cent., which is applied by purchase if the bonds are under par, or accumulated if they are not. The currency issue is identical with the sterling in every respect, except that interest is payable June 15 and December 15, at Philadelphia, and that the principal is redeemable at the same place June 15, 1905. All bonds are for $1,000 each. Listed on Philadelphia and London Stock Exchanges. The sterling issue is also quoted at Dublin, Glasgow, Leeds, and Liverpool, and the currency issue at Glasgow.

The authorized issue of the collateral trust loan was $10,000,000, of which $100,000 have been retired by the action of the sinking fund. The bonds are for $1,000 each "to bearer," and are a direct obligation of the company. They are secured by deposit with the Provident Life and Trust Co. of Philadelphia of $13,300,000 bonds of subsidary lines. The bonds are not liable to be drawn or compulsorily redeemed before maturity, but a sinking fund of one per cent. will be applied half yearly to their purchase if they can be obtained below par and interest. They may be registered with the transfer agent at Philadelphia, in which case no transfer is valid as to principal, except upon the books of the company, unless the last transfer be to bearer, which restores its transferability by delivery. The bonds are subject to successive registrations and transfers to bearer at the option of each holder, but the coupons in all cases remain "to bearer." Interest is payable at Philadelphia, in gold, free of all taxes. Listed on Philadelphia and London Stock Exchanges.

Interest on first mortgage consols of 1919, and Navy Yard mortgage is payable in Philadelphia, and the bonds are listed on the Exchange of that city.

The principal of the debt due to the State of Pennsylvania on account of the purchase of the main line was reduced during the year by the payment of $383,906.40, which was charged to capital account, leaving a balance of $1,232,757.43. After the payment of the usual semi-annual instalments until July 31st, 1890, there will then be due $635,654.94, upon payment of which this debt will be extinguished.

Under the provisions of the consolidated mortgage of the company there was set apart, on the first day of July last, out of the net income, $324,800 as a sinking fund for the redemption of the outstanding bonds secured by that mortgage. Their market value was too high, however, to permit of their purchase, and the amount was placed to the credit of the trustees of the sinking fund.

The aggregate amount so placed with the trustees of the fund for investment since the commencement of the trust, including the income from first mortgages upon real estate, is		$2,767,656 00
Of which there has been invested as follows:		
Bonds secured by consolidated mortgage purchased to date, at par value.	$1,769,070 00	
First mortgages secured upon real estate bearing four per cent. interest per annum	879,900 00	
	$2,648,970 00	
Cash on hand, December 31, 1887	118,686 00	
		$2,767,656 00

There are now in the sinking fund, for the redemption of the obligations of the various companies forming the United New Jersey Railroad and Canal Company, securities of the par value of $4,464,100. There is also a cash balance, uninvested by the trustees, of $70,150.55, making an aggregate of $4,534,250.55, for which you will in the future, in accordance with the terms of the lease, receive bonds to be issued under the general mortgage of that company.

The trustees of the sinking fund for the redemption of the trust certificates issued for the purchase of the shares of the capital stock of the Philadelphia, Wilmington and Baltimore Railroad Company, were not able to purchase any certificates during the past year at the limit fixed in the trust agreement, and therefore returned to your treasury $391.704.34, the amount appropriated for that purpose. The total amount of these certificates purchased and cancelled to December 31, 1887, is $1,826,000, leaving outstanding $8,174,000, being the same as reported last year.

GENERAL REMARKS.

There was appropriated to the Managers of the Trust created October 9, 1878, for the year 1888, the sum of $3,907,140.58, which, with the income of $2,243,970.45, has been invested in securities amounting at par to $6.069,-950, yielding an interest of 6.94 per cent. for the year. There was appropriated to that trust for the year 1888 the sum of $71,120.88.

The statement of the Insurance Fund shows assets on hand, at the end of the year, of $2,072,111.61, being an increase over the previous year of $257,667.11.

In view of the probable increase in traffic, it will be necessary to make large expenditures during the coming year, especially in increasing the facilities in Philadelphia and Jersey City, and providing for the safer transportation of traffic through the larger cities.

There was also a considerable amount expended in the extension of branch and auxiliary lines, necessary for the proper development of the traffic tributary to the system. The principal expenditures upon these lines were : On the Pittsburgh, Virginia and Charleston Ry., in the purchase of additional real estate, and construction of double track, with the view of transferring to that road a portion of the traffic now passing through Pittsburgh, and thus relieving both this company's line and the streets of that city from the annoyance and delay attendant thereon ; on the Southwest Pennsylvania Ry., in the development and extension of branches, and the completion of a new connection with the main line ; on the Western Pennsylvania RR., in extending the double track ; on the Schuylkill Valley, in the extension of tracks and settlements for right of way ; and in the construction of the Cambria and Clearfield RR. in the bituminous coal region. The aggregate outlay therefor was $1,293,473.84, on account of which this company has received from those lines in cash $429,951.56. The revenues of the Pennsylvania Schuylkill Valley Road, built for the purpose of securing a fair share of the local traffic of that territory, were more than sufficient during the past year to pay the interest on its entire funded debt.

Among the new undertakings contemplated during the present year are : The construction of a bridge over the Ohio River immediately west of Pittsburgh, for the purpose of further avoiding the very expensive and dan-

gerous transfer of the constantly increasing volume of traffic through the cities of Pittsburgh and Allegheny, the cost of which will probably amount in the aggregate to $1,500,000; the providing of necessary yards and transfer facilities at a point about fourteen miles east of Pittsburgh, where the traffic to and from the western lines will naturally be transferred from and to the main line, the land for which was purchased many years since, and its improvement commenced during the past year; the change of grade through some of the important cities on the line to avoid the dangers of street crossings; and the erection of locomotive shops at Altoona, to be devoted exclusively to the building of new engines, the time having arrived when the present shop facilities at that point are inadequate to properly care for the motive power and supply the additional locomotives required by the increasing traffic, the outlay for which will probably be $1,000,000.

The amount contributed by this company and affiliated lines during the year to the Employés Relief Fund was $55,901.50 for operating expenses, and in addition thereto the sum of $8,187.80 for extra benefits to members of the Fund whose disability had continued over fifty-two weeks, and who were, therefore, no longer entitled to regular benefits from the Fund. The amount contributed by employés was $341,630.08, and the receipts from interest were $8,739.24, which, with the contributions by the companies, $64,089.30, made a total of $414,398.57. This, added to the balance on hand at the beginning of the year, $192,157.56, aggregated $606,556.13. Out of this fund there was paid to the families of employés in death benefits, and for sickness and accidents, the sum of $283,512.10, and for expenses, $55,901.50, leaving a balance of $267,142.53. After deducting therefrom the amount of outstanding unadjusted claims, and setting aside a proper reserve fund to meet liabilities growing out of the increasing age of the members, there remain a net surplus of $170,532.06. The number of persons receiving death benefits was 250, making an average in each case of $523.27. There were 19,392 members of the Fund at the close of the year.

The Employés' Saving Fund is now in successful operation: and during the year 1,807 employés availed themselves of the opportunity to become depositors therein. The amount of deposits received during the year was $421,191, and the balance remaining at the close of the year was $364,390.66. Of this amount $300,000 have been invested in the four per cent. bonds of the Philadelphia and Erie RR. Co.

(Gen. mortgage (Phil. & Erie) 4 p. c. 32-year $1,000 reg. bonds, due July 1, 1920, int. April & October ...	4,555,000

The general mortgage is for $20,000,000. During the past five fiscal years the company made an issue of 4 p. c. $1,000 registered bonds under this mortgage, which are to be exchanged dollar for dollar for the 1st mortgage 7s, which matured on July 1, 1888. On this date, also, the Penna. RR. Co. exchanged $1,455,000 of 4½ per cent. debenture bonds held by them, for $1,555,000 4 per cent. bonds, secured by the general mortgage above referred to. Principal and interest on the several issues of general mortgage bonds are guaranteed by the Pennsylvania RR. Co. Of the first mortgage Sunbury and Erie bonds, $163,000 are coupon and $813,000 registered.

Special stock is entitled to 7 per cent. per annum, before dividends can be paid on common stock. Voting power attaches to stock after 30 days' ownership. Annual meeting, second Monday in February. Trustees of bonds : 1st mortgage S. & E. RR., the Penna. Co. for Insurances on Lives and Granting Annuities; 1st mtge. P. & E. RR., John P. "A claim has been presented for a large amount alleged to be due by this Company to the Commonwealth of Pennsylvania, for taxes upon capital stock from November, 1868. By a supplement to its charter in February, 1852, the Company was exempted from taxation upon its capital stock until its net earnings should realize at least six per cent., and in pursuance thereof settlements have been made from year to year with the Commonwealth. This claim has been referred to the legal officers of the company, with directions to take such steps as may be necessary to protect its interests.

"It is doubtless known to the stockholders, that the mortgage bonds amounting to $3,500,000, given by this company to the Commonwealth for the purchase of the State canals, were exchanged by the latter with the Allegheny Valley Railroad Company, for their bonds to the same amount, bearing interest at the rate of five per cent. per annum from January 1, 1872, which latter bonds by an agreement dated April 12, 1869, were guaranteed principal and interest by the Pennsylvania RR. Co., the Northern Centrail Ry. Co., and the Philadelphia and Erie RR. Co. At the same time the Philadelphia and Erie RR. Co. purchased from the Allegheny Valley RR. Co. the $3,500,000 of Philadelphia and Erie RR. bonds received from the State, and had the mortgage satisfied. The annual installments of principal, and semi-annual amounts of interest due to the Commonwealth, were regularly paid by the Allegheny Valley RR. Co. up to January, 1878, inclusive. From which date to July, 1887, the Pennsylvania RR. Co. purchased the coupons upon the bonds of the Allegheny Valley RR. Co. secured by its mortgage prior to that made to the Commonwealth. In consequence, the Allegheny Valley RR. Co. was able to pay, and did continue to pay, to the Commonwealth the bonds and interest due to it out of its revenues to July, 1887. The Pennsylvania RR. Co. now makes a claim, that in equity it is entitled to contribution from its co-guarantors, this company and the Northern Central RR. Co. The matter has been referred by the three companies interested to an arbitrator, whose decision has not yet been rendered.

"The Allegheny Valley RR. Co. having ceased to make any payments to the Commonwealth since July, 1887, demand is now made by the latter upon the guarantors for payment of the bonds and interest overdue, amounting to $365,000, exclusive of probable interest and costs. As there appears to be no question as to the liability of this company for its proportion of the amount that may be ascertained to be due to the Commonwealth, payment has been ordered."

UNITED NEW JERSEY RAILROAD AND CANAL COMPANIES.—Main lines railroad owned: Jersey City to Trenten, 56.66 miles, and South Amboy to Camden, 61.15 miles; branches owned, 27.03 miles—total, 144.84 miles. Canal owned: Bordentown to New Brunswick, and feeder, 66 miles. The Delaware and Rariton Canal Co. and the Camden and Amboy Railroad Co. were both chartered in February, 1830, the former to construct a canal to connect the Delaware and Raritan Rivers, and the latter to build a line of railroad from the Delaware River to Raritan Bay. In February, 1831, an act was passed authorizing the consolidation of the capital stocks of these two companies, the companies being thus practically consolidated, although nominally distinct corporations. The affairs of the companies were managed jointly, by the directors of both, and they were to share equally in profits. Under this joint management the construction of the works was begun. The main lines of the railroad and canal were completed in 1834, and the branches in 1838. In 1836 the United Companies acquired a controlling interest in the stock of the Philadelphia and Trenton RR. Co., and entered into an agreement with that company for an equal division of their joint profits.

In the amounts stated as rentals Belvidere Delaware Railroad, Philadelphia, Germantown and Chestnut Hill Hill Railroad and Freehold and Jamesburg Agricultural Railroad, the interest on equipment charges is included.

In January, 1867, an agreement was entered into between the United Companies and the New Jersey Railroad and Transportation Co., which owned the line between New Brunswick and Jersey City, forming a link in the through New York-Philadelphia route, for a consolidation of interests; and under this agreement the profits were equally divided between the four companies—the Delaware and Raritan Canal Co., the Camden and Amboy, the New Jersey, and the Philadelphia and Trenton Railroad Companies.

In June, 1871, the entire property was leased to the Pennsylvania RR. Co., for 999 years, the lessee receiving all assets and assuming all obligations, and guaranteeing to the United Companies an annual rental equal to 10 per cent. on the aggregate capital stock, and dividends of an equal rate to the Philadelphia and Trenton.

Gross earnings, 1888, including Delaware and Raritan Canal, $17,100,851.52; expenses, railroad and canal, $13,071,485.97; net earnings, $4,029,365.55. Add interest from investments, $699,896 82. PENNSYLVANIA, POUGHKEEPSIE AND BOSTON RAILROAD COMPANY.

Line of Road.—Slatington, Pa., to Pine Island, N. Y.....76.00 miles. Sidings, 1.5 miles. Gauge, 4 ft. 8½ in. Rail (steel), 56 lbs. per yard.

History.—This company is successor to the Pennsylvania, Slatington and New England RR. Co., which was organized June 22, 1882, by the consolidation of the Pennsylvania and New England Railroad Company, New Jersey Division, and the Delaware and Slatington Railroad Company, chartered under the laws of Pennsylvania, September 9, 1882. The projected length of the line being 190 miles, from Harrisburg, Pa., to Poughkeepsie, N. Y. The line from Slatington, Pa., on the Lehigh River, to Pine Island, N. Y., on the New York, Lake Erie and Western RR., crossing the Delaware River at Portland, Pa., three miles below the Water Gap, was placed under construction in 1883. On December 31, 1883, there had been completed sections of the road extending from Columbia, N. J., to Wind Gap, Pa., 18.2 miles, and from Deckertown, N. J., to Papakating, N. J., 5.1 miles, together with 35 miles of graded road-bed ready for the rail. Road placed in the hands of a receiver, June 9, 1885, and sold under foreclosure April 21, 1887. Reorganized in September, 1887, under the existing title. This road forms a part of the through line from the Pennsylvania coal fields to the New England States, by way of the Poughkeepsie Bridge. The uncompleted portions of the line between Slatington and Pine Island are now under construction, and will be completed during the current year.

Rolling Stock.—Locomotive engine, 1. Construction cars, 20.

Financial Statement.—Capital stock (par, $100), $1,750,000; funded debt (1st mortgage 6 per cent. 50-year bonds, due June 30, 1932, interest January and July), when the road is completed will be $1,500,000.

Directors (elected December 10, 1888).—James W. Husted, Peekskill, N. Y.: Geo. W. Green, Geo. W. Murray, Goshen, N. Y.; Frank C. Hollins, Charles Sooysmith, New York, N. Y.; James Roosevelt, Hyde Park, N. Y.; Rudolph T. McCabe, Philadelphia, Pa.

PHILADELPHIA AND READING RAILROAD COMPANY.

Line of Road.—Philadelphia, Pa., to Mount Carbon, Pa. ..... 98.4 miles.
Branch lines owned by the company.....228.6 miles.
Branch lines leased by the company.....516.1 miles,
Branch lines controlled by the company.....211.9 miles.

Total length of all lines owned, leased and controlled.....1,055.0 miles.
Gauge, 4 ft. 8½ in. Rail (steel, 1,432.53 miles), 56, 58, 60, 64, 68, 70 and 88 lbs.

History.—Chartered April 4, 1833; work begun in the spring of 1835, and portions of the line opened in July, 1838. By Act of March 28, 1838, authority was given to extend the road to Mount Carbon or to Pottsville, one mile above Mount Carbon. As these two points were already connected by the Mount Carbon RR., it was decided to extend the road to connect with that line. The Mount Carbon RR., May 13, 1872, was merged into and became a part of the main line of this road. The first through trains between Philadelphia and Pottsville were run in January, 1842.

The branch from the Falls of the Schuylkill to Port Richmond, from which the shipments of coal are made, was completed in 1842. In 1850 the company bought improvements extending from Broad and Vine streets, in Philadelphia, to and including the inclined plane on the west of the Schuylkill and the Columbia Bridge over the river. In 1858 the Lebanon Valley RR., extending from Reading to Harrisburg, was merged into the main line; and

since that time the Mahanoy and Shamokin, the Lebanon and Tremont, the Northern Liberties and Penn Township, the Port Kennedy, the Schuylkill and Susquehanna, the Mount Carbon, the Moselem, and the West Reading Branch RRs. have been consolidated with the company's lines, and are now treated as portions of the road proper.

The chief business of the company is the transportation of coal from the first and second anthracite coal-fields of Pennsylvania to tide-water in the Delaware River, at Port Richmond, Philadelphia. At this eastern terminus are 23 wharves, extending from 300 to 800 feet into the river, with trestlework and shutes, allowing a direct discharge of coal from the cars into vessels. More than 35 miles of track are distributed on the wharves of the immediate neighborhood. The main line of road winds through the Schuylkill Valley, extending numerous branches east and west into the two southern coal-fields. The Broad Mountain dividing the two coal-fields is crossed by the different branches at four different points, three of which lead directly into the Mahanoy coal-field, and one into the Wisconisco Basin. The Laurel Run Improvement Co. was chartered May 18, 1871; name changed December 12, 1871, to the Philadelphia and Reading Coal and Iron Co., which was organized under the auspices of the Railroad Company, for the purpose of purchasing and operating the coal properties with which the railroad was connected. The Philadelphia and Reading RR. Company owns all the stock in the coal company, and bonds and mortgages on the coal lands to the amount of $39,737,965.53.

In May, 1879, the Philadelphia and Reading RR. Co. took a lease for 990 years of the North Pennsylvania and the Delaware and Bound Brook RRs., agreeing to pay an annual rental equal to the fixed charges of the companies, and annual dividends of 6 per cent. for the first two years, 7 per cent. for the next two, and 8 per cent. for the remainder of the term.

On February 4, 1882, the New York Central and Hudson River RR. Co., the Geneva and Lyons RR. Co., the Syracuse, Geneva and Corning RR. Co., the Corning, Cowanesque and Antrim Ry. Co., the Fall Brook Coal Co. (lessee of the lines of the two companies immediately preceding), the Jersey Shore, Pine Creek and Buffalo Ry. Co., the Philadelphia and Reading RR. Co., and the Philadelphia and Reading Coal and Iron Co., entered into a contract, to endure for 900 years, providing for an interchange of through and local traffic and the formation of a through line between Philadelphia and Buffalo. See MANUALS for 1883 and 1884.

The entire tonnage of the *Beech Creek RR.* to Philadelphia and New York and all points south and east is thrown upon the lines of the Philadelphia and Reading RR. Co., under a contract for 900 years, which provides for a pro rata of joint charges between the several connecting lines.

To form an additional connection between the railway systems of the company on the north and those on the south of the city of Philadelphia, two lines of railway, known as the Schuylkill River East Side RR., and the Schuylkill River West Side RR., were located some years ago. The former was completed late in 1886, and a part of its stock is the property of the P. & R. RR. Co. The completion of this line furnishes an additional connection between the lines running north, east, and west, and those running south from Philadelphia, and affords access to the traffic from the lines of the Baltimore and Ohio RR. Co., and its connections over the P. & R. system.

On May 29, 1883, all the railroads and property of the *Central RR. Co. of New Jersey* were leased for 999 years at a rental equal to its fixed charges and six per cent. upon its capital stock. The Reading reorganization plan gave the Central Co. the option of regaining possession of its roads, of which the Central Co. availed itself January 1, 1887. The Lehigh Coal and Navigation Co.'s lines were restored to that company about the same time.

On April 11, 1883, the company leased for a term of 999 years, from May 1, 1883, the *Schuylkill and Lehigh RR.*, at a rental of 4½ per cent. upon its first mortgage bonds, and 6 per cent. upon its capital stock, all of which is owned by the Philadelphia and Reading RR. Co.

Receivers were appointed May 24, 1880, default having been made on maturing obligations. The receivers were discharged February 28, 1883, a plan for the readjustment of the company's affairs having been perfected. Receivers again appointed June 2, 1884. A plan

of reorganization was agreed upon December 14, 1886, and by its means the property was restored to the company January 2, 1888. The plan of reorganization was given in full in the MANUAL for 1887, page 281—which see. It provided, in brief, for the payment of the floating debt and the receiver's certificates, the scaling down of interest and rental charges, and the conversion of fixed annual interest charges into obligations on which the interest should be payable only when earned. To effect these purposes provision was made for the issue of $100,000,000 new general mortgage 4 per cent. bonds, $24,410,822 first preference incomes, $26,140,518 second preference incomes, and $14,956,016 third preference incomes, the incomes to draw, in the order of their preference, interest up to 5 per cent., if earned.

The plan of reorganization has thus far accomplished the payment in full of the floating debt and the receiver's certificates, an annual reduction in rentals of about $830,000, and an annual reduction of fixed interest charges of about $1,710,000.

In addition to its lines of railroad, the Philadelphia and Reading RR. Co. leases and operates the following canals: Schuylkill Canal, 108.23 miles—leased for 999 years from January 1, 1870; Susquehanna Canal, 45.00 miles—leased for 999 years from January 1, 1872.

* The statements of passengers and tons of freight moved are given as they appear in the company's report. It will be observed that the total of the numbers credited to each division is in excess of the number given in the "Total" column. This is probably due to transfer passengers and freight being credited in full to each division over which they passed. The mileage of passengers and freight, and the total number of each moved, given in the "Total" column are correct.

Net earnings entire system (26.10 per cent.), $1,777,274.79. 2d track, 3.46 m.; sidings, 4.38 miles. Gauge, 4 ft. 8½ in. Rail (steel), 60 and 67 lbs.

History.—Consolidation, December 31, 1881, of the Pittsburgh Local RR. Co. and the Pittsburgh Junction RR. Co., the former incorporated under the free railroad law of Pennsylvania in September, 1880, and the latter under the same law, August 6, 1881. Road opened as above September 1, 1884.

On April 27, 1882, the Baltimore and Ohio RR. Co. (as lessee of the Pittsburgh and Connellsville RR.), the Pittsburgh and Western RR. Co., and the Pittsburgh Junction RR. Co. entered into an agreement whereby the two former agreed to pay to the latter jointly on through freight cars and individually on others, $2 for each loaded freight car delivered to or received from said Pittsburgh Junction RR., with the following provisions: (1), that when the gross earnings of said Pittsburgh Junction RR. shall equal $270,000 in any one year, such charge shall be reduced to $1.50 per car and to $1 in the event of gross earnings equalling $300,000; (2), that if the gross earnings should fall below $240,000 in any one year, the charge on cars delivered to or received from said B. & O. and P. & W. Companies, individually, shall be increased so as to meet the deficit, the increased charge per car to be so arranged that both parties shall contribute equal amounts to the gross earnings until they reach $240,000; but in the event of this second provision going into effect, then the extra charge over $2 per car contributed by the B. & O. and the P. & W. shall be in the nature of an advance, for which, with interest, the Pittsburgh Junction RR. Co. shall be liable.

Used as a connecting link between the B. & O. and Pittsburgh and Western RRs.

History.—This company is a reorganization, June 26, 1887, of the Pittsburgh and Western RR. Co., whose road and property were sold under foreclosure June 8, 1887, under the provisions of a plan for the reorganization of the company, a full outline of which was given in the MANUAL for 1887, page 302.

Voting power of the stock is vested for five years in J. Pierpont Morgan, John Lowber Wesh and James Callery as voting trustees.

The Northern Division of this road is narrow gauge, and the main lines standard gauge. The section from Callery Junction to Butler, 14.6 miles, is of both gauges, a third rail being

laid for the accommodation of the narrow gauge cars. At Allegheny the company o terminal yards extending from near Pine Creek to Jacks Run, a distance of about 7 mi covering almost the entire river frontage of Allegheny City.

The company acquired during the year 1882, one-quarter interest in the Pittsbu Cleveland and Toledo RR., then under construction. On July 15, 1884, it was leased to company for 99 years, the lessee guaranteeing the payment of interest on $2,400,000 mortgage bonds of the lessor. Subsequently the Baltimore and Ohio RR. Co. entered an agreement with the lessee to guarantee the interest on the Pittsburgh, Cleveland Toledo bonds, in consideration of the Pittsburgh and Western transferring to it 15 shares of the lessor company's stock, and binding itself to pay into the Central Trust of New York $12,000 monthly on account of rental, default to entail a forfeiture of the le etc., to the Baltimore and Ohio RR. Co.

On October 1, 1886, the Pittsburgh and Western RR. Co. took a lease of that portion the Pittsburgh, Painesville and Fairport RR., extending from Niles Junction, O., to Fairp O., 52.2 miles.

The leased lines are operated at actual cost, the lessee company guaranteeing that net earnings shall be sufficient to pay interest on the bonded debt, and agreeing to adv any deficiency, to be refunded from future earnings, and in the case of the P., C. & T. any residue of earnings, after paying six per cent. on the capital stock of the respe lessor companies, to be divided equally between lessor and lessee.

Pittsburgh, Painesville and Fairport RR. stock, $132,000—total, $1,062,000, the nominal value of which is $500,000, as shown in the balance sheet. The company has recently contracted to sell its holdings of P., P. & F. RR. stock, $132,000 for $99,000 cash, payable April 1, 1889.

The authorized issue of the first mortgage 4 per cent. gold bonds is $10,000,000, of which $300,000 are specifically reserved to take up the divisional bonds, and the remainder is reserved by the company for equipments, betterments, etc. These bonds are of the denomination of $1,000 each, in coupon form, with privilege of registration of principal, and are secured by a mortgage bearing date of July 1, 1887, made to the Mercantile Trust Co., as trustee, covering all the railways, real estate, terminal facilities, leases, equipment, and other property now owned or hereafter acquired by the railway company. There have also been deposited with the trustee of said mortgage, as past security therefor, $375,000 of the capital stock and $150,000 bonds of the Trumbull and Mahoning RR. (being part of the $500,000 stock and $250,000 bonds hereinbefore referred to), same having been issued in payment for lands at Youngstown, deeded to the last company by the Pittsburgh and Western Railway Co. The capital stock consists of $7,000,000 common stock and $5,000,000 5 per cent. non-cumulative preferred stock, all in shares of $50 each, and all of which (excepting 500 shares of common stock) is deposited in trust till July 1, 1892, the voting power thereon being exercised by J. Pierpont Morgan, J. Lowber Welsh and James Callery, their successors, or a majority of them.

The advances to Pittsburgh, Cleveland and Toledo RR. Co., and to the Pittsburgh, Painesville and Fairport RR. Co., were made prior to the reorganization of the Pittsburgh and Western RR. Co., on July 1, 1887, and have been considerably reduced since that date.

POUGHKEEPSIE BRIDGE COMPANY.

History.—This company was chartered in 1871 to build a railroad bridge across the Hudson River at Poughkeepsie. Work was begun soon after, but was stopped about 1873 and resumed in 1878. A reorganization of its affairs was effected August, 1886, and on August 27, 1886, the contract was let to the Manhattan Bridge Building Co. (the steel and pier work being sublet to the Union Bridge Co.)—construction to be completed and the bridge ready for traffic about July 1, 1888.

The bridge will be of steel, supported on steel towers, resting upon stone piers. On the west shore there will be a span of about 201 feet, and viaduct and railway approach of two miles, and on the east a span, 201 feet and a viaduct and railway approach of about two miles in length. There will be five spans over the river channel, three of them cantilevers of 550 feet each, and two truss spans of 525 feet each—the bottom of the spans 160 and 130 feet respectively above high water. There will be two railroad tracks, 212 feet above high water, and the bridge will be of sufficient strength to support two trains, each drawn by two 85-ton locomotives and a moving load of 3,000 lbs. per lineal foot on each track. The approaches include 8,000 feet of viaduct and over one mile of steel railway on the east and 1,100 feet of viaduct and 2 miles of steel railway on the west, the whole length of bridge, viaduct and approaches being over 4 miles. Since that date, lines have been projected and are about finished, connecting the bridge with a system of railroads centring at Campbell Hall, N. Y., and also with the Hartford and Connecticut Western RR. at Silver Nails, N. Y.

In January, 1887, two companies were incorporated in the interest of this company, the Hudson Connecting RR. Co., to build a railroad from New Paltz, N. Y., to a connection with the Walkill Valley RR. at Pine Bush, N. Y., about 20 miles, and the Poughkeepsie Connecting RR. Co., to build a railroad from the eastern end of the bridge to a connection with the Newburg, Dutchess and Connecticut RR. at Moores Station, N. Y., about 10 miles. Companies have also been organized to build railroads connecting with the New York and New England RR. at Hopewell Junction, with the New York, Lake Erie and Western at Newburg, and with the New York, Ontario and Western RR.

On March 4, 1887, parties in the interest of this company purchased a controlling interest in the Hartford and Connecticut Western RR.

Financial Statement.—Capital stock, $5,000,000; funded debt, 1st mortgage 6 per cent. 50-year $1,000 gold bonds, due August 1, 1936, interest payable February and August, $5,000,000—total stock and bonds authorized, $10,000,000. History.—Consolidation October 1, 1861, of the Watertown and Rome RR. Co., chartered April 17, 1832, and road opened in June, 1852; and the Potsdam and Watertown RR. Co., chartered February 23, 1852, and road opened in June, 1857. The Lake Ontario Shore RR. Co. was chartered March, 17, 1858; road opened to Ontario (51.3 miles) in 1873; sold under foreclosure September 22, 1874; transferred to this company, January 15, 1875; and completed to Lewiston in 1876. The Syracuse Northern RR. Co. was chartered February 25, 1868; road opened in 1871–72; sold under foreclosure and reorganized as the Syracuse and Northern RR. Co., and consolidated with this company in 1875. On April 15, 1885, the Oswego RR. Bridge Co., an organization which was chartered in 1872, was consolidated with this company, and on December 8, same year, the Syracuse, Phœnix and Oswego RR. was leased for 450 years. In January, 1886, entered into an agreement for the use of the tracks of the New

York, Ontario and Western RR., from Fulton to East Oswego. The Norwood and Montreal RR. was leased March 1, 1886; the Utica and Black River and its leased Carthage, Watertown and Sacketts Harbor road, April 16, 1886. For terms of leases see sub-head statements for the several companies.

The property of the Rochester and Ontario Belt Ry. Co. was sold under foreclosure in August, 1887, and purchased in the interests of this company. The Rochester and Lake Beach RR. Co. was organized as a successor corporation, and subsequently merged in the Rome, Watertown and Ogdensburg Terminal RR. Co. The Windsor Beach and Ontario RR. Co., chartered to build from Windsor Beach, the terminus of the Rochester and Lake Beach RR. to Ontario Beach, was also, early in 1888, merged in the Rome, Watertown and Ogdensburg Terminal RR. Co. This latter company thus became owner of the entire line from Rochester to Windsor Beach, and to Ontario Beach.

On March 15, 1888, this company leased in perpetuity the property of the Rome, Watertown and Ogdensburg Terminal RR. Co. at a rental equal to interest on $375,000 first mortgage bonds, and six per cent. dividends on $250,200 capital stock.

On the first day of April, 1878, this company made default in the payment of interest on its consolidated bonds. In 1882 a reorganization was effected, by which the rate of interest upon the consolidated mortgage bonds was reduced to 5 per cent. per annum; and the accrued and unpaid interest on the consolidated mortgage bonds up to July 1, 1882, was funded into non-cumulative income mortgage bonds, upon which such interest shall be paid as may be earned, not exceeding 7 per cent. per annum. An assessment of $10 per share upon the capital stock was also levied, stockholders receiving income bonds to the amount of the assessments paid by them. During the past fiscal year, $1,120,000 of the stock of the Utica and Black River RR. Co. have been surrendered to the Rome, Watertown and Ogdensburg RR. Co. in exchange for securities of this company. The stock surrendered is now in the treasury

* These bonds were originally 7 per cent., and fell due September 1, 1880, but were extended for 30 years at 6 per cent. † Of the original issue ($1,200,000), $178,500 have been cancelled by sinking fund. ‡ $794,000 of these bonds are held by the company and $784,000 are deposited by the Central Trust Co. for retirement of income bonds. § In April, 1886, holders of 80 per cent. of the income bonds agreed to exchange their bonds for 40 per cent. in consolidated mortgage 5s and 60 per cent. in stock. In April, 1887, it was decided to retire the entire issue. Under the terms of this plan, all but $13,000 are in the control of the company. Interest on all bonds payable at the Central Trust Company, New York City. All bonds are coupon except the incomes of 1882, which are registered. The Watertown and Rome 1sts are $100, $500, and $1,000 bonds; the 1st 7s of 1891 $500 and $1,000 bonds; the bonds of all other issues are for $1,000 each.

The second mortgage bonds became due March 1, 1882, when the company proposed to issue new consolidated mortgage 5 per cent. 40-year bonds, dated February 1, 1882, and not to exceed $3,400,900, for which the present firsts with coupons thereon should be exchanged at par; the L. V. RR. Co. to pay the guaranteed seconds upon their maturity, and to receive in exchange for such an equal amount of new 5 per cents; the $242,000 unguaranteed seconds to be exchanged for $160,000 of new bonds, the balance to be applied to retiring the

present floating debt, betterment of the road, etc. In furtherance of this plan all the outstanding bonds had been retired on September 30, 1884, with the exception of $90,000 1st mortgage and $1,050 interest bonds. The company has deposited with the Metropolitan Trust Co. of New York its consolidated bonds to meet the outstanding firsts and the interest bonds. Annual meeting, second Wednesday in November. Books close for annual meeting 30 days prior thereto. Ownership of stock for 30 days entitles holder to vote. Interest on bonds payable February and August.

On the 23d of December, 1886, the directors voted to lease this road for 975 years from January 1, 1887, to the Lehigh Valley RR. Co. It was transferred by the lessee to the Pennsylvania and New York Canal RR. Co., and is now operated as a division of its line.

STATEN ISLAND RAPID TRANSIT RAILROAD COMPANY.

Main Line of Road.—Elizabethport, N. J., to Arrochar, N. Y.....10.00
Leased: *Staten Island Ry:* Clifton, N. Y., to Tottenville, N. Y.....12.70—22.70 miles. 2d track (owned, 9.0; leased, 4.20), 13.20 miles. Sidings (owned, 1.8; leased, 0.8), 2.6 miles. Gauge, 4 ft. 8½ in. Rail (steel, 15.8 miles), 56 to 60 lbs.

History,—Chartered April 14, 1880; road opened from Clifton to Tompkinsville, 1.17 miles, July 31, 1884; as above March 7, 1886. Projected to run from South Beach along the east and north shores of Staten Island to Bowman's Point, opposite Elizabethport, N. J., a distance of about 12 miles. The Staten Island Ry. is leased for 99 years from August 1, 1884. A controlling interest (51 per cent.) in the stock of the Staten Island Rapid Transit RR. Co. was acquired by the Baltimore and Ohio RR. Co. To provide adequate facilities for the Baltimore and Ohio, this company made large purchases of land at New Brighton, Tompkinsville and Stapleton, and in New Jersey, built two new ferryboats costing about $200,000 each, constructed a railroad bridge across Arthur Kills and the Staten Island approaches thereto, built a double track road from Clifton to the South Beach at Arrochar, put down a double track from Clifton to New Dorp, and built extensive new ferry buildings and slips at Whitehall Street Dock, New York City. The means for these improvements was provided by an issue of $2,500,000 second mortgage 5 per cent. 40-year bonds, due July 1, 1925, and interest payable January and July. These bonds are guaranteed, principal and interest, by the Baltimore and Ohio RR. Company.

Rolling Stock, September 30, 1888.—Locomotive engines, 14. Cars—passenger, 64; freight (box, 7; platform, 8), 15—total cars, 79. Of which leased: 5 locomotive engines; 13 passenger cars; 3 box and 4 platform freight cars. The company also leases 12 ferry-boats.

Operations for year ending September 30, 1888.—Train mileage—passenger, 330,572; freight, 16,995; other, 15,510—total, 363,077 miles.
